## AUTOGRAPH FAC-SIMILES OF THE QUEEN OF SONG AND THE KINGS OF MUSIC.

With extracts from letters received by Messrs. MASON & RISCH, the well-known manufacturers of Canada's High Class Pianoforte:

The reputation of the MASON & RISCH Pianos has been confirmed by the testimonies of the most competent musicians and critics in the world, not by statements made by themselves as manufacturers.

Messrs. MASON & RISCH believe that self-praise is a sufficient warranty for any article, let alone an instrument so intricate in its mechanism and so costly as a piano.

From Madame Albani, Canada's Greatest Artist, the Most Gifted and Popular Prima Donna in England.

"I wish to say how thoroughly pleased and delighted I was with your Piano. I feel very proud that such instruments are made in Canada."

From the King of Pianists, Acknowledged to be the Greatest Pianist the World has ever heard.

"The tone, touch and mechanism of your Upright Piano is perfection, while the solidity of its construction is entitled to the highest praise."

From the Celebrated Composer.

"I wish to express my high opinion of your Piano. Rich tone, quick responding touch, with durable mechanism, are the requisite qualities in a fine pianoforte. You have secured all these."

From the Premier Professor of the Pianoforte at the Royal College of Music, London.

"I found your instruments excellent in workmanship and most attractive in appearance, while I was particularly pleased with the agreeable and 'singin' quality of their tone, which strikes me as most effective especially in a large concert-room on account of its richness and entire freedom from any disagreeable class."

From the Organist and Director of Music, City Temple Church, Dr. Parker's, London, Eng.

"Excellent in both tone and touch. Of the general workmanship I must also speak in the highest terms, so that in all respects I can strongly recommend your instruments as being of the very best quality."

From the Premier Professor of the Pianoforte at the Royal College of Music, London.

"I found your instruments excellent in workmanship and most attractive in appearance, while I was particularly pleased with the agreeable and 'singin' quality of their tone, which strikes me as most effective especially in a large concert-room on account of its richness and entire freedom from any disagreeable class."
