

BASEMENT PLAN

GROUND FLOOR

FIRST FLOOR PLAN.

MINIMUM COST TWO ROOM SCHOOL. FILE NO. 282
 STOREY AND VAN EGMOND, ARCHITECTS, REGINA, CAN.

This plan has been used very successfully where it is necessary to obtain a first-class two room school at the minimum cost. Class rooms are of standard size and properly lighted and ventilated. Separate cloak rooms and separate recreation rooms for boys and girls. This plan is very compact, every foot of space being used to advantage.
