WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease "FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the diseases in the world today—because Constipation is responsible for the Indigestion, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowels become weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

30c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

MARINE NEWS

Schr. Grace & Ruby, Capt. Wiley Ross, has left Lunenburg for Bay Islands, Nfld., for a cargo of frozen herring.

Tern schooner Stewart T. Salter, Capt. Charles Salter, from Parrboro for New York, arrived at Vineyard Haven on Monday.

Tern schooner Charles F. Gordon, Capt. Gordon Bower, from New York for St. John, arrived at Vineyard Haven on Monday.

Steamer Southern Cross, Captain L. H. Porter, Port Wade, from New York, arrived at Buenos Ayres on the 10th via Rio Janeiro.

The tern schooner Charles G. Gordon, Capt. Gordon Bowers, is under charter to load lumber at Bridge-water for New York.

Tern schooner Maid of France, from New York for Halifax, with a cargo of hard coal, arrived at Vineyard Haven on Tuesday.

The steamer Margareville has had a busy week transferring fresh fish for the Maritime Fish Corporation's Canoe branch at that port to the railway.

Tern schooner Stewart T. Salter, Capt. Charles Salter, with lumber from Parrboro for New Haven, sailed from Vineyard Haven on Wednesday.

The Publico schr. Catherine M., Capt. Telesphore D'Entremont and Annapolis schr. A. W. Longmire, Capt. Longmire, will engage in the fresh fisheries out of Shelburne during the winter.

Steamers Ruby L. H., from Port Williams; Bear River, from Bear River; and the schooner Nina C., from Harbortown, arrived at St. John on Wednesday.

Owing to a break on the steering gear the government steamer Laurentine struck the fishing scho. Loran B. Snow lying at Clements wharf, Yarmouth. The damage is estimated at \$1,000.

Digby, Dec. 14—Arrived, schooner Jennie T. Teed, Wilson's Beach; schooner Phyllis C. Crocker, Freeport. Cleared, steamer Keyingham Elliott, Halifax; schooner Phyllis C Crocker, Freeport.

The steamer Centreville, in entering Digby Gut from St. John Friday morning, struck on Man-o-War rock and tore her rudder off. She was helped into port by the lifeboat and is now at her dock discharging.

The schr. Wilfred L. Snow, Capt. Samuel Fraughted, owned by the Cann Fisheries, Yarmouth South, left on Wednesday evening for Liverpool, out of which port she will engage in fresh fishing for the next three months.

Mayor Walker's schr. Lewis H. Smith, Capt. Eldridge Nickerson, which was at Sydney for some weeks undergoing repairs, sustained while on the fishing banks, returned to Yarmouth on Tuesday evening and will tie up for the winter.

Motor barge, "D Munroe," Captain Andrew Macdonald, arrived in Windsor from New York on Sunday, and is leaving again on Tuesday. While in port, Messrs. W. Flemmings, W. Folker, W. S. Shaw, C. Riley, visited their homes in that town.

Tern schooner E. P. Theriault, O. Theriault, Captain Joseph Orver, arrived at Vineyard Haven on Monday on her way to St. John for New London, where she was taken for repairs after being ashore. She has a cargo of coal from New York.

Completing her maiden voyage, the new tern schooner J. Scott Hankin, of Weymouth, Capt. Arthur Moore, arrived at Boston last week with a cargo of lumber from Yarmouth. She is to return to Yarmouth for another cargo.

The coastal steamer May Queen, Capt. E. H. Lewis, arrived at Yarmouth last week and docked at L. E. Baker & Co.'s wharf. The steamer has been engaged in freighting between Annapolis Basin ports and St. John. She has since arrived at Halifax.

Annapolis Spectator: Strm. Ba Queen, 56 tons net, Capt. Lewis, arrived from Bridgetown 13th to tie up at the Railway wharf. Gas schr Souvenir, 31 tons, Capt. Outhouse, arrived here 13th from Little River with a cargo of fish and cleared same day in ballast for Digby.

Capt. W. E. Davison, of Hantsport, N.S., died in the bathroom of his steamship, the Cayo Mambi, while nearing New York, according to word received by relatives here. He was born in Nova Scotia in 1860, and has followed the sea for years. During the war he was a captain in the United States transport service.

The MONITOR is in receipt of a book of tide tables for the eastern coasts of Canada for the year 1922 issued by the Tidal and Current Survey in the Department of the Naval Service at Ottawa, of which W. Bell Dawson is superintendent. It contains tide tables for the river and Gulf of St. Lawrence, the Atlantic coast, the Bay of Fundy, Northumberland and Cabot Straits, and information on currents.

The schooner Canada called at Lunenburg to lower her topmast and to add an additional man to her crew before proceeding on her trip to Bay Islands, Nfld., to load for Gloucester a cargo of frozen herring. The Canada is one of the Nova Scotia schooners which took part in the trial races for the International schooner race off Halifax last fall and is owned and commanded by Capt. Conrad of Clarence, Annapolis county.

Wreckage bearing the vessel's name picked up near Cape Race makes it practically certain that the schr. Victrola, which left North Sydney November 23rd with coal for St. John's, went down with all hands in last week's great storm. The Victrola carried a crew of nine, is owned in Lunenburg. The vessel was built by Smith & Rhuland in 1920 and registers 99 tons. The vessel was of knockabout design and spent last season in the Grand Bank fisheries.

The three-masted schooners Albert H. Willis and Evelyn Wilkie put into Vineyard Haven Friday for shelter. The former is bound from Kingston to Havana with a cargo of potatoes and the latter is en route home to Lunenburg from New York. The four-masted schooner Susan Cameron, lumber laden, from Country Harbor, and the three-masted schooner E. M. Roberts, lumber laden, from Parrboro, arrived at New York Friday.

Yarmouth Telegram: The D. G. steamer Laurentine, Capt. McLean, has been engaged at various work in this vicinity all of this week. She has supplied the Lurcher lightship with coal and other necessaries and Thursday went out to the lightship for the purpose of putting more supplies aboard, but owing to rough weather she was compelled to abandon the trip. The ship has taken up the can and conical buoys in this harbor and the Sound and replaced them with spar buoys. The Laurentine has also two spar buoys aboard to be put out at Publico.

The former Digby schooner Lila Boutiller, and for several years owned in Newfoundland, has foundered in the South Atlantic and her crew landed at Dakar, west coast of Africa. She was owned by Starr Brothers, of Lunenburg, N.S., and was a vessel of about 100 tons net. This was formerly a Gloucester fisherman which went ashore a few years ago on the west point of Trout Cove, Bay Fundy shore. She was purchased by the late Alfred Boutiller, of Centreville; Samuel Gidney, of Mink Cove; and Dr. Frank E. Rice, of Sandy Cove, raised up by Commodore W. A. Chute, of Bear River, and thoroughly repaired.

The Yarmouth schr. E. P. Theriault, Capt. Oliver, New York for St. John, which was ashore near New London, Conn., afterwards floated and towed into that port to effect temporary repairs, sailed from there on Sunday for her destination. The damage the vessel sustained when she went on the rocks was somewhat expensive and eleven days were consumed in effecting partial repairs at New London. After discharging at St. John the schooner will proceed to Belliveau's Cove where permanent repairs will be done. A. A. Theriault, Esq., managing owner of the E. P. Theriault, who was in New London, returned to Yarmouth this morning and proceeded by the D.A.R. to his home at Belliveau's Cove.

Thirteen vessels, with about 454,000 pounds of mixed fresh fish, arrived at St. John, N.S., on Tuesday, bringing the receipts for two days to approximately 1,300,000 pounds. Despite this great amount of sea-food coming in within such a short space of time, prices did not drop to any extent from the high quotations of Saturday and Monday. Haddock sold at vessel to buyers at 2 1/2 to 7 cents, large cod 7 to 8, market cod 3 to 4, pollock 1 1/2 to 2, hake 2 to 7, cusk 1 to 2, gray sole 10, and lemonsole 13 cents per pound. The receipts Tuesday consisted of 242,000 pounds of haddock, 137,200 pounds cod, 22,500 pounds hake, 19,000 pounds cusk, 11,500 pounds pollock, 8,000 pounds sole and 4,300 pounds halibut.

Society Item On Friday afternoon of this week Mrs. Judge Willmott, assisted by some friends will pour tea on her spacious verandah.

EXPERIMENTAL STATION, LENNOXVILLE, QUE., POULTRY DIVISION

(Experimental Farms Note)

During the poultry year which has just ended, some very interesting results have been obtained in record work at the Lennoxville Farm. The belief that rigid selection will do much to raise the standard of production has been fairly clearly demonstrated in a comparison of the past year's results with the year previous, on all pullets kept. In 1919-20, the average eggs per bird for twelve months was 121, while in 1920-21, this average was raised to 170 eggs per bird. In the year 1919-20 there were 7 birds finished with a record of over 200 eggs, while in 1920-21 some 50 birds have finished with over 200 eggs in their pullet year, the highest, No. E. 12, having 361 eggs as her record, closely followed by No. E. 43 with 290 eggs. Figuring the eggs sold at the average price of .56 cents per dozen for the year, the value of the 361 eggs laid by E. 12 would amount to \$14.04, or taking the 290 eggs laid by E. 43 at same rate the return would amount to \$13.53. The average cost of feed per bird for the year was \$2.51. This would leave a profit over cost of feed per bird of \$11.53 and \$11.02 respectively from these two birds. These profits would be very misleading if taken as an average from a flock, and in this flock there were enough slackers to bring the average profit per bird, over cost of feed to \$5.21. To get this average profit per bird, over cost of feed, with eggs selling at the average price quoted above for the year, required an average per cent. production per day of slightly over 48 1/2 per cent.

The real value, however, of high record hens is their value as breeders, to transmit to their progeny the ability to be good producers. E. 12 is a bird of very strong constitution, active and alert. Her sire was a bird of exceptionally strong prepotency, twenty-eight of his daughters making an average of 154 eggs in the first nine months of their laying year. E. 12 made no very outstanding consecutive laying records, her best being 37 eggs in 37 days, but very steady record hens is their value as breeders, to transmit to their progeny the ability to be good producers. E. 12 is a bird of very strong constitution, active and alert. Her sire was a bird of exceptionally strong prepotency, twenty-eight of his daughters making an average of 154 eggs in the first nine months of their laying year.
