PRICE OF WASAPIKA HIGHEST ON RECORD

Lake Shore, Adanac, Timiskaming, Nipissing, Beaver Are Also Strong.

Quite a noticeable improvement in the demand for mining stocks was observed yesterday, this being all the more gratifying in view of the fact that the market was on the triple holiday.

Substantial gains were scored by Wasapika and Lake Shore of the gold group, and by Adanac, Timiskaming, Nipissing and Beaver, of the silver list.

Wasapika, which has for some time been holding around \$1, advanced yesterday to 85, three points higher than the previous high record.

The sudden rise appears to have been inspired by prospective important developments at the property as well as by the rumor of a big amalgamation in the West Shining Tree district.

Lake Shore opened at a point lower at 98, but quickly developed strength, rising to par for the first time in some weeks and closing the day at 100.

Adanac's performance of yesterday was one to awaken hopes among disheartened shareholders. There was brisk buying of the stock, a transaction of 53,000 shares shown, and the price advanced one and one-half points to 12.

Wasapika REACHES IMPORTANT STAGE Price of Stock Advances Sharply in Anticipation of Big Developments.

Keeping step with the highly important developments under way at the property, Wasapika stock yesterday reached a new high in its long climb from the issue price of 20c when a renewal of buying caused the price to advance to 85c per share.

As these other and richer veins are reached in the underground work, very much higher prices for the stock will be warranted.
