# FORMAL OPENING Mantles and Millinery.

New Fall Goods have been opening out for weeks, but the complete showing is reserved for to-morrow, when Mantles, Millinery and Dress Goods hold their formal reception. It will be at once a revelation and a triumph. In quantity, in variety, in elegance, in excellence, each display will outrival anything ever attempted in Canada, including the most audacious styles and most striking novelties. In recent years we've gathered great stocks and controlled many choice things, but our success now overarches everything in the past and crowns this September with larger interest than any month since we've been

Think of Pattern Hats valued at hundreds of dollars each, Novelty Wraps that are simply gorgeous, and Dress Patterns beyond the power of adequate description! It isn't merely a formal opening of new goods, although you expect us to set the pace for Fall. It is, in reality, the grandest display of Novelties ever seen at wholesale or retail in Canada, and in that we can't be. too emphatic. The choicest things are bound to be where the power of collection is greatest, and what we'll have ready to-morrow will discount the best expectations of those who know us best.

First glimpse of styles that'll be seen nowhere else, and the first correct idea of what to wear for Fall-Wednesday and following days. Everybody is welcome to see all there is to see without the slightest suggestion of buying. The reception is for you as much as for anyone. Come!

ing was mostly of a scalping character, With New York stocks firmer and a better feeling, developing here, we would not be surprised to see wheat selling at 62c before the end of the week. Liverpool cables come steady and unchanged, with Paris a shade higher. Our visible supply increased 286,000 bushels.

Corn and oats—Business at no time was fairly brisk, with prices closing a shade lower. Local receipts of corn, 864 cars, and oats 467 cars.

Provisions—Quiet. Cash demand is improving. We believe the turn to better prices is at hand.

McIntyre & Wardwell (John J. Dixon) received the following despatch over their private wire to-day from their branch of fice at Chicago: The opening was rather quiet at Saturday's closing, with outside orders apparently scarce. Cables were barely steady. World's shipments amounted to 7,000,000 bushels, which induced some local selling, and on the small decline which followed there were many small lots long Sept. wheat sold, although elevator people and carriers were buyers and deliveries not expected to be large. Only cash business reported was 50,000 bushels. No. 3 hard taken here. Northwest receipts 824 cars, and receipts at primary points were 1,200,000 bushels. We continue friendly to long side, but for present, with heavy movement in Northwest, we may see somewhat lower prices.

Corn and oats—Both markets ruled dull and heavy. There was more Hquidation by Sept. longs, which was main feature of trade. Country movement continues liberal, but in corn offerings falling off somewhat, while the offerings of oats are more liberal, but in corn offerings falling off somewhat, while the offerings of oats are more liberal. Cash demand for corn fairly good and charters made for 290,000 bushels. Cash demand for oats poor, and with present increasing movement we do not think
