VANCOUVER, Sept. 9 .- The Railroad Commission completed its work here late today and will leave for Nelson tomorrow afternoon where it holds its next sitting. In the application of the Vancouver board of trade and coast cities regarding alleged discrimination by the C. P. R. in freight and passenger rates, it was ordered that the first hearing of the question be held at Montreal in January.

During the argument on the rates

During the argument on the rates question Mr. W. A. Macdonald K. C., stated that the board of trade was satisfied that the first hearing should satisfied that the first hearing should be at Montreal, but he asked the commissioners that an order be issued instructing the railway company to produce certain information: otherwise they would naturally prepare statistics made out from their own point of view which he (Macdonald) would have to fefute and thereby delay the case further. For instance he said he wanted to know the amount of freight passing over local divisions.

wanted to know the amount of freight passing over local divisions, both local and through freight. The railway company admitted that the rates came within the discriminatory clause and sought to justify this.

Judge Mabee did not think it necessary to make this order, but stated that Mr. Macdonald would get all the information he required at Montreal to be able to present his case intelligently.
