#### THE INFLUENCES OF THE WORLD

Sermon by Rev. Mr. Rutledge in the First Methodist Church.

In the evening service at the First Methodist Church, Sunday, Rev. Mr. Rutledge spoke on the subject "Love Doing the Devil's Work," choosing as his text Luke 4, 8 and Matt. 16, 28, "Get Thee behind Me Satan," We are prone, said the speaker, to consider the outside influences of the world, as the only ones dangerous to our moral and spiritual welfare. But of all the agencies the weifare. But of all the agencies the Devil uses to do his worst work is the love of parents for children, or the love of friend for friend, when this love is misdirected. The very love gives an influence which if wrongfully directed, materially enhances the power for evil. We do not expect to meet the flend's face behind the smile of a friend, and therefore we fall the more easily an therefore we fall the more easily an Hamilton, April 5.—Prof. J. #### TREATY HELPS CANADA BAD FOR UNCLE SAM

New Commercial Agreement With France Throws a Scare Into Washington.

Paris, April 5 .- Franco-American trade interests are apprehensive that the ratification of the Franco-Canadian commercial treaty, which was adopted by the Senate on April 1, will be followed by a complete readjustment of Franco-Canadian trade, to the prejudice of American trade in the French market, and German trade in the Canadian market.

As finally adopted this bill is more inimical to American exporting interests than was the original measure. I gives Canada an average advantage of 33 per cent on 150 articles in which the United States competes. These include agricultural and other machinery, typewriting machines, lean cattle, bacon, hams, tinned meats, fish, furniture, etc. Canada gives France the minimum rate on wines and the entire list of French articles of luxury, of which the Payne bill increases the

rates. The Government has authorized M. Jusserand, the French ambassador at Washington, to make representations regarding the petition drafted by the Federation of Industry and Commerce in which the French objections to the Payne tariff bill are set forth.
