

inspections of the facilities declared by the State Party. 1/ The agreement shall provide for the detailed subsidiary arrangements which shall govern inspections at each facility.

12. The detailed subsidiary arrangements shall include, inter alia, the size of the team required for the inspection; the duration of the inspection; the relevant parts of the site to be inspected; and the need for permanent on-site instrumentation.

#### Verification Inspections

13. The areas of a facility to be inspected under subsidiary arrangements may, inter alia, include: 2/

- (i) areas where feed chemicals (reactants) are delivered and/or stored;
- (ii) areas where manipulative processes are performed upon the reactants prior to addition to the reaction vessel;
- (iii) feed lines as appropriate from subparagraph (i) and/or subparagraph (ii) to the reaction vessel, together with any associated valves, flow meters, etc.;
- (iv) the external aspect of the reaction vessel and its ancillary equipment;
- (v) lines from the reaction vessel leading to long- or short-term storage or for further processing of the designated chemical;
- (vi) control equipment associated with any of the items (i) to (v);
- (vii) equipment and areas for waste and effluent handling;
- (viii) equipment and areas for disposition of off-specification chemicals.

14. The inspectors have the right at any stage during the inspection to obtain samples from any of the areas inspected. They also have the right to request that appropriate analyses be performed in their presence, either in-house or in a mobile field laboratory, or if necessary to have samples analysed at a laboratory designated by the [international authority]. They may request clarification of any ambiguities arising from the inspection.

---

1/ It was mentioned that matters to be covered by the agreement might include, inter alia: the requirement for a State Party to provide updated information and data to the inspection team when they arrive at the facility to be inspected and to specify analytical equipment available at the facility or at analytical facilities elsewhere; and the requirement for the [international authority] to advise the State Party of any additional requirements relevant to the conduct of the inspection.

2/ Opinions were expressed on the need to consider the question of the existence in a facility of excessive capacity for the production of chemicals in Schedule [2].
