CANADIAN HEADQUARTERS IN FRANCE, via London, Aug. 16.—(By Stuart Lyon, Special Correspondent of the Canadian Press.)—All hope that the enemy may have had a chance of recovering Hill 70 was quenched late this (Thursday) afternoon, when an assaulting column of Manitobans and British Columbians, by a gallant attack, drove the Germans who clung to the eastward slope of the hill back 700 yards on a front of over 1,000 yards. The enemy is now down in a hollow, with our troops overlooking his positions. with our troops overlooking his positions.

The assault was the most impetuous charge I have yet seen. Despite a heavy enemy barrage, put down almost as soon as our own indicated the locality of the attack, the first wave went forward at the double. In less than three minutes afterwards prisoners they had taken were seen running back through the smoke toward our trenches. They numbered between 80 and 90 and suffered some casualties en route from their own guns.

With characteristic thoroughness the Germans had mined somo ef the chalk pits that formed the easterly limits of our front, and when it was believed by the enemy that our troops had settled down, the chalk pits were the scene of a tremendous explosion. It was very fine, and the Boche is probably still

JUVENILE CRIME SAID INCREASING

Brantford Police Make This Statement-Man Drops Dead.

BRANTFORD, Aug. 16.—Juvenile erime is on the increase in this city. This is the statement given out from an authentic source today. The pinch-back suit is not for the recruit who joins the Canadian overseas forces, no matter how much the youth in civies may swagger in it. On the other hand recruits are to be fitted out in loose-fitting clothing, and the efforts of the quartermaster-sergeant who hands out the suits of khaki are to be bent not towards making the new soldier a "Beau Brummel," but to give him a suit in which he can jab a bayonet into a Hun or two without being impeded in his movements, or having his trusty biceps held in check by lack of room.

"Loose clothing" is the call that has gone forth, and in fact it went forth some time ago, but it was not heeded, and the boys fell for the temptation to look their lenderest. GUELPH, Aug. 15.—The deputations from Mount Forest and Fergus were present at the noon luncheon today of the board of trade executive committee to talk over the question of a county-provincial highway between Owen Sound and Hamilton. The people of the former town are behind the project, wishing to get better connections to Guelph and Hamilton, and promote trade all the was, along the line. The scheme was fully explained by the deputation from Mount Forest, though no figures were given. The route proposed is really what used to be the old Indian trail for teaming between Owen Sound and Hamilton, when Guelph was the chief stopping place. Mount Forest being about forty-five miles from this city, and the same distance from Hamilton, is, of course, vitally interested.

Financial, Market and Commercial Section

Hay, straw and oats were offered in thundance on the market today, but he demand was so poor that some of he purveyors were forced to return o their farms without having made a sale. Because of the particularly slow narket for grain and fodder slight decreases in oats and hay were shown, he former selling at \$2 to \$2.10, and he latter fodder ranging in price from \$1.50 to \$9. Some of the farmers considered \$7.50 per ton for their hay indequate remuneration, and a few religed to sell at this minimum value.

The probabilities are that grain and hay in general and particularly oats will decline materially within the next week as the market for these necessiles becomes slower as is forecasted by local buyers.

Live hogs jumped to an unprecedented high value yesterday. The price of porkers ranged from \$16.25 to \$16.75, an advance of 25 cents over Tuesday's juotations. This brings the value of live hogs to a point that has not been reached before in the history of London market. Small piez and formed the provision existing in speculative quarters by reason of prevailing in speculative quarters by reason of prevailing in speculative quarters by reason of prevailing in speculative quarters by reason of prices at the irregular movement of pri

live hogs to a point that has not been reached before in the history of London market. Small pigs and butchers meats remained stationary, dressed hogs selling at \$21 per cwt. and fat sows selling slowly at \$13.50 to \$13.75. In similar quantities.

Plums were offered for the first time this year in 11-quart basket lots, selling readily at 75c to 85c. Peaches have not been offered in sufficient abundance to quote a standard price for them, but it is expected that a fairly large offering will be in good demand shortly. Harvest apples are selling at the unchanged price of \$2 per bushel. The local production of apples this year will be exceptionally poor, both in quantity and quality. However, a bumper crop in the eastern provinces, especially Nova Scotia, and on the western coast will insure that people of Western Ontario a good share of apples throughout the fall.

"The first morning he told the farmer he was sick and couldn't work. The farmer, being a reasonable person, said he couldn't expect a sick man to work, and just to take the day off and rest. The same thing happened the second and the third day, the fellow eating his good square meals all the time. Then the farmer had to go away on some business, and our fine hired man told the wife that he wasn't going to stay, and that he didn't intend to work like they were doing on the farm. He left, and he had the nerve to come back to the employment bureau office.
