

so many farmers across the country are asking about the legality, and the Wheat Board is the only institution being sued, but represents all farmers?

**Mr. Lang:** There are many private individuals who own grain involved as well, but of course the Canadian Wheat Board is very careful about its contractual arrangements and obligations and obtains constantly very good legal advice.

#### MACKENZIE HIGHWAY—DATE OF DECISION ON CONSTRUCTION

**Mr. Doug Neil (Moose Jaw):** Mr. Speaker, my question is for the Minister of Indian Affairs and Northern Development. On March 21 I asked the minister about the future of the Mackenzie highway, and in response to my question he said that the cabinet was currently examining the matter. I wonder if he can tell us if the cabinet has made a decision, and if not, when we can expect a decision.

**Hon. Judd Buchanan (Minister of Indian Affairs and Northern Development):** Mr. Speaker, this matter is still under consideration. I am not certain that I said cabinet. I thought I said department. The matter is still under consideration, and we have not yet taken a decision.

#### DISCREPANCY IN MAP OF BRITISH COLUMBIA—REQUEST FOR CORRECTION

**Mr. Benno Friesen (Surrey-White Rock):** Mr. Speaker, my question is actually a supplementary to one posed by the hon. member for Kootenay West last Tuesday to the Minister of Industry, Trade and Commerce. If he will check that tourism map which is published in the *National Geographic* magazine, he will find that the city of White Rock, British Columbia has been exchanged for Blaine, Washington.

**Some hon. Members:** Shame!

**Mr. Friesen:** I think this is carrying international trade too far. Since White Rock is known for its recreational beaches, I wonder if the minister will be good enough to check his records to see if that city really is there.

**Hon. Alastair Gillespie (Minister of Industry, Trade and Commerce):** Mr. Speaker, I am sure I do not need to check to assure the House of that fact. That city is very well represented in this House.

**Mr. Clark (Rocky Mountain):** Mr. Speaker, I rise on a point of order. The Minister of National Health and Welfare mislead the House in making in answer to a question of mine, a mis-statement of fact when he suggested that responsibility lies with the province of Ontario for a problem which is known to originate in Minnesota, outside the jurisdiction of the province of Ontario, and including an

international water matter within the jurisdiction of the International Joint Commission. I hope that the minister will correct the record and that he will accept his responsibilities.

**Mr. Lalonde:** Mr. Speaker, the record tomorrow will show exactly what I said.

### BUSINESS OF THE HOUSE

#### WEEKLY STATEMENT

**Mr. Baldwin:** Mr. Speaker, may I be permitted to ask the President of the Privy Council about the business for the rest of this week and for all of next week?

**Mr. Sharp:** Mr. Speaker, I will give the intended business for today, tomorrow and Monday. Today we will continue with Bill C-32, the petroleum administration act. Tomorrow we will take, in this order, Bill C-3, Bill C-5 and Bill C-20. On Monday, if the report of the Standing Committee on Miscellaneous Estimates has been made and we are in a position to proceed, I intend to call Bill C-44. I am not certain of the business thereon because I am not sure how long these items will take.

**Mr. Baker (Grenville-Carleton):** On the same matter, Mr. Speaker, in view of the undertaking given by the Minister of State for Urban Affairs to have his capital spending estimates brought before the Standing Committee, I wonder if the government House leader would consult with his colleague and see what can be done about having that reference made as quickly as possible so that the committee could get on with this important study.

**Mr. Speaker:** The hon. member for Winnipeg North Centre on a point of order.

**Mr. Knowles (Winnipeg North Centre):** Mr. Speaker, may I direct a question to the government House leader with respect to his announcement that on Monday we might be dealing with Bill C-44? Is it clear that no attempt will be made to proceed with this bill on Monday unless we have a reprint of the bill as it was amended by the committee, and also the reports of the committee?

**Mr. Sharp:** I hope that will be possible, Mr. Speaker. I had not realized there might be any delay in that respect, but I understand the concern of the hon. member and I will try to speed up the progress of the report. At least we will have a reprint of the bill before us, I would hope.

**Mr. Knowles (Winnipeg North Centre):** With respect to House business, may I also ask the government House leader when there will appear on the order paper the bills to amend the Old Age Security Act about which the Minister of National Health and Welfare has been making pleasant noises?
