Guelph Evening Mercury

FRIDAY EVENING, FEB. 7, 1873.

Town and County News.

**MR. HAMILILL, of Garafaxa, son of
Wm. Samuel Hamilton, got his hands
badly frozen during the cold snap last
week.**

THE WEATHER.—During the past few
days we have experienced lovely weather.
The sun shone bright and warm, and un-
der its genial rays the sleighing has suf-
fered considerably.

A VALUABLE BARE, the property of
Messrs. Markle & Shaw, hotel keepers,
Drayton, received a kick from another
horse, on Tuesday last, which broke her leg.

Y. M. C. A.—The regular weekly meet-
ing of this association was held Thursday
evening. Mr. Bates was appointed gen-
eral secretary, and the evening was spent
in devotional exercises.

SOME.—The Soiree held in the base-
ment of the Primitive Methodist Church,
on Thursday evening, was a most en-
joyable affair. The attendance was quite
large enough to make things comfortable,
and the whole proceedings were such as
to give full satisfaction to all concerned.

S. S. No. 7, NASKAGAWA.—At the final
examination of this school, after the reg-
ular course of examination had been
passed by the pupils, the teacher, Miss
Grant, was presented with an address,
album, Bible, penholder, and pair of
scissors, as tokens of the pupils' respect.
Happy teacher and happy children.

HORSE BURNED AT ALBION.—On Tues-
day morning of last week the dwelling
house of Mr. Wm. Irwin, of Arthur Vil-
lage, caught fire in the roof from the
chimney, and was burned down. The
greater part of the contents were saved.
Fortunately Mrs. Irwin in the absence of
her husband, who is in the States, had
insured the house for \$225 and the con-
tents for \$50 in the Beaver Mutual.

DAYS GONE BY.—The Port Hope Guide
is responsible for the following "brotherly"
notice of the chief spouter of the
Herald:—"Truthful James" has been
getting his new "boss" into trouble, Mr.
Lipheart of Guelph having entered a
writ of HABEAS CORPUS, for the arrest of
one, which "illustrious" redneck, or
churns Tory dum. M. C. Cameron is
said to be retained for the prosecution.
Jim always had a brilliant recklessness of
style, which proved highly uncomfortable
to those against whom his barbed shafts
were hurled. Some of his targets in this
town will long remember his pointed ut-
terances.

ASTRONOMICAL.—Jupiter, the largest
planet, being thirteen hundred times
larger than the earth, is now in the con-
stellation Leo, and just in the east at 10
o'clock. It is said that with small tele-
scopes, and even with a common opera
glass, the moons of this planet may be
seen. They are four in number, and all
but one larger than our moon. To us they
are the only stars of the sixth mag-
nitude, and are consequently not
visible to the naked eye. Jupiter is quite
close to the first magnitude star, Regulus,
the first in the handle of the sickle, and
as the stars in the sickle and the planet
rise together, they form a very conspicu-
ous and beautiful object in the eastern
sky.

A NEW BUSINESS.—Mr. J. D. Mc-
Eachern of the village of Harrison, with
characteristic enterprise, will shortly in-
troduce into his mill, machinery for the
manufacture of cheese-boxes, with a ca-
pacity for turning out 200 boxes per
hour. We are not aware of any similar machine
to this in Canada, and another in the
States. Mr. McEachern will have his in
running order by the 15th of May. The
consumption of timber at the above rate
will be 2,497 standards of chm, and
5,392 standards of pine or bass-wood per
annum. We are not aware of any similar
machine to this in Canada, and another in
the States. Mr. McEachern will have his
in running order by the 15th of May. The
consumption of timber at the above rate
will be 2,497 standards of chm, and
5,392 standards of pine or bass-wood per
annum. We are not aware of any similar
machine to this in Canada, and another in
the States. Mr. McEachern will have his
in running order by the 15th of May. The
consumption of timber at the above rate
will be 2,497 standards of chm, and
5,392 standards of pine or bass-wood per
