MILLION AND A HALF GERMANS KILLED.

PARIS, To-Day.
The total number of Germans killed from the beginning of the war to March 1917, is not less than 1,500,000, according to an estimate reached by the French General Headquarters. This compilation was made after a careful study of documents bearing on the subject.

PRO-ALLY FEELING IN MEXICO.

EL PAZO, Texas, To-Day.
Since the pro-ally campaign in Mexico was first started by 'El Universal' in Mexico City the sentiment favoring the Allies has reached Northern Mexico, and during the past 30 days a well defined movement favoring an open break with Germany has developed. A reflection of this sentiment was seen recently in a statement of General Francisco Gonzalez, acting Commander-in-Chief of the northeastern military zone with headquarters at Chihuahua. He was overcharged by a German firm for some padlocks. The manager was arrested and placed in a penitentiary. The German Consul made a demand for his release in the name of the Imperial German Government and the Kaiser, according to a Mexican official who was present at the time. "Tell the German Consul that he, the Imperial Government and the Kaiser may all go to hell," General Gonzalez answered. "Prominent Mexicans, men close in touch with the capital, predict that Mexico will declare war on Germany within 20 days."

ANTICIPATE REPUBLICAN VICTORY IN CHINA.

WASHINGTON, To-Day.
The belief here that the monarchical constitution in China is destined to failure was increased to-day by each new item of news, both official and unofficial, which came to the attention of the State Department. Minister Reihana reported that several, or at least some, of the northern military leaders who are felt to hold the country's destiny in their hands have taken the field in opposition to General Chang Hsun's attempt to destroy republicanism in China. The action of Tuan Chi Jui in accepting his former post as Premier under instructions from President Li from his asylum in the Japanese Embassy at Peking, has strengthened faith in the ultimate success of the republic.

IMPORTANT REVOCATION.

WASHINGTON, To-Day.
Secretary Baker last night revoked his order diverting to the War Department all press cablegrams concerning American troops in France.

GRAVE SITUATION IN CHINA.

LONDON, To-Day.
The Peking correspondent to the Exchange Telegraph Co. says that the advance of the northern and southern republican armies under Tuan Chi Jui, the former Premier, and General Feng Kwo Chang, the former Vice-President, respectively, has commenced. They are moving towards Peking. The situation, the despatch adds, is considered grave.

NEW DEPARTMENT.

PARIS, To-Day.
President Poincaré has signed a decree creating a new Under Secretary-

ship of sea transportation and merchant marine connected with the ministry of public works.

IRISH LEADERS MEET PRESIDENT

WASHINGTON, To-Day.
T. P. O'Connor and Richard Hazleton, leaders of the Irish Parliamentary Party, were presented to President Wilson to-day.

AN ULTIMATUM.

BUENOS AIRES, To-Day.
Newspapers here declare that if, after the new demand made by the Argentine, Germany continues to attack Argentine merchant ships, the Argentine Government probably will decide to break off diplomatic relations with Germany.

PROCEEDINGS IN BUNDESRAT.

AMSTERDAM, To-Day.
The German Bundesrat, says a Berlin despatch, has approved a Bill prolonging the life of the Reichstag. A measure dealing with the position of Alsace-Lorraine also was passed by the Bundesrat.

THE SHIPYARD STRIKE IN NEW JERSEY.

NEW YORK, To-Day.
Leaders of the striking machinists in six New Jersey shipyards claimed to-day that nearly 5,000 men were already out, and if the employers did not meet the demand of the men for a minimum wage of \$4.50 a day the number would be increased to 10,000 to-morrow. The employers, on the other hand, minimized the extent of the strike and said they could get more men if they needed them.

COMPULSORY SERVICE CARRIED IN CANADA BY BIG MAJORITY.

OTTAWA, Ont., To-Day.
Sir Wilfrid Laurier's referendum proposal was voted down this morning by 111 to 62. Eighteen Liberals voted with the Government on the main motion, the vote stood 118 for compulsory service, 55 against. Only eleven English speaking members in the whole House voted against the measure. When the result was announced the whole House, galleries included, rose and sang the National Anthem.

MATTERS IN FINLAND.

PETROGRAD, To-Day.
Russian troops have left Uleaberg, Finland, in accordance with the request of the local committee, according to a despatch from Helsinki. Similar requests are being received from different parts of Finland, some of them based on the cost involved in maintaining the soldiers. A party of Kronstadt sailors came to Petrograd at the request of the Kronstadt group of Workmen's and Soldiers' Deputies and tried to obtain admittance to the cells of an anarchist who had been arrested, but the guards of the local regiments refused to admit them to the prison. Major General Seyn, former Governor of Finland, has been released from the fortress of St. Peter and St. Paul. He recently was arrested by the commander of the Baltic fleet on the order of the Provisional Government.

SHORT OF LEATHER AND DAIRY PRODUCTS.

WASHINGTON, To-Day.
The State Department has received a cablegram announcing that the City Council of Zittau, in Germany, is urging the entire population to go barefooted in order to harden their feet to be prepared for the winter ordeal, when there will be no shoes. Pupils of Wuerzburg started the shoeless style on June 25. Another message received by the Department says that sixty per cent. of the milk cows in many districts have been killed for

French Red Cross Fund Entertainment.

Picturesque and Successful Concert and Dance.

The open air concert and dance held last night at Quimpac, the residence of Mr. Charles Emerson, in aid of the French Red Cross Fund was very enjoyable socially and successful financially. Netting a substantial subscription towards an object that needs it greatly. The affair was under the management of Mrs. J. Alex. Winter and Miss Clara Emerson, who are to be congratulated on its success and attractiveness in every detail. The large and beautiful grounds were hung with bunting and coloured lights, presenting a picture the beauty of which was only slightly marred by the fog which unkindly descended at nightfall. Some three hundred guests were present, including the French Consul and Madame Suzor, M. and Mile. Bidel, Sir Edward Morris, Hon. P. T. McGrath, Mayor Gosling and many others. The large lawn has been covered with a wooden floor and an attractive dance programme was enjoyed up till midnight to the excellent music of the C.L.B. band. Upon the arrival of the French Consul the "Marsellaise" was played, all standing, and then splendidly sung by Madame Suzor, Mile. Bidel and Mr. F. Emerson. Concert numbers were pleasingly interspersed among the dances, including a programme française, to which solos were contributed by Mme. Suzor, Mrs. C. Hutton, Mrs. C. Cahill, Mile. Bidel, Miss Mews, Mr. C. Hutton and Mr. F. Emerson; recitations by Mr. T. H. O'Neil, and a horn solo by Mr. C. Bulley. Ice creams, fortune telling and refreshments added to the pleasure and proceeds of an entertainment unique in its kind and worthy in its object. It is to be regretted that the unfavorable turn of the weather prevented the attendance being even larger than it was.

BRAVE MEN.

Brave men are they who seek the foe, upon the waters or the heath, who fight until they're stricken low, and, smiling, greet the face of death. And some are brave who are not called to wield the sword in deadly charge, because they are too short or bald, because their tributes are too large. On them a heavy burden lies; they are the men who raise the price, to send the allies guns and pies, and clothes and succotash and rice. Among them there are noble souls who bear the burden with a smile; they're glad to strip their slender rolls, and think the sacrifice worth while. Some men had found the sledding hard before the day of war arrived; it broke them buying beans and lard; they wondered how they'd survive. But now the country needs more men, they cry, "Some way we'll dig the dust, to buy our Uncle Sam a gun; we'll raise the extra bones or bust." The cheerful spirit these men show is just as fine as martial zest, which leads a man to swat the foe and knock a Prussian galley west. So we have heroes in the mart, and on the farm and in the street, who could not save the war take part, because of bunions on their feet.

We wish to inform our customers that we have received another shipment Ladies' Black Mercerized Hose at same price, 25c. pair.

Blame Only Yourself for Touchy Corns

Blue-jay may be bought at any drug store. This means relief is near, if you want it. Painful corns succumb to these inexpensive, wonderful little plasters. Millions of people have mastered corns this way. The treatment is quick and gentle. The first application ends most corns after 48 hours. The stubborn few vanish with the second or third treatment.

Pared corns keep coming back. Harsh liquids are dangerous. Blue-jay treatment alone is permanent.

Prove tonight that every corn is needless. Get Blue-jay at your drug store. Relief is instant. In 48 hours your corn is gone forever. Try this certain way once—tonight!

THE SPINE.

The spine is a long, narrow tool box which holds nothing but an inner tube. When filled with quiet courage and a cold nerve, however, this tube is harder to puncture than the tire on a motor truck.

The spine is surrounded by a bristling object known as the backbone, which sometimes produces nothing but bristles. You never can tell by the looks of a belligerent backbone in times of peace how it will act when the call for volunteers comes. The greatest collection of simon-pure backbones ever gathered together in this country was assembled during the Civil War, and there are several million more just like them ready for immediate use.

The spine is the secret of success in life, and has more to do with landing a man in a political office than campaign cigars or free-flowing oratory. Many a man has run for Congress with nothing but a valve-in-head spine and the Republican campaign text book, and come off conqueror because he began to organize for two years hence as soon as the polls were closed. The man whose spinal cord can't stand a little grief without collapsing like a cream puff will never startle the wholesale house into shipping anything in his direction without a C. O. D. tag on it.

It frequently happens that the only spine of any consequence in the household is owned by the wife, who inherited one of the New England type from her grandfather. If there were more spines of this character led up to the marriage altar in a tulle veil,

there would be less money spent on 25-cent drinks and more on round steak and creamy butter. Also there would be fewer women supporting duplicates of Darwin's missing link by taking in other people's washing.

You never can tell how it will act when the call for volunteers comes.

The spine of the nation is vested in the President, who is supposed to supply what is lacking in Congress. A President with a well-developed spine can be more useful to his country than a standing army, but it need not be so well developed that chips are sticking out on each shoulder, so much as it does balance, and if it has a President who can supply both, he earns his salary.

Interesting Prohibition Case.

A city manufacturer appeared in court to-day, charged with manufacturing Beer, Iron and Wine containing 16 per cent. alcohol, within the past six months, contrary to the Prohibition Act. Mr. Morris, K.C., J.P. presided. The defendant, through his counsel, Mr. Gibbs, pleaded not guilty. Messrs. Hunt and Dunfield were the prosecuting lawyers, Mr. Hunt stating that this patent medicine had not been accepted by the Governor-in-Council and was an intoxicating beverage. During the hearing of the case some bitter passages at arms occurred between the lawyers and Judge arising out of conflicting evidence given by a boy, who worked with the manufacturer. One time the lad said on being cross-examined by Mr. Dunfield, that he never went to school and was unable to read or write, later he said he could write his own name. Questioned as to what certain packages contained, witness replied "Lime Juice and Vinegar." When asked how he knew this he retorted that anybody knew how to spell vinegar and these words were labelled on the boxes. Mr. Dunfield then remarked that the manufacturer had his employee well instructed before coming into court, to which Mr. Gibbs strongly took exception. In closing his cross-examination Mr. Dunfield asked the witness: "If his boss ever told him what certain packages contained when delivery was about to be made, Mr. Gibbs protested vigorously against such an irrelevant question and stated that his client was not in court to be persecuted. The Judge interjected and said that the question was permissible. Mr. Gibbs then registered his objection on the grounds that if the charge of manufacture was not proven, a charge of selling Beer, Iron and Wine would be held against his client, if the question regarding delivery was allowed to be put in as evidence. The Judge still upheld Mr. Dunfield and some hot cross-firing took place between the Judge and Mr. Gibbs over the latter intimating that he would have the case argued in a higher tribunal. Two girls, employees with the defendant, also gave testimony and at 1 p.m. an adjournment was taken.
