A LARGE SALE OF CHEESE. Last week a Montreal firm sold 12,-000 boxes of Brockville, Belleville and Ducks, per pair Most of which was bought in the west at about 81/4c. The total value of the above sale was about \$72,000.

OATS FOR ENGLAND. Says the Trade Bulletin: There is still a good demand for eats for ex-port, and our shippers have had to draw upon American supplies in order to fill their orders, two steamers having cleared from Chicago this week for Montreal, one with 71,700 bushels and the other with 93,000 bushels, making a total of 164,700 bushels. Holders in the country are very firm, and are in the country are very firm, and are asking prices that are above what exporters can pay, and consequently bus ness is checked to a great extent, re sulting in export orders being filled in Chicago. Regarding prices there have been sales in this market this week of 10,000 bushels of No. 2 white at 29%c afloat and 5,000 bushels at 29%c afloat per 34 pounds. In store, sales were made of about 5,000 bushels at 28½c for export and about the same quan-

Canadian peas are giving good satisfaction in England, and it is hoped the demand will continue into the new crop; there is no reason why it should not if holders do not choke it off by asking too high prices.—Trade Bulle-

THE EXPORT EGG TRADE. There will be considerable quanti ties of eggs shipped from this point during the coming fall, judging from the sales of pickled stock that are being made for English account for September, October and November shipments. Quite a number of sales have been made this week at 6s 3d to 6s 4d for shipment to Liverpool as above. A few lots of fresh eggs are going forward, but it is said that re-cent sales on the other side did not tinuing them; and it is said that our fresh August eggs are marketed, when it is hoped that prices in England will advance sufficiently to war-

rant their shipment. The excessive heat of last week worked great havon with the receipts, some of which came showing losses of 12 to 13 dozen per case, while in other instances the allowances for bad eggs were 4 to 6 dozen per case. June 17 .- The funeral of the late John the deceased. There was Delaware and Mount Brydges Oil and much unintentional injustice. He was extreme. He enjoyed a splendid stitution, and exceptional health and strength, and it was a common ing that he could do twice as much ork as any ordinary farmer ownship. By his own efforts he leared ten acres of pine land in oast year, Neither was he finan embarrassed, nor had he wasted patrimony, as has been stated. rited about \$1,300 from his fa and afterwards took a trip to So Africa. Upon returning, he resun his work on the farm, with his old ime vigor and success. For some days before his death he had been generousaiding a neighbor, James Wicks, with his hay, and as he worked very hard in the hot sun, it is thought his brain was temporarily affected and hat he was unaware of what he was doing when he took the paris green. The entire community was plunged to a most estimable family, who have the sincere sympathy of all. Rev. Mr. Sinclair, of Lobo, conducted the funeral services, and the interment was at Campbell's cemetery.
