OVERWORKED, TIRED WOMAN

Now She is Strong and Hearty

Philadelphia, Pa.—"I was over-worked, run down, nervous, could not eat or sleep. I felt like crying all the time. I tried different remedies withtime. I tried different remedies without benefit. The doctor said it was a wonder I was alive, and when Vinol was given me I began to improve. I have taken eight bottles and am now strong and perfectly healthy in every respect, and have gained in weight. I can not praise Vinol enough."—Mrs. Sarah A. Jones, 1025 Mevada St., Philadelphia, Pa.

JUMPER SKIRT IS POPULAR

Requires Blouse of Lord Fauntieroy Type of Which Exaggerated Collars and Cuffs Are Features.

If one is interested in the new jump er skirt brought out this year by no less an authority than Doeuillet, and jumper skirts have always been adored by both women and girls-equally appropriate to women and girls if they are of the proper slender build—then one must have special blouses to be worn with them. These are mostly of the ruffly, little Lord Fauntleroy kind. They are always becoming to a girl. They are so fresh and dainty. But some of the models are entirely new, For instance, there is one which is made without much fullness and fas-tened down the side front. It has a wide graduated knife-plaited frill which turns back over the front. Then there is a frill, of the same knife-plaited stuff, which surrounds the neck and a frill trimming the wide turned back cuffs. With a velveteen suit having a jumper skirt it would look very

Exaggerated collars and cuffs are features of all Doeuillet's blouses. One is made of white wash satin and fin-ished with wide Quaker collars and cuffs, the blouse made "kimono" sleeve style. A long streamer tie of narrow ribbon is worn with it. Another jumper suit has a blouse of flesh georgette with narrow turnover collar and cuffs which are tucked and edged with coarse silk tatting in flesh color. This is worn with the jumper skirt, which has a black satin sash starting inside of the jumper V at the front, crossing and tying around the waist at the back. All these blouses are high and round at the neck, none of them having the popular V effect at the front.

REFRESHMENTS NEXT TO GO

Food and Drink at Social or Business Gatherings Declared to Be in Opposition to Conservation.

Food conservation is being religiously preached, and we are being taught that it is a sin to waste even a cabbage leaf. This is all well and good, but nobody seems yet to have organized a systematic attempt to effect a tremendous saving in food by the simple expedient of abolishing the custom or fashion of "serving refreshments" on any and every occasion, in season and out of season, says the Woman's Home Companion. Whenever a handful of people get together, either for business or pleasure, refreshments have to be trotted out and passed around. In most cases, the consumption of food and drink on these occasions is superfluous and a waste, pure and simple. Nobody needs the refreshments-all too often the persons indulging in them are full to repletion al-

Every patriotic woman interested in food conservation and thrift should consider this matter and appoint herself a committee of one to make this overdone, wicked and unnecessary practice unfashionable. Why not make it a matter of social ethics to eat only three meals a day during the war, and make it unfashionable or a breach of etiquette to waste food by serving refreshments at purely social functions? Entertaining friends at regular and established meals is not, of course, meant to be abolished, but merely superfluous, unnecessary and senseless eating and drinking, just for the sake of indulgence.

SOMETHING REALLY NEW

The seeker for something new in Reports of all meetings inserted milady's clothes will surely be satis-The effect of the entire dress is decidedly new and every little touch accentuates its novelty. There is noth-

ECZEMA ON BOY'S FACE CURED BY ZAM-BUK

Zam Buk has been tried and proved by thousands to be the most

successful remedy for eczema.

Mrs. Horgan, of 103 Manning
Ave., Toronto, says: "For eight
months by little son's face was covered with eczema, which pained and irritated him so that he could not sleep. The slightest cold aggra-

wated it so that I was obliged to keep him in the house.

"As nothing I used did him any good, I took him to a hospital, but the treatment he received there only made the sores worse. Then I com-menced using Zam-Buk, applying it liberally and regularly. The pain disappeared and the irritation was ended. Soon healing began, and as I continued the Zam-Buk treatment the sores became less and less until my boy's skin was entirely free from sores and perfectly clear and

Zam-Buk should also be used for ulcers, ringworm, abscesses, boils, bad legs, running sores, blood-poisoning, piles, burns, scalds, cuts, chapped hand, chilblains and frost bite. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

ing about it that is like any other. The material used is black satin. The single revers and band are of moire in a delicate sand color. The same shade is used in the delicate tracings of the silk embroidery on the skirt.

COULD HARDLY LIVE FOR ASTHMA COULD HARDLY LIVE FOR ASTHMA Writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as a smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from dealer has it or can get it for you from his wholesaler.

THE UKRAINE PROBLEM.

"Little Russia" Does Not Trust Fellow Countrymen.

The thorniest of Russia's racial roblems is undoubtedly that of "Little Russia," or the "Ukraine." The Little Russians who prefer to be called "Ukrainians," differ from the Great Russians in language and culture fully as much as the Dutch do from the Germans. Had the Rus-sian Government granted them local autonomy and respected their language and customs, there seems little doubt that the Ukrainians would today be loyal citizens of the Russian state, especially when it is remembered that the great divider of East European people—religious schism—is here absent, both Great and Little Russians being Greek Orthodox in faith.

As a matter of fact, however, the old Czarist government tried for centuries to make the Ukrianians into Great Russians, while the middle-class "Liberals" who controlled the dumas after the inauguration of Russian parliamentary life in 1905, showed themselves as imperialistic and intolerant towards the Ukrianians as the Czarist bureaucrats had ever been. All this has embittered the Ukrianians and makes them doubt the possibility of safeguarding their racial identity within the boundaries of the Russian state. On the other hand, the Ukraine's geographical position, lying as it does between North Russia and the Black Sea, would render it impossible for even the most democratic Russia to view with equanimity the severance of the Ukraine from the Russian political

body. The effect of such a severance upon the Great Russians would be much the same as the effect that a movement to separate the Province of Quebec would have upon the other parts of Canada. We here have one of those "hard cases" which "make shipwreck of the law."

Sumac in Sicily.

Two species of sumac are grown in Sicily, the wild and the cultivat-ed. The wild variety has a short stalk, small leaves attached two by two to a short stem, the leaves sparse, covered with a white fuzz on both sides, the stem with no small leaves near its base. The cultivated plant (Rhus coriaria) has a longer stem than the wild, its leaves are larger and are covered with fuzz only on the lower side, and the stem of the leaf has small leaves along its

entire length.

Sumac requires a dry, loose soil.

The best is a clay soil with lime and silica mixed. It does not grow well in damp, compact ground. The soil may be rich or poor, so long as it is dry. However, the best sumac is dry. However, the best sumac is grown on soil of volcanic origin. The soil, together with much heat, produces the greatest amount of tannin. The heat is perhaps the most important element in the production of

tannin. In Sicily sumac is grown at all elevations up to 2,000 feet. The gathering of the leaves takes The gathering of the leaves takes place when they commence to turn yellow, usually in July and August. The best method is to gather the crop in three periods. First the leaves near the stalk up to about the middle of the limb are gathered. Twenty or 25 days later half of the remainments of the stalk up to a s ing leaves are gathered. A few days after this the ends of the twigs are cut off. This method gives two or three qualities of sumac, but, as it requires a great deal of time and labor, the usual method is to cut off the whole plant near the ground. The twigs are piled on a floor and are turned three or four times a day with a fork.
After the leaves are separated

from the wood, they are taken to the mill, where they are packed in bales or ground for shipment. There is no treatment at the mill which affects the amount of tannin contained in the sumac.

Peace Plotters in Italy.

Two Ministerial councils have been convoked and held with urgency in Rome, to discuss the internal situa-tion. The gravity of certain facts, due to the extreme liberty hitherto accorded to the expression of political opinions, has been revealed, and severe measures are considered necessary. The Corrière della Sera, in a vigorous leader, denounces in scathing language the action of these misguided agitators. It refers especially to an extraordinary circular issued by the secretary of the official Socialists, experting to multiple secretary of the official Socialists, exhorting to sedition, which urged their followers:

"To stir up by means of municipal crises subversive agitations in all towns where the Socialists have a majority on the councils. Through the spread and the intensification of such agitations we should product such an upheaval as would comp compel Italy to separate from her allies and conclude a separate peace before the

"This," adds the Corriere, "Is not the first nor the gravest proof of the unlimited audacity of our enemy at home. If this is not treason, if this is not openly co-operating with the military forces and intrigues of our enemies, the Austrians and Germans, then we don't knew what is treason."

The Corrieve calls upon the Government to put an end to such misguided agitation, and says Ministers will be justified in any rigorous measures they may adopt. The Socialists, of whatever ilk, in whatever Entente country found, are working with blind infatuation in the supreme interests, not of their own country, but of the enemy.

Germany's last hope, after her huge armies, her zeppelins, and her submarines have failed, is based on the meaning and appropriate the country of the meaning and the submarines have failed, is based on the meaning appropriation.

the moral asphyxiating Socialist gas in the Allied countries. But as the Stockholm scheme has fallen through so vigorous measures taken at last will also clear the air of this infec-The First Stockings.

Stockings first came into use in, the eleventh century. Before that time it was customary to swathe the feet with bandages.

CASTORIA For Infants and Children In Use For Over 30 Years

Always bears the Signature of Chart H. Flitchers.

The word "bank" is derived from the Italian word "Banco" a bench. During the Middle Ages, all financial transactions were in the hands of the Lombard Jews, who did their business on benches in the market place, where they exchanged money and bills. When one of them failed, his bench was broken by the populace and from this circumstance, we have our term—bankrupt.

No matter how deep-rooted the corn or wart may be, it must yield to Hollo-way's Corn Cure if used as directed. m Women can be used in 25 different lines of industry in this country.

Women, Prepare!

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance Pavorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of 1r. Pierce's. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper. Send 10c for trial package to Dr. V. M. Pierce, Surgical Institute, Buffalo, N. Y., or Bridgeburg, Ont.
