### RETAIL MERCHANTS ENTER PROTEST

Say They Are Tired of Being Branded As Thieves and Scoundrels

Ottawa, Nov. 6.—Representatives of the Retail Merchants Association of Canada, who met the Board of Commerce this morning, held that there was no profiteering among the retailers; that they were prepared to do all in their power to assist the Board in their effort to relieve present conditions, and that, in their opinion, the lowering of prices arbitrarily would not help, but make matters worse.

E. M. Trowern, secretary of the Dominion Executive of Retail Merchants, said the retailers no longer wanted to be branded as thieves and scoundrels. It was no good, he insisted, on fooling the public longer about a reduction in the cost of living. Prices would only come down in the natural order. The retailers had been trying to get the Board of Commerce to ally that great unrest in the public mind. He held that ninety per cent. of the people did not know what they were talking about when they insisted that prices had been arbitrarily lowered.

The two vital things affecting the cost of living were supply and demand. The Board of Commerce could not pull down prices; they would have to come down in the natural order. He considered it the duty of the Board and also of the merchants to protect the public from camouflage of this kind. A number of suggestions were submitted to the Board.
