VICE-REGAL VISITS.

How Dufferin, Lorne Lansdowne and Stanley

Were Welcomed to Fredericton.

The topic uppermost in the minds of Frederictonians at the present time, is the approaching visit of the Governor General and Lady Aberdeen, and the manner in which they shall be received, and this suggests and recalls the visits and reception of former Governors General. THE HERALD has taken some trouble to look into the incidents of the past in this connexion, and is able to lay before its readers to day, a uccinct and correct account of each of the vice-regal visits with which Fredericton has been honored. Dufferin, Lorne, Lansdowne and Stanley have been welcomed to this city, and on all these occasions the citizens extended a hearty and loyal reception to the Marquis of Lorne with his royal wife, of course, was made the occasion of the biggest welcome, but the other gentlemen had no reason to complain of the manner in which they were treated in the Celestial

Lord Dufferin was the first Governor General of Canada to officially visit Fredericton, and accompanied by Lady Dufferin and his staff, he arrived here from St. John August 23rd, 1873 - nearly twenty-one years ago. The party came up the river in the David Weston, and when near this city, were met by the reception committees and For Wood a large number of the populace on steamers gay with bunting. A guard of honor and an artillery salute greeted the distinguished visitors as they stepped on shore, and among those who were at the wharf to receive them were Governor L. A. Wilmot Mayor Gregory, Sheriff Temple, Colonel Saunders, Major Otty and Major Inches. The Governor General and his lady were escorted to Government House by a long procession of dignitaries, through crowds of cheering multitudes, and after dinner, four thousand people were present at the Exhi-
