found in the bottle off the coast of Cornwall reporting the loss of the German emigrant ship proves to be a hoax.

The Times in an article on the Irish land question says it is not our business to actisfy the Fenians. They would not be settisfied if Ireland were doubly emancipated for their benefit. It is our business to do justice between two classes. Their interests are identical, and to extirpate the most ancient root of Irish wrongs, two opposite sources of error, it would be wise not to medule with the Iana question at all unless we can effectually quiet the present tenants. At the same time, it would be shortlyighted to sacrifice the flext generation. Ireland wants test from the next generation. Ireland wants fest from agitation, but rest must not be purchased by

London Nov. 4—A correspondent of the Fost writes from Rome concerning the expected action of the Council. The dogmatic definition of the assumption of the Virgin Mary will encounter no debare; the Pope earnestly denies the confirmation of this dogma. Of the necessity of the temporal power of the Pope is not considered possible by its most carnest champions. The foundation and preservation of that power does not afford the elements of a dogma, and the belief in its necessity is not even proximately, but only of high importance; probably the protests of 1862 and 1867 will be received. It is suggested that the liberal Bisdops will advise that the terms be made with the Kipgdom of Italy, so that all appointments of the Pope may be conferred without destruction of nationality; but such a change of policy, although desirable, is impossible at the preburded that he died as soon as he reached the shore, although desirable, is impossible at the present and must be left to time and the force of events.
