

- Detailed Pipe Location

Atlas/SESL have completed numerous wellsite and pipeline surveys and mapping projects for various clients in the oil and gas industry. Projects include working on contracts with the following companies: Renaissance Energy Ltd., Nova Gas Transmission, PanCanadian Petroleum Ltd., Esso Canada Resources, Ocesa, Rio Grande Ingeniería, BP Exploration Ltd, Saipem, ECOPETROL, Oleoducto de Colombia, Gas Natural S.A., Promigas S.A. and Transmetano S.A..

Atlas/SESL are interested in talking to Canadian companies regarding opportunities in Colombia. The company is particularly interested in companies that have geomatics expertise in the mining and environmental industries as Mr. Galindo feels these will be two growth areas in Colombia within the next five years.
