Peculiar

Sarsaparilla is different from and superior to any other medicine.

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one follar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla. Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood puriflers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Be sure toget

A deputation waited upon Hon. Mr. Hardy, Commissioner of Crovn Lands, Tuesday in Toronto, urging that aid be extended for the purpose of promoting the Saugeen Valley Railway, which it is proposed to build from Mount Forest to Walkerton, thence through Greenock township to Tiverton and the port of Inverhuron. The following gentlemen strongly urged the claims of the road for Provincial aid: James Rowand, M.P., R. Truax, M.P. H. P. O'Connor, Walter M. Dack and David Porter, M.P.P.'s for the three ridings of Bruce, and Aaron Wenger, of Ayton. It was urged that the petition of the Saugeen Railway directors, which asked leave to purchase the unpatented lands in Greenock and at Inverhuron at a price not exceeding \$2 per acre, on condition that the road be built, be acceded to. At present these lands are of little value, but it is believed that the construction of the read would increase the value so that a handsome sum could be realized for railway purposes. The quantity of land unpatented in the districts referred to is in the neighborhood of 2,000 acres. The Commissioner of Crown Lands made fall inquiries as to the prospects of the Saugeen Railway Comipany, the position which the company occupied at the present time, as to whether the necessary stock had been subscribed, and other matters pertaining to the road, and said he would bring the petition and the views of the deputation before the Government, when the 'matter would be carefully and fully considered.
