M. K. PIPER  
PROPRIETOR AND PUBLISHER  
WEDNESDAY, MAY 17, 1911.

A traveller through Canada, whose business requires him to cover all parts of the Dominion, visited the Monitor sanctum recently. He had never before visited the Maritime Provinces and was delighted at what he found here. Though admitting the marvellous possibilities of the West he emphatically stated it as his opinion that the East had the advantage over the West.

"While the people of the West," he said, "will start on a bare spot of ground to build up a town, with an up-hill pull all the way, you have hundreds of towns here all fitted out with the comforts and luxuries of civilization which might any of them be the nucleus of a great city, had your citizens the push and enterprise of the men of the West. Your national resources are wonderful," he continued, "but apparently you don't realize them, or at least don't value them as you ought. Otherwise so many of your best citizens would not be travelling westward."

A. H. Brittain, business manager of the big Maritime Fish Company, is quoted as saying in St. John, "The Maritime Provinces ought to get together and follow the example of the West in the boosting line."

"The people down here are altogether too modest about their resources and what they are doing in the way of developing them. They want the western spirit. Out west all the people pull together, shout incessantly about what they are doing and boast loudly of their possessions. If the people in the Maritime Provinces did the same thing, the west would have to open its eyes in astonishment. Down here you have something to brag about, the best part of Canada if you only knew it. You have all kinds of natural resources, possibilities of all sorts. And the people of these Provinces are doing big things only they don't say anything about them. Progress, development, prosperity are in evidence everywhere. But you want to advertise what you are worth."

**A LONG DAY'S WORK.**

Eighteen hours of work out of twenty-four should be the limit for any man, in any class of work, not only on account of muscular exertion and falling strength but also because of falling brain power, the man losing his capacity to appreciate his surroundings and to direct his operations. Such is the substance of the opinion given by Dr. Francois de Martigny, chief surgeon of the Hotel Dieu, who in the case of Dame L. Laverdure against the Canadian Northern claiming \$8,000 for the death of her husband.

Brouillette was killed in a fall at about ten in the morning, after having been at work since seven o'clock of the previous morning, having suspended work only for meal hours, and having worked through day and night. The contention of the plaintiff was that the company had no right to allow men to work during such long hours.

Dr. de Martigny was called by the plaintiff's counsel to state what was the limit of a man's endurance, and placed the limit at eighteen hours of continual muscle or brain work, reasonable time being allowed for meals.

Have you ever considered, that if in the course of events your family should be deprived of your earning power by death, all the thousand and one bills that you are NOW worried about paying, MUST STILL BE PAID! Are you willing that your widow or your old parents should be obliged to have the same worry and be obliged to get the same amount of money to pay the bills, even at the sacrifice of the home? We have eliminated all need for worry by a SPECIAL POLICY CONTRACT in

**THE EXCELSIOR LIFE INSURANCE COMPANY**  
in which we guarantee sufficient income to pay the same bills during their lives at a cost within your present earning. Inquire and see if it is not worth consideration.

**Newfoundland Would Share Reciprocity**

Sir Edward Morris Seeks Agreement With United States.

New York, May 9.—That Newfoundland hopes to be admitted to a full share in the reciprocity agreement between Canada and the United States, is the announcement of Sir Edward Morris, the Newfoundland premier, who is in New York on his way to the Coronation.

"I have followed the tariff situation, as it is now developing between the United States and Canada, with keen interest," said the Premier, and I hope that if any reciprocity arrangement is finally agreed upon between the two countries Newfoundland will be treated as is Canada and placed on the same footing. The colony I represent is now importing very largely from the United States and in return the United States is taking many of the products of my country. We are rapidly developing new industries, many of which would be beneficial to the United States under a tariff agreement of the reciprocity order. The great mineral wealth of Newfoundland is only just beginning to gain recognition. We want to develop a trade in fresh fish by cold storage. The supply of halibut, herring, salmon, lobster and other fish is practically unlimited. I believe a big business could be developed in this way."

**CHILD PLAYS WITH MATCHES; LOSES LIFE.**

Woodstock, N. B., May 11.—Louisa, the two year-old child of Thomas Hourihan, of Newburg, was playing with matches in her bedroom last night, when her clothing caught fire. Dr. Prescott, of Woodstock, was called, but the child died with a few minutes after his arrival.

While we deeply regret to have you leave us still we know you are entering a sphere for which you are eminently fitted and we sincerely hope you may be successful in the forthcoming election and that you may be spared for many years to enjoy your new position and exert your influence in raising Nova Scotia and her citizens to their proper place in this Dominion.

We take this opportunity of expressing in a small degree our appreciation of you and of the assistance you have given us, in solving the difficult problems of our profession, by presenting you with this walking cane and silver ring.

THE COLLEGE STUDENTS Normal College, Truro, May 5, 1911.

**VICTORIA DAY, May 24, '11**
