EDWARD COWING, VICTIM OF PERCY COLE'S SHOT-GUN—LABOR DAY AWARDS.

Hamilton, Sept. 5.—(Special).—The remains of the late Rev. Frederick Bower were forwarded this evening to Minden, Ont. John J. McAllister, 166 North McNab street, a very old resident, died suddenly this morning of heart failure. He had reached the age of 84 years. Two sons, Harmon and John McAllister, and one daughter, Mrs. Crear, London, survive him.

Edward Cowing, a lad 16 years of age, who lives on Euclid avenue, was the victim of one of those "idiot" know-it-all accidents. This afternoon he went out hunting near Dundas with Percy Cole, another lad, and a shotgun. He was walking home ahead of the gun and his chin, when the gun went off, and the lead tore the muscles of the back of Cowing's leg. Dr. Bertram dressed the wound and forwarded the victim to the City Hospital, where the doctors have some hope of saving the limb.

A burglar climbed on the shed in the rear of the residence of W. A. Robinson, 34 East Hanna street, this morning between 2 and 3 o'clock and forced his way into the house by a back window. He roused the family and had to clear out with only a few dollars. The burglar was seen to be a white man, about 30 years of age, and was dressed in a suit and a hat. He was seen to be a white man, about 30 years of age, and was dressed in a suit and a hat.

While the big Labor Day procession was passing the corner of King James street this afternoon, John Lewis, 50 North Hughson street, a colored man, got into a fight with a white man. Lewis tried to shake him off by running in and out of the crowd and the procession. A gang of about a dozen men followed in their tracks to watch Lewis jump several fences and managed to get into his own back yard. The officer was a good second, and captured the man.

The judges had a hard time picking out the winners in the Labor Day procession. The painters and decorators captured the field in the first prize for the best turnout. The bakers and barbers were tied for second place and the carpenters came third. The painters and decorators also got first on their float, retail clerks second, and the cigar makers third. In the workmen's parade the winners were: Single teams—Royal Distillery, first; Will Apple-gate, second; Finch Bros., third. Double teams—Canadian Express Co., first; Cummer Ice & Coal Company, second.

WITHDREW BULK OF ARMY. Kuropatkin Cut Bridges to Hamper the Japanese Advance. Tokio, Sept. 5, p. m.—A mass of official reports on the battle of Liangching reached imperial headquarters today, but will not be given out until possible to put them in order and make from them a concise and detailed story. In the meantime the Japanese are reported to have withdrawn the bulk of their army, and that he cut bridges to hamper the Japanese pursuit.

Critical Interest centres in the operation of the Japanese right wing which occurred Friday night and early Saturday morning. Gen. Kuropatkin then swung to the westward, his movement being designed to flank the Japanese right wing, which was left at Liangching itself. It is believed here that Gen. Kuropatkin is bound to lose many prisoners to the Japanese. It is possible, however, that the topographical difficulties and the overwhelming opposition of the Russians may check this movement on the part of the Japanese.

Among the Japanese officers reported killed in the battle of Liangching are Lieut. Leirochi, a son of Gen. Leirochi, minister of war, and Lieut. Fukushima and Murata, both sons of Japanese generals. Official figures of the Japanese losses and a list of the trophies captured are expected to reach Tokio tomorrow. It is believed here that Gen. Kuropatkin's next stand will be made at Mukden, also there is a defensive ground south of there.

COTTON SPINNERS' WAGES. (Canadian Associated Press Cable). London, Sept. 6.—The American delegates to the Trades Union Congress now being held at Leeds say that the wages earned in the United States, except in the case of spinners, are no better, considering the purchasing power of money, than obtains in this country. This is no doubt due to the fact that in some centres of cotton spinning and in the manufacturing districts of France, Canadians and Poles were becoming more employed, and generally at considerably less wages, but this more often than not increases the cost of production.
