"I have decided to adopt your Latin Method and give it a thorough trial. I have a competent teacher of years of experience. Both she and I are very enthusiastic over the method. Please send me 40 copies of Part I and 40 copies of Part II."

Very much to the point are these letters which we publish from time to time. They quietly tell you what educated men and women think of our method. Do you not think that there must be something very extraordinary about a system that is being adopted by schools all over the United States? Can you, who are interested in methods of teaching, afford to remain in ignorance of that system? Or are you satisfied with the "pick-and-shovel" method? At least get our free circular.
