STORMY WEATHER

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds, which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

FAREWELL AT GRANVILLE CENTRE

Our Granville Centre correspondent writes: Rev. I. Brindley, the retiring pastor of the U. B. Church, was the guest of honor at a farewell gathering on the evening of Thursday, Feb. 5th, at the home of Mrs. Weston Eaton, which had been his home since coming to this church, four years ago. The evening was very pleasantly spent in games social conversation, etc. At a late hour in the absence of both Senior deacons, Harry A. Goodwin, Junior deacon, called the meeting to order and in behalf of the church and congregation, presented Mr. Brindley with fur cap, driving mittens and \$12 in cash as a slight token of the esteem in which he is held, assuring him, that in leaving the church here, he carries with him the best wishes of all for a useful and successful future. Mr. Brindley, although so completely taken by surprise as usual, proved himself equal to the occasion, and after thanking the donors in a pleasing and appropriate manner, took this last opportunity of referring all present to the "Forward Movement" the great challenge now confronting the church and urging all to rise to their responsibility closing his remarks with bespeaking for his successor, Rev. Mr. Gibson, the same loyalty, kindness, and so co-operation that had been accorded him during his pastorate here.

Sales Records are made, improved and kept with the aid of the Remington Accounting Typewriter and the Edison Rotary Mimeograph.

A serious case of sleeping sickness has resulted in the death of Harold Joseph, a respected young colored man. He leaves a widow, mother and several brothers and sisters to mourn their loss. It is to be hoped that this dread disease will not spread as it seems that no medical aid can cure it. We realize it more as it comes so near.

MARINE NEWS

The American tern schr Helvetia 427 tons net, Capt A. H. Thomas, arrived at Annapolis on the 17th with 16,800 bags (100 lbs each) of fertilizer from Boston for the Hants Wholesalers for which Hugh Fowler is agent and is discharging at the Railway wharf for transhipment to Windsor.

Charles Amero, who had one of his ankles badly fractured when he fell from aloft on the schr St. Clair Theriault, during the tempestuous passage made by the vessel from Cape Verde Islands to Yarmouth, arrived at his home in Plympton on Saturday. Since the arrival of the schooner in Yarmouth Mr Amero has been a patient at the Yarmouth Hospital.

The Belliveau's Cove schooners Rosanne Belliveau, Comeau, and the Edith Belliveau, have been chartered to load logwood at a Haytian port for Mobile. The former arrived at Barbados Monday from Belliveau's Cove with lumber and the latter is now at Macoris, San Pedro from Philadelphia with coal. As soon as their present cargoes are discharged both vessels will proceed immediately to the loading ports in Hayti.

The Digby fishing schooner Dorothy M. Smart, Capt Ansel Snow, arrived at Yarmouth on Saturday morning with a fare of about 7,000 lbs of fresh fish. The schooner left that port about a week previous, but owing to the bad weather was at Pulnicco for several days, which port she left on Friday. Capt Snow is being relieved for a few weeks by Capt Everett Larkin, of Punicco and has arrived home in Digby on a well earned vacation.

Captain Thomas German of Meteghan, who was first mate of the ill fated tern schooner G. H. Murray, under Captain Boudreau, and three of the crew arrived at Yarmouth Saturday morning and proceeded home. They were Ralph Churchill, Short Beach; Isaac Melanson, Grosses Coques and Adolph Boudreau of Wedgeport. All the men were in a destitute condition. The schooner struck on Colorado Reef of Cuba, on January 2nd, while on the passage from San Domingo to Havana with corn. The crew left her on the 3rd. They were rescued by a small coaster and landed at Orio, Cuba. They went to the wreck but nothing could be saved. Captain Boudreau and Peter MacDougall are still in Havana. The G. H. Murray was owned by Bissett & Company of Halifax.

The shipbuilders of Belliveau's Cove have relaxed in their building operations and are now turning attention to lumbering pursuits. Owners of the Margo Mills, situated some distance inland, have a large gang of men in the woods and it is expected their cut for the coming season will exceed 1,000,000 feet. A good proportion of that will be teamed to Belliveau's Cove for shipment by rail while the greater part will be taken to the wharves for shipment to the United States, West Indies and other markets. The coming season, in consequence of these milling operations, promises to be a busy one for that section. This will furnish a vast amount of labor to men who otherwise would, owing to the cessation of the world-building have to look elsewhere for employment.

FUR TRADE CONFERENCE

To be held at Montreal, February 19 and 20, 1920.

The investigations of the Commission of Conservation have demonstrated the importance of Canada's fur trade and that the advancement of fur farming calls for a better understanding and regulation of this industry. For this purpose, a conference of fur farmers, trappers and fur dealers will be held at Montreal on Thursday and Friday, Feb. 19 and 20 under the auspices of the Commission.

The meetings will be attended by the leading authorities on the fur trade and the most prominent fur farmers. Among the subjects to be discussed will be regulation of the fur trade, protection of wild life, diseases of and feeding of fur bearing animals in captivity, establishment of a herd book for registration of foxes and the best fur farming practices.

Fur farming has passed the experimental stage and is now on a solid commercial basis. Prices of furs are advancing, some of them having made phenomenal gains. This will no doubt tend to increase the number of those engaged in the raising of animals for their skins, as well as to include in the industry many species not now reared in captivity. The Commission of Conservation extends an invitation to all interested to attend the conference.
