NO child ever had too much milk---it is good and good for

It is light and easily digested.

It is a balanced food---containing just the right proportion of protein, carbohydrates and fats.

It is food that every child welcomes---at meal-times and as an in-between-meals drink, too.

Just as it is better food-it is also more economical food. Better than meat, cheaper than meat. Better than eggs, cheaper than eggs. Better than fish, cheaper than fish.

Give your children lots of nourishing milk from The Farmers' Dairy--fresh from the countryside--rich in body-building butter-fat--made safe by scientific pasteurization in the most up-to-date, most completely equipped dairy on the continent.

It costs no more to get milk from The Farmers' Dairy. It is worth more---to be assured of its richness, of its freshness and purity, of its safety.
