At Sheepshead Bay.

New York, June 29.—Wax Taper, at 3 to 5, and Nones, at 11 to 10, were the only winning favorites at Sheepshead Bay yesterday. Well-backed horses got past the judges first in the other events, however. The June stakes, at 5½ furlongs, was the only fixture, and it furnished the best race of the day, in spite of the fact that there were only four starters. Gay Boy and Disadvantage were equal favorites at 2 to 1, while Alibert was held at 3 and Peninsular at 4 to 1. Alibert and Gay Boy made the running head and head, but as they rounded the bend into the stretch Peninsular and Disadvantage Joined issue. Peninsular was the best, and won, ridden out, by a neck, while Disadvantage beat Gay Boy a head for the place. Winners: Man-o'-War 4-1, Wax Taper 3-5, Peninsular 4-1, Herbert 3-1, Swet Tooth 7-1, Nones 11-10. Good Time at Listowell.

Hamilton Men Lost Sult.

Toronto, June 28.—The sult of the Hamilton Basebail Club to compeltie Toronto Basebail Club to pay over the Worcester Club's share of the games with Worcester here on Mag. 10, 11 and 13, on a judgment summons, came up before Judge Morson in the Divisional Court yesterday. Treasurer T. G. Soole, of Toronto Club, produced assignments of Worcester's share of the receipts on those days of President Pat Powers, of the Eastern League, and the suit was therefore dismissed. Last year Hamilton sold Thirdbaseman McAndrews to Worcester. McAndrews to Worcester. McAndrews to Worcester McAndrews to Worcester. McAndrews as retained a week and offered a contract, but he would not sign unless the Hamilton Club allowed him half of the purchase money. This the club refused to do. The Hamilton Club entered sult and recovered \$200 with costs and attempted to collect when Worcester last played here by garnishing the receipts. President Stroud and Manager Collins, of Hamilton, were on hand. Their interests were looked after by J. G. Gaud.

ROWING.

English Opinion of Pennsy.

London, June 29.—The Daily News, discussing the crews at Henley, says public interest centres in the doings of the Pennsylvania University crew, and that the race will be a fair test of the American and English styles of rowing. The Daily News admits that the Leander crew is as good as any crew which has won the grand challenge cup in the last ten years, and that the Americans form the best foreign crew ever seen at Henley. The paper doubts whether the English crews will be able to beat the Pennsylvanians.

Henley, England, June 29.—At an unofficial weighing, the University of Pennsylvania crew totalled 4,274 pounds, an average of 159 pounds. The Leanders average 173 pounds. The draw for stations occurs today. Under the prevailing conditions there is a difference of two lengths in the stations.

The Pennsylvania University crew had a remarkably fast trial yesterday, paced by the famous triple scullers, Godlan, Sulivan and Towns. Pulling 42 strokes to the minute throughout, the Americans beat the pace-makers by three-quarters of a length, which no other eight was ever able to do.

YACHTING.

Cup Races Condemaed.

London, June 29.—The Field published to-day, in an editorial on the history of the cup contest, reiterates the complaint that cup racing has reached a phase in which the time-honored interests of sport have been thrust aside, and the moment has arrived when British yachtsmen should guard against the introduction of irrelevant issues and spurious sentiments. The Field attacks the New York Yacht Cub's rating rule as tending to produce a bad and unseaworthy type of boat and protests against the interference in the sport of ignorant and wealthy laymen. The Field concludes its editorial, saying: "in bygone years the America Cup had a beneficial influence, but now it is doing more harm than good to yachting."

A MINISTER'S DOG STORY.

Senator John Thompson is about one of the best storytellers in Nashville, and his repertoire includes a lot of good ones, fish and otherwise. On the truthfulness of some he will stake his reputation for veracity, but he tells one which he always prefixes with the statement that it was told him by a ministen of the gospel, Dr. Bardwell, who was pastor of the First Presbyterian Church during the latter years of Gen. Andrew Jackson's life, and attended the old hero in his last illness. Senator Thompson said:

Dr. Bardwell used to visit my father's house when I was a boy, and the story I am about to tell you was related to me on the occasion of one of these visits. We were out on the veranda smoking one evening after supper. The doctor was fond of dogs and was a pretty good sportsman, and naturally the conversation turned on this subject.

"Speaking of dogs," said Dr. Bardwell, "reminds me of a dog which belonged to a friend of mine in Mississippl I had been invited to hold services at a church near this friend's house, and wrote him to meet me at the station, some six miles from his house, and wrote him to meet me at the station, some six miles from his house, on the Saturday afternoon before Sunday, the day of the appointment.

"That's the dog," at the same time pointing at his dog which had run ahead of us and was waiting at the forks of the road.

"I asked him to make him perform a trick. He got down from his horse, called the dog, and taking out his pocketbook held it to the dog's nose. He then took out a silver half-dollar and walking some distance into the woods raised up a large rock and put the money under it. We then resumed our journey, and when probably half a mile away, my friend called his dog and told him to go back and get the money.

"The dog, without the least hesitation, started back on a run, and my friend explained as the rock was heavy the dog would be unable to turn it over, so would have to scratch under it to reach the piece of money and he would not probably get home before we reached there, it then being about three miles further on to his house.

"However, when we reached home the dog was not there. We ate supper and still the dog did not come.

The English Love Flowers. "Everybody in England, except the wretchedly poor, will have flowers," says Nellie Blanchan, in Everybody's Magazine. "More than that, the peowretchedly poor, will have flowers," says Nellie Blanchan, in Everybody's Magazine. "More than that, the people will have gardens even in the heart of the city: Dismal rows of brick walls, numbered at regular intervals to indicate the possession of the space by distinct families, may frown forbiddingly upon the street; but enter one of these houses, look out of a back window, and nine times out of ten a garden will smile up at you. Such a garden, extending the entire length of the brick row, will be jointly possessed by all the occupants. Many similar cases in the desert of life, one comes upon in the most unexpected corners, Small driving parks, alike, adorned by land-scape architects who certainly understand their charming business, do much to cultivate the public taste, while increasing the healthfulness of body and mind of the people. We Americans, have not, as a rule, learned to sacrifice some less important things, if necessary, in order to have these so-called luxuries. A small plot of neatly-cultivated garden, growing plants for her drawingroom and window-boxes, fresh flowers for the dinner table—these are among the necessaries of life even to the English housekeeper of small means, whose other expenditures may be counted with an economy amounting almost to parsimony when judged by lavish American standard."

European Shortage.

WashIngton, June 28.—Much Interest was manifested here to-day in the special cable despatch from Paris stating that the shortage in the French wheat crop would probably necessitate the importation of at least 36,000,000 bushels this year.

From the most careful estimates that can now be made, the winter wheat crop of Prussia, which was 2,245,515 metric tons in 1900, will this year not exceed 1,192,000, leaving a defleit of 1,053,515 tons, which would cost \$43,732,500 to supply with imported grain.

Including the deficit in the rye crop Mr. Mason says that in Prussia alone there will be a shortage of 1,766,636 tons of bread producing cereals, valued at \$67,246,500.

Montreal wholesale trade has been moderately active this week, especially in certain lines which are always called for at this season with the first burst of summer heat. In some departments, however, there are signs of trade settling down into midsummer duliness.

are signs of trade settling down into midsummer duliness.

There has been improvement in the wholesale trade at Toronto the past week. The hot weather has created a better movement in many seasonable lines.

Business at Hamilton has been a little more active this week, especially in goods suitable for the hot weather and for all sorts of outing lines. Travellers' orders have been quite large both for current sales and the fail trade. The outlook, as generally reported by the wholesale firms, is very encouraging.

Trade at the Coast has been moderately active. Some large orders for the mothern mining supply trade have been lilled lately.

Trade at Munipeg has been greatly stimulated by the splendid prospects for the wheat crop.

To Make Strawberry Jam.

Here are directions for making strawberry Jam, which have stood the test of years: In buying your berries for Jam, do not get large ones. Small or medium-sized berries are far better, and be sure they are quite ripe. Pick them over carefully, remove all the hulls, then wash them free from dust by putting the berries, a few at a time, in a colander and pouring cold water over them. Let the berries drain, then put them in an enamelled pail and weigh them. Weigh three-quarters of a pound of granulated sugar to each pound of fruit. Put a layer of berries in a big preserving kettle, then a layer of berries; repeat this process till fruit and sugar are all in the kettle; stand the kettle over a slow fire; with a potato masher erms, the fruit and sugar togetien.
