Piano Will Interest You

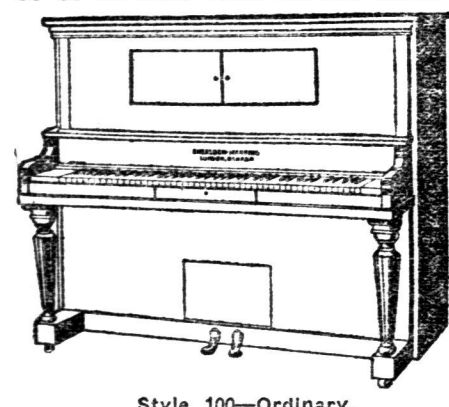

You will have an opportunity of seeing these splendid instruments at the WESTERN FAIR, Sept. 9 to 17.

The SHERLOCK-MANNING PAVILION is situated in THE MAIN BUILDING, immediately to right of entrance.

This year we have the largest range of players ever shown—two of which appear in this space—introducing some new models, and finished in any wood to conform with the house furnishings

## Sherlock-Manning 20th Century Player Pianos

May be had in the 65-note, the 88-note, or with a combination tracker-bar for operating either 65 or 88-note rolls on the same instruments.

Style 100—Ordinary.

WITH A SHERLOCK-MANNING PLAYER, it is possible to accentuate each note with clearness and distinctness, and obtain the most delicate effects.

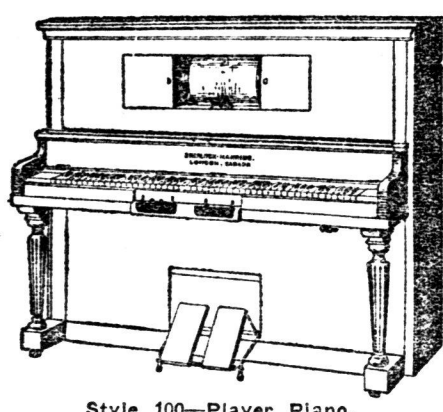

The MECHANISM is simple, and possesses nothing liable to get out of order easily.

If you wish to see one of the nicest-appearing, smoothest-working Pianos on the market, examine a SHERLOCK-MANNING at the Western Fair.

You are cordially invited to make our Pavilion your headquarters.

## Reds Got Past the Czar's Guards

Berlin, Sept. 8.—German officialdom has been given a shock by the latest attempt on the life of Czar Nicholas, one of the cleverest yet made. The authorities today connect the plot with the plans of anarchists now armed in secret international convention at Zurich, Switzerland.

## ATTACKED BY JELLYFISH

New York, Sept. 8.—The appearance of great numbers of jellyfish in Long Island Sound and the ocean in the vicinity of bathing places near New York city has made bathing unattractive.

thrown around the castle, where the Czar and Zarina are visiting at Friedberg, failing to reach the emperor only because they lacked the passport at the palace gates.

Their detection is believed to rest with the protective agents among the extreme radicals, rather than with the police, though strenuous efforts are being made to trace them and learn where they secured the uniforms, which were those of a captain and a lieutenant.

Thousands of the fish have been encountered in Great South Bay, Huntington Bay and places along the Sound during the last few weeks.

The sting they inflict causes a pronounced swelling. They are large, many of them having as great a circumference as the head of an ordinary barrel.

Ordinary remedies appear to have little effect in alleviating the pain or reducing the swelling produced by the sting.

THREE DEAD, NINE HURT  
IN WARSHIP EXPLOSION

Fatal Accident During Test of Oil Fuel on U. S. Battleship.

Fort Monroe, Va., Sept. 8.—Another of those tragedies which go to show that the sailor offers his life to his country in time of peace as well as in time of war occurred this morning on the Dreadnought North Dakota when about 12 miles from Old Point in Lower Chesapeake Bay by an explosion of fuel oil, and the ensuing fire cost the lives of three men and injuries to nine others, including Chief Lieutenant Orin G. Murfin.

The accident happened far from any shore and for several hours the wild rumors were circulated through the communities; that having widest circulation being to the effect that the Delaware, sister ship of the North Dakota, had been blown up. The three men killed were coal passers. They were Joseph W. Schmidt, Robert Gilmore and Joseph Strait. Strait enlisted in Grand Rapids, Mich., in June, 1907.

## HIGH IDEALS PASSING

Says We Are Living in Age of "Head-lines, Snapshots, Taxicabs and Music Halls."

Montreal, Sept. 8.—"The eucharistic life, the antidote for modern life," was the subject of an address delivered today by Rev. Father Bernard Vaughan, of England, before the eucharistic congress here, in which the speaker painted a vivid picture of modern conditions as he saw them and pointed to the church as the refuge from the direful consequences he foresaw resulting from what he described as a "tidal wave of paganism" now sweeping over the world.

"We are living in a day of headlines, snapshots, taxicabs and music halls; in a day when the scramble for the prizes of life has become a mad passion. It is a day of fever, fret and pain, when competition for earthen toys is so keen, and the margin of profit in commerce has become so fine that the one cry beating through the air is 'hurry up.' No one seems to have time for pause till, worn out in the pursuit of gewgaws and vanities, a rest cure becomes imperative. The clock is stopped and all action, mental as well as physical, must be prescribed as prohibitive for an eighth part of a year.

Ideals Yielding. "We are living in a day when the high ideals of old are fast yielding to the pressure of creature comforts, when principle is being exchanged for expediency; in a day when self-sacrificing Catholicism is being bartered for self-centered materialism, when the Christian sense of sin is being regarded as a by-gone superstition; in a day when it matters not what you believe, only what you do, and when you may do what you like, provided you are not found out; in a day when the relations between the sexes takes one back to pagan times, while the garbage on which men and women feed is as foul and loathsome as the stuff over which they glow and chatter; in a day when marriage has become so debased and defiled that not even the pledged truth can make it long and endurable without change of prospective partners in a life of legalized vice; in a day when there is no empty place left in the cradle, no room in which to move but in the churches.

"Observe that the cleavage today, as in no previous time since the dawn of Christianity, is between Mammon and mammon; or shall I say, in language more definite still, between Catholicism and agnosticism, if not evolutionary materialism itself.

"For confirmation of my strong assertions read the story of present day life, as it is reflected in society, as it is mirrored forth on the stage, as it is shown up in the law courts, as it is writ large on our book stalls, or, if it will, as it is published in society journals, in the monthly magazines, in the weekly pictorial and in the daily press."

The French Section. Mgr. Rumeau, Bishop of Angers, France, presided over the French section, whose discussions partook largely of an historical character. The eucharist in its relation to various phases of history and in different countries was the theme of papers presented by Abbe Gosselin, Abbe Bishop Emard, Valleyfield; Mgr. Gagnon, Quebec; Abbe Prudhomme, St. Boniface; Father Balter, Abbe Porches, Mgr. Laurent, of Rome, and others.

The history of the eucharist in Canada, the eucharist among savages, the devotion of the Spanish people, the devotion to the blessed sacrament in Quebec, etc., were recounted.

Cardinal Gibbons will try to obtain the congress for the United States some time in the near future, and his point will be settled before the congress closes.

Archbishop Bourne, of Westminster, arrived today from the coast, and is the guest at Lord Strathcona's house. His grace will address the English section of the congress tomorrow.

A Monster Reception. Tonight Cardinal Gibbons was, with Cardinal Vanutelli, the central figure at the monster reception tendered by the mayor and aldermen at the city hall. This was the greatest event of the kind ever held here, and thousands thronged the council chambers and were presented to Cardinals Vanutelli, Logue and Gibbons.

The congress proper opened today, with the English and French sections meeting to discuss doctrinal issues.

## WANT DRUGGISTS THERE

Should Preside Over Sale of Patent Medicines Says Association.

Toronto, Sept. 8.—When the Canadian Pharmaceutical Association meets in Halifax next week an effort will be made to put through some of the things that were eliminated from the Dominion act, which compelled all proprietary medicines to be registered and numbered.

The druggists will go further this year and introduce a resolution to have the Dominion act amended so that all laboratories and warehouses where proprietary medicines are made shall be under the charge of registered druggists, as a protection to the public against frauds.

Another amendment sought will be the placing of the chemists and druggists in the army and navy upon a proper basis. At present he is regarded as too much of a flunky, and the druggist wants his status made more dignified and in keeping with the profession.

The Proprietary Medicines Association will oppose the druggists when the matter comes up before the Federal Government.

## MISSING THE CHANCE

English Capitalists Not Aware of Openings in the West.

Toronto, Sept. 8.—That British capitalists are missing a wonderful opportunity in not seeing more of Canada is the opinion of Harry E. Brittain, of London, England, who reached Toronto today after a lengthy tour of the west, whether he was accompanied by the Earl of Dunsmore, Mr. J. Norton Griffith, M. P., Lord Clinton and Hon. Stewart Elphinstone. The party were looking for investments and observing what openings there are in Western Canada for British capital.

Mr. Brittain formed an acquaintance with many leaders of thought all over the empire.

"I find," said Mr. Brittain tonight, "that those British men of commerce, and particularly the heads of firms, who are over here to personally look after their own investments, are in every case doing good business. It occurs to me that what is wanted more than anything else is to bring over a really representative party of leading Britishers connected with commerce and finance to look over the openings in the west, particularly those of a large commercial nature on the coast, where the Americans have already received a strong foothold."
