

EAST KOOTENAY ACTIVITY.

Canadian Pacific's Policy to Tap the Mining Districts of the North-western States.

MINING STOCKS IN MONTREAL.

Manitow and Minnesota - News From Hastings County-Toronto Mining Exchange.

From a western American source comes the report that the Canadian Pacific intends to build branch lines into the States of Washington and Oregon, and there is something more than the mere enjoyment of a monopoly of the Boundary Creek district of B. C. in its opposition to the Kettle River Valley Railroad. It is said that its plans are on a magnificent scale and contemplate a tapping of the Republic camp, to touch at Chelan, Washington, and then to Puget Sound and to the Willamette River as far as Portland, Oregon. From this it is seen that the Canadian Pacific is determined to secure a portion of the trade of Oregon and Washington. The story is printed by the Spokane Chronicle. It is stated that no attempt will be made to begin these extensions this year, as the building of lines in British Columbia will fully occupy the big railway's efforts, but when these lines are finished then the plan is to take the boundary and branch lines down to the west side of the Columbia.

In doing this the Canadian Pacific in the West would be but repeating its history in the East. As is well known, the C.P.R. has lines running through portions of the States of Maine, Michigan, Minnesota and Wisconsin. The big road evidently intends to get the cream of the mining traffic in both British Columbia and the Northwestern States of the United States.

Montreal Mining Board. It is the opinion of Mr. J. L. Mitchell, of the firm of Mitchell, Wallace & Co., who was present at the opening of the Montreal Mining Board last Monday, that Montreal is on the eve of extensive speculation in mining shares. There is no doubt that the opening of the Montreal Mining Exchange will help business. Early the Toronto business. Montreal is a buyer of the better class of mining stocks. Toronto has reached the stage where a great deal of stock is for sale, so that business with Montreal must increase and help the Toronto brokers very considerably.

East Kootenay to the Front. With the advent of the new West Hallway, activity in East Kootenay mining properties becomes more and more noticeable. Within the last couple of weeks 14 claims on Sullivan Mountain have been purchased by Toronto and Spokane parties. The locations sold include the Gems and Story. Some good strikes of galena ore have been recently made on the Emma, one of the properties in question.

The Fort Steele Prospect gives the following particulars about the North Star, which is the premier mine of East Kootenay, as far as development and present showings are concerned. The main shaft is down 235 feet, and No. 2 shaft is down 30 feet, and in all 45,000 tons of ore have been actually blocked out. The body of ore is all within 60 feet of the surface, and when the drifts have been run from the 200 foot level, the expected, of course, that the available ore body will be largely increased. So far the North Star has sent its ore by boat down the Kootenay River to the American smelters, but when the branch of the Crow's Nest Railway is run to the mine the management expects to be able to ship 200 tons of ore daily. The average value of the ore is put at \$60 per ton.

Dinosauric Versus Wabgon. Editor World: The town of Wabgon and what is called the district of Wabgon are confused; people who are interested in Wabgon claim it is the hub of the district, and I am sorry to hear that the C.P.R. is contending to convey that impression. Now, to give you the straight facts of the case, I say the only point in which Wabgon stands on equal terms with Dinosauric or Dymont is as a stepping off point for the Manitow gold fields, and even in this case it is six miles by water, further via Wabgon than from Dinosauric. The section known as the New Klondike has reached from Dymont, where there is a good hotel and store, and one has no more reason to start from Wabgon than from Dymont to get to that place than from Halifax. But when it comes to the northern district, the only available route is from Dinosauric, where the Hudson Bay Company have made their headquarters, and where, with the whole of the northern district, there is a fairly good wagon road to the head of a lake, a distance of eight miles. Over this road the John Sykes Mining Company have just hauled their ten-stamp mill plant, and every individual

interested in the north makes Dinosauric his headquarters. During the late local election the Government squandered \$400 in cutting out 25 miles of road from Wabgon to reach a navigable point on Manitow Lake. This was done in the middle of winter, and even as a winter road it is impassable. (Sgd.) Fair Play. Dinosauric, Ont., April 7, '99.

Over-Booming Republic. The Republic Pioneer is out with an article concerning the over-booming of Republic Camp. It says, for instance: "A great deal of matter is being printed about Republic and the mines that are rich in pure gold in fact, and the effect is to injure the camp and its prospects. Some people imagine that by exaggerating they help development. This wholesale lying about the camp is the especial work of grafters. Plain facts are enough for Republic."

Rosland Progresses. An indication of Rosland's progress is seen in the report of Postmaster-General Mulock for the year ending June, 1888, just issued, which shows that for the twelve months in question Rosland ranks third in the Province of British Columbia as a producer of postoffice revenue, Victoria and Vancouver alone out-ranking it.

Mineral in Hastings. According to The Marmora Herald, the Cordova Exploration Co., which is working the Belmonte mine, has just received another shipment of gold bullion amounting to \$2500. The shipment was smaller than usual, owing to a breakdown necessitating the stopping of five out of the ten stamps. The Belmonte mine, which is owned by the Gold Mines Co., Limited, of England, also made another shipment of bullion this week. The Deseronto Iron Co. has just received an order for 1000 tons of pig iron for malleable castings, to be delivered in Liverpool, England. The shipment was made by the company's own ship, the Deseronto, and it will probably be the first of charcoal iron to be shipped from Deseronto. At present the Deseronto Iron Co. is turning out about 1000 tons of iron a month.

Curry Not Satisfied. Editor World: Will the editor of The World kindly state that it never was the intention of the directors of the new Mining Exchange to in any way connect the name of Captain Currie with the new exchange? It is a very unfortunate coincidence that the name of Captain Currie should be connected with the new exchange. I am not ashamed to say so. The new exchange is backed up by gentlemen of high standing and heavy trading in the Dominion who will make it a success and advantage to its members, and worthy the name of Captain Currie need not have any fear of his name ever being connected therewith.

Mining Share Market. Messrs. Currie & Kiley, in their daily review of the mining share market, say: The feature of today's transactions was the excitement and heavy trading in Golden Star. For weeks this stock has been "sagging" lower and lower, and at the board figures around 32 1/2. At the opening of the afternoon session the excitement began by some one buying heavily, and the stock arrived from the West while the call was in progress announcing the arrival of the ship from the West. The mine for the month's run, less five days, and several brokers that had been persisting "bear" on the stock started to buy and bought everything in sight, closing the stock strong at 35 1/2. The rest of the day the stock was strong in sympathy with Golden Star. We look to an advance now in the favorite shares, and consider the market will now reap the largest profit. We buy and sell all the best and will be pleased to fill orders on the exchange.

MR. SCOTT IS PRESIDENT. Meeting of Northern Navigation Co. Shareholders - Continuing Face-to-face in Prospect. Collingwood, Ont., April 12 - The shareholders in the Northern Navigation Company of Ontario, Limited, met in the company's offices here to-day and elected the following directors: James Scott, President; J. J. Long, Vice-President; C. E. Cameron, Secretary; Thomas L. Cameron, Treasurer; J. J. Long, Managing Director. GASPERIA AT LAST FREE. Proceeding Under Her Own Steam to St. John's, Nfld. Mr. Keating, general agent of the Canadian Steamship Navigation Co., has received word from Cape Race that the Gasperia has passed that point under her own steam route to St. John's, Nfld., thence to Miramichi. The ship is in splendid condition, and will arrive in England next week. Her arrival in England will take her place on the route.

Annual Meeting in Detroit. The American Railway Association, which is composed of the chief officers of the roads in the United States and Canada, held their annual meeting yesterday in Detroit. The Gratiot Tunnel, which is owned by the General Passenger Agent McNeil, Manager of the Gratiot Tunnel, and Superintendent J. V. Leonard of the Detroit and Quebec division, were present for the C. P. R. The Board endorsed the plan of the Central Railway, and will petition the Government in its behalf.

Will Be Looked Into. The employees of the Grand Trunk who were dismissed as a result of the accident at St. John's, Nfld., last month are being looked into by the Board of Directors. The Board is considering the case of the dismissed employees, and will decide whether they should be reinstated or not.

Discussed Insolventcy. The Insolventcy Committee of the Board of Trade met yesterday afternoon and discussed Mr. Fortin's bill on insolventcy. The committee was divided on the question of whether the bill should be passed or not. The committee will report to the Board of Trade on the matter.

SPRING IS A WOLF IN SHEEP'S CLOTHING.

The gentleness of Spring of which the poets sing is to a certain extent visionary. There is more disease and sickness waited about on the gentle Spring breezes than is carried along by the gales of a blizzard. "When Spring unlocks the flowers that paint the laughing soil," it also frees from the frozen clutch of winter the imprisoned germs of disease. Each melting pile of a winter's collection of dirt and snow exhales disease-laden fumes. Your health, at this critical season of the year, depends on whether your system is strong enough and your blood pure enough to withstand the disease that lurks in the Spring atmosphere. Abbey's Effervescent Salt purifies the blood; strengthens the system; imparts energy to every portion of the body; prevents disease. It is not only a Spring medicine. It is a general all-year-round tonic, in all climates, at all times. Its use in the Spring-time will do you more good than any self-styled Spring medicine. The daily use of Abbey's Effervescent Salt gives robust, energetic health and a clean system. Do you take it daily? If not, commence now. You could not choose a better time.

What two Canadian medical authorities say: The Canada Lancet says: "This preparation deserves every good word which is being said of it. A sample is offered to each physician, and most favorably it is commented upon. There is no doubt, but that the daily use of Abbey's Effervescent Salt will be a great preventive and aid in warding off attacks of disease." Dr. Chas. L. DeMartigny of Montreal has been a physician for the past fifty years. He has seen much suffering in that time, and has done much to alleviate it. This is his opinion of Abbey's Effervescent Salt: "I have given Abbey's Effervescent Salt a very thorough trial among the inmates of the House of the Sisters Hospital, and among the inmates of the St. Mary's Hospital, and among the inmates of the St. Vincent's Hospital, and among the inmates of the St. Joseph's Hospital, and among the inmates of the St. Michael's Hospital, and among the inmates of
