Two Cases of Eczema and  
How They Were Cured

Further Proof That Dr. Chase's Ointment Is a Positive Cure for Chronic Eczema.

If you will read these letters you will find that Dr. Chase's Ointment is not to be classed among ordinary salves and ointments. By actually curing itching, stinging eczema in many thousands of cases it has stood the most severe test to which any ointment could be put. Mr. J. J. Brice, Temperance Road, Parry Sound, Ont., writes: "Just a line to praise Dr. Chase's Ointment for what it has done for my wife. She has been suffering with eczema on her head for two years, and has spent no end of money with doctors and for ointments, which did her no good. She had about given up hope of being cured, when someone told her to try Dr. Chase's Ointment. By the use of this Ointment the trouble has left her entirely, so we have unbounded faith in it. I have told several people about the Ointment."

Mrs. W. G. Dowden, Greenspond, Bonaville Bay, Nfld., writes: "I suffered with eczema on my hands, and for eighteen months was so bad that I could not use a needle to sew or do anything. I could scarcely dress myself. Though I had lost all of my hair, from doctors, I could never get much benefit from them. Then I sent for a sample of Dr. Chase's Ointment, and found it very different from what I had not long before used in action. It was found by my hands began to heal, and four or five boxes made them well. I cannot praise Dr. Chase's Ointment too highly, and frequently give some to others to use when using it, for I know it will cure."

In the home Dr. Chase's Ointment is of almost daily usefulness, for by relieving itching and irritation of the skin it prevents eczema and similar skin diseases. Applied to all cuts and wounds, it prevents blood poisoning and heals the skin. Dr. Chase's Ointment, 60 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

NEW BREED OF CHICKEN  
FOR GENERAL PURPOSE  
SHOWN AT WINTER FAIR

Named "New Ontarios"—Good Marketer, Good Layer—  
New Mode of Killing and Dressing—Ingersoll Man  
Cleans Up Well on White Wyandottes.

[Special to The Advertiser.]  
GUELPH, Dec. 3.—Although the events in the ring do not start until Monday morning, the turnstiles at the winter fair have already passed a good number. The judging competition for dairy cattle is the curtain raiser for the big show, and there are some sixteen entries.

The poultry and seed departments held the interest Saturday, probably for the reason that they are already filled up and in full swing. Considerable interest attaches to a new breed of fowl on exhibition at the stand where demonstrations are going on in the proper method of killing and dressing chickens. The system used is piercing the brain with a hypodermic needle, and the operation being done, with the exception of a few pin feathers, in about one minute.

The new breed are styled the "New Ontarios," a name by the way given to them by the late Hon. J. S. Duff, they are about the size of the Rock, although crossed several times. The result is a bird with a small comb that will not easily freeze, a good table fowl, and at the same time of splendid laying strain.

Silver Wyandotte Club.  
The annual meeting of the Canadian Silver Wyandotte Club took place Saturday afternoon in the city hall.

There was little business to come before the members. Votes of thanks were passed to the officials at the fair for the courtesy extended to the exhibitors. The election of officers resulted as follows:

President, W. Garland, Ottawa; first vice-president, A. Flawn, London; secretary-treasurer, George A. Peck, Mount Dennis. Executive committee, S. J. Brien & Sons, of Ridgeway; J. H. Mank & Son, of Little Britain.

The principal exhibitors in Coteau sheep, in Lincolns, Jas. Linden, of Denfield, and Brien, of Ridgeway, have things put much to themselves, while in Leicester A. & M. Whitlaw, and John Kelly & Son, of Shakespeare, are the leaders. One topic that is being discussed among the breeders is the centralization of breeding, that is, that one section should specialize in Leicesters, another in Oxford, and so on, so that buyers looking for car lots could get them at once. It is claimed, although there are drawbacks, that this matter would work out to the best interest of producers and buyers in the end. Horrid Dorsets are making a remarkably good showing this year, this class apparently coming into favor more of late on account of their rapid breeding ability.

By the steamship Rockingham. The Parker was wrecked in a storm about 300 miles south of Halifax. The men had been on their dismantled and waterlogged craft seven days, suffering great hardships, when the Rockingham rescued them last Wednesday. The Parker sailed from Weymouth Mass., November 4, for Halifax, N.S.

Pig iron prices are continuing their sensational advances. The latest recorded sales of Bessemer pig at Pittsburgh were at \$23 a ton, but \$25 is now considered the common quotation. A large tonnage of basic pig was sold during the week at \$20. Averaging all descriptions of pig iron in the various districts, the average advance for November was a little over \$5 a ton, as against \$3 for October and less than \$1 in September. A pig iron famine is predicted in some quarters as furnaces are being pushed to the limit of capacity with a steadily-increasing demand.

Rev. Dr. Randolph H. McKim of the Church of Epiphany did not officiate as had been expected at the marriage at noon Saturday of the Baron von Schoen, secretary of the German embassy, and Miss Katherine Beny of Washington, because the German ambassador decided he had disqualified himself by his Thanksgiving Day sermon, in which he assailed civilization the Teutonic powers have now added the infamous crime of enslaving a whole population.

## THE WAR

A Berlin report of Sunday declared that an attack by Entente forces on the Macedonian front, northwest of Monastir, was repulsed with heavy loss.

In a report issued from Berlin on Saturday, dealing with the Macedonian front, the claim was made that on December 1, officers, 6,115 of the rank and file, 49 cannon and 100 loaded ammunition carts had been captured. Most of these, it was stated, were taken from the Russians in the wooded Carpathians.

It is officially stated in Washington that the case of the British ship Marina, destroyed by a German submarine, has narrowed down solely to whether the Marina was, as the German commander thought, a transport, or whether she employed the immunities of a chartered ship. Inquiries have been made of the owners and the British admiralty, and several days may elapse before the case can be decided.

Official statistics of sanitary conditions in the war prisoners' camps in Germany state that more than 1,000,000 prisoners in the country on August 1, 1916. In the two years of war which had then elapsed, 25,237 prisoners died. Of these, 6,832 died from tuberculosis, wounds and 6,800 from other illnesses. The statistics indicate that only 10 per cent war prisoners committed suicide. It is stated that the number of tuberculosis cases is decreasing, owing to effective medical treatment, and that numerous patients are able to leave the sanatoriums.

TEUTON DEPUTIES  
ARE CONDEMNING  
ALL DEPORTATION

Socialist Reichstag Members  
Score the Government for  
Belgian Atrocities.

AMSTERDAM, via London, Dec. 3.—In the course of a debate on the bill in the Reichstag, embodying a Socialist proposal, that permanent workmen's committees should be appointed in connection with industrial workshops and railways, which was defeated by one vote, the Socialists condemned the action of the Government in deporting Belgian workers.

"Thousands of workers in occupied regions already have been subjected to compulsory labor," Deputy Haase is reported to have said. "It is the common Government to restore freedom, especially to Belgian workers."

Deputy Haase said that neutral governments had protested against placing the Belgians under the yoke of the bill, and he condemned the deportations as a violation of international law.

Deputy Wilhelm Dittman, another Socialist, discussing the subject, is reported to have said:

"When the Belgian workers returned from Holland to Belgium, Governor-General von Dittman said: 'If you return, you will be deported to Germany. This assurance has not been kept.'"

Dr. Helfferich, in reply, declared that he deplored deeply that the discussion should have arisen, "thereby promoting the business of our enemies."

Turning to Deputy Haase, the dispatches say, the vice-chancellor said: "On the western frontier of Northern Moldavia there were attacks and artillery bombardments. Bad weather is hindering operations."

"In the Dumbavitz Valley our troops retired toward the south."

"Western front: In the region of Pilschitz our troops have been attacked violently and have been obliged to retire slightly. The violent combat on the Glavatzitz and Nislov Rivers continues."

"Southern front: In Dobruja, we violently attacked enemy positions, and reached their wire entanglements, which we passed at some points."

NORTHCLIFFE WARNS  
PLENDER AND WINS  
A SHARP REJOINDER

Noted Accountant and Publisher in Sensational Clash.

London, Dec. 4.—In the course of correspondence recently published in the London Daily Mail between Lord Northcliffe and Sir William Plender, a member of a well known firm of chartered accountants, who is being employed by the Government in connection with the German banks in London, Lord Northcliffe threatened to withdraw from Plender's firm the auditing work of the Times and other papers owned by him. The German policy of keeping alive German business is to be continued."

Plender Replies.  
Plender, who is described by Northcliffe as "one of my water-gates," made a reply which is incorporated in the Accountants' Journal, the official organ of the Society of Incorporated Accountants and Auditors. "Plender's attitude," says the journal, "is strictly correct. He has before him two clients, his majesty's government on

one hand and Lord Northcliffe and his friends on the other. Sir William claims to carry out the wishes and instructions of a watching in regard to the business they have entrusted him with and he also discharges with interest as Lord Northcliffe himself admits the duties of a watching in many of the large undertakings that have grown up around his lordship.

Northcliffe Warned.  
"When Lord Northcliffe and his fellow shareholders threaten the loss of emoluments to their auditor because they disapprove of the policy of the Government who employs him in another capacity, then it is time for the auditor to speak out. Whether Northcliffe and his friends carry out their threat remains to be seen, but should they be so ill-advised, we hope we know enough of the spirit which animates the accountancy profession to warrant us in believing that no help will be forthcoming from any qualified firm to assist Northcliffe in carrying out his determination, which cannot be in the interests of the British public."

BURIAL OF JOHN ROBSON.  
Detroit, Dec. 3.—The remains of John Robson, a former resident of Forest, who died in Detroit, where he had resided for six years with his children, were brought here Saturday for interment at Beechwood. Mr. Robson fell on the steps at his home about ten days ago, and sustained fatal injuries.

STRIPPING RAILWAYS TO  
GET MEN FOR THE FRONT

Copenhagen, via London, Dec. 4.—The Hamburger Correspondent, a copy of which has been received here, contains an article on the new German railway regulations, which it says are most revolutionary. Everything is subservient to the military needs. All travel is limited to absolutely necessary business journeys, and traffic is restricted to an absolute minimum for economic reasons.

According to the Deutsche Courier, the limitation of traffic is closely connected with the control of the main power of Germany.

CATTANEO INJURED.  
Buenos Ayres, Argentine Republic, Dec. 4.—The aviator, Cattaneo, fell today while looping the loop, and was badly injured. His airplane was destroyed by a single flight by travelling fourteen miles at an average speed of 44.16 miles an hour. In 1911 he went to South America.

WINNIPEG HOTEL BURNED.  
Winnipeg, Man., Dec. 4.—The Woodbine Hotel was practically destroyed by fire Saturday evening, with loss on the building \$20,000, and on contents \$25,000. The fire started in the furnace room.
