(519) 843-2700

Fax (519) 843-2831

**Contact: James Frank,
President**

Lambda Crystal is a progressive Canadian company, specializing in the manufacture and distribution of giftware, jewellery and window art, all incorporating genuine 32 percent full lead crystal.

Our product lines include STARLYTE CRYSTAL figurines and beaded jewellery. Other jewellery items include crystal stud and dangley earrings, as well as pendants and pendant sets. Additional crystal products feature window prisms, tabletop giftware, goblets, candlesticks and bells.

Crystal's beauty and skillful design create pieces which become instant collectors' items.

Lambda is also a manufacturer of brass picture frames, keyrings, bookmarks, STAR-SPRITES window art and twist ornaments.

In summary, we offer an outstanding and totally unique range of hand made, Canadian designed and manufactured crystal products. Prized by collectors, their eyecatching beauty and heirloom quality have made them gifts of overwhelming popularity. Combined with our customer service and favourable prices, Lambda Crystal has become the largest supplier of crystal giftware products in Canada.

Levinter Industries Limited

54 Avdia Court

Concord, Ontario

Canada L4K 3N4

(416) 669-9580

Telex: 06-964708

**Contact: Mervyn Levinter,
President**

The list of silver plated holloware products manufactured by Levinter is almost limitless. It includes table top items such as tea sets, chafing dishes, sugar and creamers, trays and cake dishes. Champagne buckets, candlesticks and bon bon dishes are also encompassed within our elegant line.

Most pieces are manufactured under our well-recognized VIKING PLATE trade name, which has been used since we started business over 60 years ago. All products are manufactured by skilled Canadian craftsmen. With them, Levinter maintains a standard of which we have been proud for these many years.

Levinter Industries is gratified to be instrumental in contributing to the justifiably superior reputation that Canada takes in the international world of silversmithing.
