The Insurance and Finance Chronicle of Montreal speaks as follows of the Liverpool and London and Globe Insurance Co.—Since it entered the Dominion just forty.three years ago the Company has deservedly won a very large share of the patronage of Canadians. In the year 1893, its Canadian branch had about \$50 000 000 at risk and paid nearly \$300,000 in losses. The Company is a large investor in Canadian securities; its total assets aggregating about \$1,500,000, a fact which entitles it to reciprocal confidence and liberal support at the hands of Canadians. Death of Mr. Peter McNee, Era-

The deceased, Mr. Peter MoNee, died after a short illness of about two months at his residence, lot 24, cen. 1, Eramose, on the evening of the 9th of June. The funeral took place on the 12th inst, and was largely attended by friends and neighbors, showing the esteem in which the deceased was held.

Mr. MoNes was born in Nichol in the year 1835. He had, therefore, reached the age of 59 years. When a young man he estiled in Eramose and married Miss Jane Sootk, of Nichol, who survives him, and also two daughters, who mourn the loss of an affocionate husband and father. He was of a retired nature, industrious and careful in his habits, and had acquired a fair competence of this world's goods so and careful in his habits, and had acquired a fair competence of this world's goods so that the wife and family will be comfort ably provided for. He was a consistent member and a regular attendant of the First Presbyterian oburch, Eramosa. A life not quite so active in public as some, but commendable from the face that he quietly attended to his own affaits, he will be sadly missed by his wife and family, who have the deep sympathy of his friends and neighbors. Rev. J.B. Mullan, Fergus, attended to the funeral service at the house.

A Remarkable Fall.—Galt Reformer:
—Early Sunday morning one of the street railway employees, named Thos. Fiannigan, who boards at the Albion hotel, came to the conclusion that it would be more comfortable cut on the roof than in bed. He climbed out through the key light to his elevated bed on the roof, and was quietly enjoying the refreshing zephyre when his room mate called—"Tom, come to bed or you will fall salesp, and side off the roof." "Tom" halleed back that he was all O. K., and that there was no danger of his alumbering. But soon afterwards he fell into a gentle sleep, and at half-past three. he found himself on the payerment on Water st. After rub hing his eyes for a considerable time, he exclaimed, "Where am I?" It took a great while for the assembled boarders to considerable time, he exclaimed, "Where am I?" It took a great while for the assembled boarders to considering that he fall a distance of 30 feet, he was very looky in escaping with a fractured wrist, a severe shaking and a number of braines. He was taken to the hospital where he was examined for further injuries. Powelbly the fact of the main being in a state of deep somnolence saved his life, as such a fall twa sufficient during animation to have caused death.

A Haper Lurs—It worth every man's while to study the important art of living happily. Even the poorest man may, by this means, extract an increased amount of joy and olessing from life. The world need not be a "vale of tears" unless we command, to a great extent, over our own lot. At all events our mind is our own horsolour tempers and dispositions to a considerable extent; we can educate our serves will it to be so. We have the command, to a great extent, over our own lot. At all events our mind is our own not slowable extent; we can educate our serves will at the serves our death and our low own possession. We can endeste and our slows of the main pure thoughts, and lead live of peace.

An Engine with a History.—St. John Globe: The engine in use in Hamilton's mill, recently burned down, was one of the first, if not the first engine, brought to St. John. The mill was put into operation July 29, 1823, being the first steam saw mill started hare, and the engine was built by the firm of Boulton & Watt, Birmingham, England, of which the famous engineer and inventor, James Watt, was the founder about the year 1775.

EARLY CLOSING.—There is a movement on took among the dry goods people to have their places of business closed every Friday afternoon at one o'clock during July and August, thus giving the employees a half holiday as is done in Toronto and other cities.

Br. Carmannes Journal: A drunken dry goods clerk attempted last night to haul down the British flag fixing over Jukes' drug store, but was run in by the police. As he did no damage he was released in order to avoid international complica-tions.

ELECTIONS.—There is very little excitement in the city today over the elections. The vote police is noon in all the politing subdivisions was remarkably small. Very little interest seems to be taken into recult. Unless there is a big effort this afternoon to bring out voters, the vote will be a small one in comparison of that which the city generally polls.

Executes Donous.— It is acceptising to what mean, contemptable tactice biased parties will resert to during an election contest. Mr. Andrew Sample, M. P. for Centre Wellington, came up to vote for Mr. Craig. A seterday he received a telephone message, evidently from Blooming-date, where his mother resides, its ing that she was dangerously ill, and to come to her bedieds at once. As Mr. Sample's mother is over ninety years of age, he thought there might be some truth in it. Like a prodest man, however, he want at once to the tedgraph office and tedgraphed his folks, and the answer be received was to the effect that his mother was as well and hearty as usual. The object evidently was to get Mr. Sample away from assisting Mr. Craig in his election. It was a dirty srick to say the least of it, and was undoubtedly put up by some one well informed about the affaire of the family.

A VISTOR FROM MANFROM —Rev. James Monro, of Gladstone, Man., is visiting friends in this city. Mr. Monro is an old Guelphile, but has been an the neighboring Province for the past vietve years. He is regarded as one of the oldest Presbyterian ministers in his district. When called to his present charge a couple of years ago, he found she congregation worshipping in an old log building, but he as once inspired sufficient enthusiasm into the fixed toommence the construction of a handsome brick edifice, surpassing in beauty all other sacred edifices in the town. Mr. Monro speaks highly of the condition of the sestlers around Gladstone, many of whom have grown to affluance through following mixed farming. Large bande of hores and herds of castle are raised just north of the town. Very few in his neighborhood confine themselves to wheat growing alone.
