

Butter brings from 40c to 48c per lb. at St. Albans.

Thirty-nine of the most considerable weight in New York and Connecticut assembled at a feast the other day at Greenwich, in the first named State, to compare the results of their year's fattening upon clams, oysters, and the usual accompaniments. A more solid body has not met probably in our time. It weighed in the aggregate 8,766 pounds, 4 tons, the prime animal reaching the healthy standard of 315 pounds, the smaller stock running from 200 to 250 pounds a piece. There was no disturbance at the festival in spite of the number of belly-gerents.

FEMALE EMIGRANTS FOR BRAZIL.—The Anglo-Brazilian Times, printed at Rio Janeiro, calls loudly for female immigrants—for women for domestic service, women for wives, women for manufacturing purposes. It says that there is a great scarcity of women in all the large cities and towns, and that almost any number could find employment at good wages. It appeals to the government to furnish money to pay the necessary expenses attending the importation of several shippers; upon the Empress and Princesses to lend their assistance to the scheme, and upon the citizens of Rio to organize a society to look after the interests of those who arrive. An abundance of female domestics, it is argued, will materially assist in driving out slavery and all its moral evils from the inner life of families, and will attach foreigners to the soil, when Brazil will gain in population, labor, wealth, and general morality. Here seems to be a new field open for Miss Rye and other ladies who are engaged in the female importation business.

EXPORTS OF GOLD.—The exports of gold from the States to Europe have been unusually large. Since the 1st of January last there has been shipped from New York alone sixty-four millions of specie and bullion against about forty millions for the same period last year, and this has been the cause of the recent rise in gold to 150. Another cause, says the New York Herald, lies in the continued preponderance of the foreign imports over exports. Thus the foreign imports at New York for the week ending on the 21st inst. were valued at \$6,644,290 in gold, while the exports of domestic produce were valued at only \$2,773,635 in currency. Here is the source of the gold export, notwithstanding national securities have been exported to such an extent during the last few years that it is estimated seven hundred millions of them are held in Europe at the present time. The agitation on the financial question which will attend the Presidential canvass can hardly fail to materially advance the price of gold, as the speeches of leading politicians of both parties appear equally likely to create distrust of the public credit, and operate in the direction indicated.

TO CONSUMPTIVES EVERYWHERE.—Having seen much suffering from consumption, and knowing thousands of dollars are yearly spent by invalids travelling for their health, and on medicines and physicians, we propose a simple receipt by which patients may become their own physicians, and if not too far gone, will guarantee a perfect cure if made and regularly taken according to directions. The ingredients are horehound, mullein, and molasses—ingredients that are within the reach of all, the mullein growing wild in every field, the horehound in almost every garden, and the molasses to be had at any grocery. The directions for making are to take a large handful of horehound and boil as strong a tea as can be made. Take up, then boil an equal quantity of mullein in the same way. Take a cupful of the tea of the mullein and mix together in a suitable vessel, then add a cupful of molasses and stow a syringe—the thicker the better. Take a tablespoonful or a large swallow three times a day. Be particular in following directions as to making and also as to taking it, and we will guarantee relief in all cases if not too far advanced. The writer does not claim this receipt as original with himself, but has recommended it in many cases with good results. As the ingredients are so common and so easily obtained, it is best not to make more than a quart at a time, particularly in warm weather, as the fresher it is the better effect will be produced. Papers of the country will confer a blessing on this, alas! too numerous class—north, south, east and west—by publishing the above receipt.—Augusta Chronicle and Sentinel.

COMMERCIAL.

Table with columns for 'Guelph Markets' and 'Money Market', listing prices for various goods like flour, wheat, and silver.

DOCTOR DAVIS

Physician and Surgeon. OFFICE—Merriett-st., directly opposite the Market, and in rear of the Royal Hotel.

Can be consulted at all hours day and evening, on all Chronic Diseases, Diseases of Women and Children, Midwifery, &c., together with those of a private nature. He has devoted over 30 years to the treatment of the above named diseases, and the success so far has been without a parallel, as may be seen from the numerous testimonials in his possession.

No Mercury Used.—Patients at a distance can be treated by correspondence with the Doctor, stating the symptoms of the disease, age, length of time afflicted, &c., and receive the celebrated remedies by express, or as otherwise directed, securely packed from observation. A reasonable remittance on all such applications will be required.

Female Pills.—Dr. Davis' celebrated Female Pills for Irregularities, Suppression of the Menstrues, Leucorrhoea or Whites, and all female difficulties, have been before the public for the last ten years, and are universally admitted to be the best remedy for which they are recommended as yet now in use.

The doctor can be consulted at all times with the utmost secrecy, as his office is so arranged that it is impossible to see each other, unless by consent. No charge for advice when obtained at the office, if by letter. \$1. All letters must be addressed (prepaid) to Dr. Davis, M. D., Hamilton, and to contain a postage stamp when a answer is required. Hamilton, 17th July, 1868.

Guelph August 17, 1868 aw
