PANIC AT PETERHOF PALACE; BOMBS IN CZAR'S GARDEN

Wild Consternation in Imperial Household Follows Unearthing of Deadly Dynamite Machines.

New York, July 11 .- According to a St. Petersburg dispatch to the World, there was wild consternation at the Imperial palace at Peterhof yesterday following the discovery in the garden of that place of several bombs filled with

The excitment and dread were indescribable. It was obvious that the bombs must have been placed there by someone connected with the palace, either as officer, guard or servant, and everyone equally was under suspicion. Gen. Trepoff, the commandant, immediately put in motion all the machinery of his office to discover the culprit, but thus far without result. In the meantime the person of the Czar is being more rigidly guarded than ever, if increase of precaution is possible.

Chouknin's Life Attempted.

Sebastopol, July 11. - An attempt was made at 1 o'clock this afternoon o assassinate Vice-Admiral Chouknin, commander of the Baltic Sea fleet. The admiral was wounded and taken lo a hospital.

Vice-Admiral Chouknin has been blamed for his severity, and it was to his treatment of the crews of the ships under his command that the mutiny on board the battleship Kniaz Potemkine, in June and July, last year, was

The Rech today declares that the tone of the debate in the Upper House yesterday leaves little hope that this "assembly of bureaucrats, land and commercial magnates, and representatives of the reactionary nobility and clergy, with a small leaven of liberals." will ever be able to work in harmony with the progressive ideas represented in Parliament.

Preferential Resolution Carried With Cheers

London, July 11.—The resolution in favor of preferential treatment on a reciprocal basis, introduced in behalf of the Montreal Board of Trade, at the opening yesterday of the sixth congress of the Chambers of Commerce of the Empire, was carried at today's session amid a remarkable scene of enthusiasm. The vote was preceded by a further animated discussion for and against the resolution. The Australian delegates considered It to be impracticable, while the Madras representatives approved of it. The British delegations appeared to be divided, but when an expression of opinion was called for a forest of hands went up in favor of the resolution, and only a dozen voted against it. The Canadians then rose in a body, and the hall reechoed with their cheers, while some of them tried to sing "God Save the King." On the demand of the opponent of the resolution, a formal vote was taken by the congress, resulting in 107 delegates declaring themselves in favor of it, 35 against it, and
