# GEORGE SAYS:

I can sell you an umbrella worth \$3.00 for \$2.00.

These are not any Job lot but are regular stock, well made, good strong frames, steel rod, bent wood handles and mercerised

Now I'll tell you how it's done.

I went to the factory and the Manufacturer said to me, "Buy a case of these Umbrellas and you will be able to sell them for \$1.00 less than the regular price."

I said to him the same thing as you are likely saying in your mind about me.

But then at that time business was not so good with our American friends, and they would sell at any price provided you showed them real money.

Consequently I bought. It's now up to you. Remember the price-\$2.00

Yours for quality and service.
