

CANADA'S ARMY AS IT WAS MOBILIZED

INFANTRY UNITS—Continued.

ORDER GIVEN
IN WHICH CORPS
WILL RETURN

[Continued from page 12.]

sions were sent to the Rhine first, because at that time it was the intention that all Canadian divisions should go to Germany, and if the First and Second went first they could later on be relieved by the Third and Fourth, after which they would be moved to the base and there get ready for demobilization.

"On account of factors governing the military situation it was not found possible to send the Third and Fourth Divisions to Germany, and as it was impossible to relieve either the First or Second by either the Third or Fourth, it became necessary to nominate either the Third or Fourth as the division to be demobilized first. For a similar reason to that which governed the first nomination the corps commander recommended that the Third Division be demobilized first, to be followed by the First, Second, and Fourth in order named. A certain proportion of corps troops and troops on line of communication will accompany the divisional troops to Canada.

"There are so many members of the Canadian Corps who were originally resident in the British Isles and who wish to see again relatives and parents before they return to Canada that more applications for leave to England were received than could be granted. Cordially sympathizing with this desire on the part of the men, and in order that all might be treated on the same basis, it was found that the only possible way in which to meet the wish of the men was that divisions should be returned to Canada via England. This has been arranged.

DRAFTEES COME LAST.

"With regard to troops in England: After the armistice was declared such troops in England as were available were immediately returned to Canada, not including draftees under the Military Service Act. This does not include the Forestry Corps in the British Isles, which has not been released from duty. On January 13 the adjutant-general overseas issued the following order:—

"All personnel who can be made available for return to Canada, other than draftees, are to be returned in accordance with their service groups as laid down in demobilization instructions, volume 1, appendix B. No priority of return will be accorded to men by reason of their being in low medical category. Every effort must be made to release men employed in England so that they may be returned in the order of priority set out in the above-mentioned demobilization instructions, subject to the necessity of safeguarding proper maintenance of discipline and of administration.
