## STEINWAY

The Golden Mean of Piano Making, constructed without regard to cost. Given double the length of time in manufacture devoted to any other piano. Quality of materials and workmanship unequalled in any other factory in the world. The Steinway Piano is made for the best trade. It is not intended for competition. It is above the range of classification, and exists in a rank that is peculiarly its own. You will put 3-4 of the cost of a Steinway into a first-class piano. Add the extra 1-4 and you can own a Steinway. Surely the difference will be well spent. We take pianos, any make, in exchange, and arrange terms to suit on the balance.

Unfortunately for those who are tempted, issues are never put quite so plainly by the heralds of destiny and penalty. They are disguised as delectable chances—the toss-ups are always the temptations of life. The man who uses trust money for three days only, to acquire in those three days a fortune, certain as magnificence, would pull up short beforehand if the issue of theft or honesty were put squarely before him. Morally, he means no theft; he uses his neighbor's saw until his own is mended; but he breaks his neighbor's saw, his own is lost on its homeward way, he has no money to buy another, and he is tried and convicted on a charge of theft. Thus the customer of society establishes the charge of immorality upon the technical defect. But not on that alone; upon the principle that what is committed in trust shall be held inviolate with an exact obedience to conditions and an adherence to the spirit of the letter of the law.—Gilbert Parker.
