PROPERTIES WITH REAL MERIT

OPERATORS The present opportunities for in-

vesting in real mining properties at real values have never been surpassed in the history of the great silver camp. This is but natural under present conditions-every day bringing forth new and valuable discoveries in the great silverlund. Our business is to secure these properties direct from the prospectors and men in the field, and our representa-tives on the ground have enabled us to secure some of these on very favorable terms and at reasonable We have a splendid list of prices.

properties ranging in value from \$500 per claim to \$250,000. The former are usually claims staked during the winter on which calcite leads are found in the diabase around Obuskong, Spawning and

Hanging Stone Lakes. These properties are practically undeveloped. and when the snow leaves and real prospecting takes place, may produce some of the wonders in the camp. The higher-priced properties show mineral in place, and range in

value according to silver in evidence, location, etc., We endeavor to secure an engineer's report on all silver properties, as well as owners'

statement. We also insist cn reastatement. We also theist on rea-sonable terms and conditions. If advertised list does not contain what you want, write or wire us-stating amount you desire to invest, and we will endeavor to satisfy your

and we will endeavor to satisfy your requirements. We have the latest maps of Gow-ganda and Silver Lake districts, as well as all township maps. We do not confine our efforts to Gowganda and Elk Lake district, but have properties for sale in Coleman, Bucke, South Lorraine, etc.

REAL MINING PROPERTIES

We have been successful in securing several of the best mining properties in the heart of the rich diabase ridge on which the famous mines of Gowganda are situated. These are not snow-staked claims -secured in winter-but properties located last fall when formation and other conditions that mark valuable mining properties were visible to prospectors and mining engineers. Development has proven the merits of these properties, and native silver in quantity is visible to the naked eye. Some of these properties are still in the original owner's hands, and these are claims we believe offer the greatest opportunities to shrewd investors. If you want to buy a real mine at a fair price, we can deliver the same.

The above statements apply with equal force to Silver Lake, James, South Lorrain and other portions of the great silver camp, and real buyers will find it to their interest to consult us before looking elsewhere

Aside from these properties we have a line of medium-priced claims—properties that show mineral in place—some of which are worthy of more than passing attention. We direct the buyer's special attention to these. All our properties are offered subject to inspection in the field.

Among the list of properties offered we have four forty-acre claims adjoining Townsite of Smyth, the surface rights for residential purposes being worth more than we are asking for the whole acreage.

MAPS

Our new map of the Montreal River district contains nine townships, with the names and locations carefully marked. It is the best yet issued and was specially prepared for our customers. Sent post-paid on receipt of \$1.25.

Every prospector, owner and broker should have one of our latest Gowganda maps. They are complete and will be mailed upon receipt of \$1.25.

We also have separate maps of the various townships, the price of which is 75c.

We have unexcelled facilities for handling mining properties, and have an extensive clientele, in Canada, the United States and Great Britain. This clientele is daily increasing, and we are desirous that it should. In order, however, to maintain the position of leadership we have established for sale of min-

PROSPECTORS

ing properties, we believe it advisable to state openly so that all claim-holders may understand, the information we have forwarded to many prospectors who have written us to sell their claims.

1-We must have an owner's state-ment clearly setting forth forma tion of claim, description and number of veins showing values.

2-Send particulars as to title, giving number of claim and stating number of days' work actually per-

formed. Also if surveyed. 3-Do not have your propositions loaded two or three times their actual value by middlemen and others.

tual value by middlemen and others. We do not and will not offer prop-erties this way. 4-We do not accept for sale all properties offered, and do not de-mand an option until we have real buyers in sight. 5-We believe you would make more money out of well-located and undeveloped claims by placing the same under working options. These properties at present sell from \$500 to \$5000. Suppose you place same with real, operators who will accept an interest in your property and pro-ceed with continuous development, you reserving an unassessable interceed with continuous development, you reserving an unassessable inter-est. If it proves to be a mine, you will have an independent fortune-if otherwise, you are only out of pocket cost of staking and record-ing. We have placed several prop-erties this way, which we consider fair to all parties interested.

DURHAM HOTEL CLOSES.

DURHAM, March 14 .- The Hahn House in this place has practically closed its doors, refusing treats or lodging to the traveling public, on ac-count of a raid by provincial detectives. who found a jug of whiskey.

Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some consti-

urging tutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted.

Or again, you have, a sinking sensation, a feeling you are going to die; or perhaps, you wake in your sleep feeling as though you were about to choke or smother, and rest leaves you for the night. If you allow these conditions to continue for a short period even, you will begin to feel your health declining. It is the nerves and neart not acting rightly, and they can only be set right by the use of Milburn's Heart and Nerve Pills. They soon induce healthtul, refreshing sleep, not by deadening the serves, but by restoring them to healthy action.

Mrs. E. Nutt. St. Mary's, Ont., writes: "I can gladly recommend your Milburn's Heart and Nerve Pills as I was greatly troubled with my nerves. I was so had I could not sleep at night without the lamp burning, but after taking four boxes of the pills 1 became all right again."

<text> was streaming from him he clung with one hand to the grating of a near-

KICK FROM A HORSE LIKELY TO KILL BROCKVILLE BOY

BROCKVILLE, March 14 .- (Special). BROCK VILLE, March 14.—(Special). —James Regate, aged 10 years, lies in a precarious state at the hospital with a fracture of the skull, as the result of a kick from a horse. He was stealing a ride on a cutter, standing on the runner and clinging to the back the seat. The rig passed close to a horse being led by the halter and the animal shot its heels into the air, sinking the shoe of one foot into the boy's head.

The Ontario Teachers' Alliance is

The Ontario Teachers' Alliance is The Ontario Teachers' Alliance is in a flourishing condition as is evidenced by the number of new branches being formed.

On March 4 a branch was formed in the Jarvis-street Collegiate, when the following officers were elected: Presi-dent, R. A. Gray; vice-president, J. Jeffries; secretary-treasurer, W. J.

Lougheed. Last week a branch was formed in the western part of the city. It is expected that other branches will shortbe formed.
