SATURDAY MORNING, JAN. 1.

Shall Montreal Rule Toronto?

It has been fairly well demonstrated that the big interests of the community are behind the opposition to the hydro radial bylaw. We are convinced that the C. P. R. is a chief factor in organizing the campaign to defeat the plan by which the people will own and operate their own electric roads in the province. The C. P. R. has already begun to construct a radial road in its subsidiary company, the Lake Erie and Northern Railway, and has been obtaining subsidies from the municipalities thru which this line passes. There is no question of line passes. There is no question of giving these municipalities representation or any say in the management of the road to which they are contri-

Luting.

Naturally, the C. P. R. objects to having the people come into the radial field. All the corporations object. But the objection of the C. P. R. should touch Toronto with peculiar force. Toionto is aware of the attitude of the big Montreal corporation towards Toronto; and of how much sympathy the city has ever received at the hands of the Montreal magnates.

It is not merely Toronto, however, ut the whole Province of Ontario which the C. P. R. regards as the proper sphere of its influence, and the nterland of Quebec. This, as much

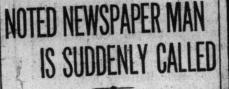

It is purely a municipal affair, and is all for the interests of the citizens. It means still cheaper light and power, cheap fares to the country, cheap freight and express rates for farm and other produce, and a lower cost of living.

Mr. McPherson and Mr. Crawford are in favor of the bylaw and so is Mr. Claude Macdonell. It is only the wealthy representatives like Mr. Gooderham and Mr. Irish who are opposed to the poor man's carriage.

the trolley car, operated by the people for the people. The interests of one kind and another, consolidated in the council of

the board of trade, are the only opponents of the bylaw, and it is a safe guide for the citizens to vote in the opposite way to that in which the interests direct. The interests say vote against the bylaw. Every citizen who values his home and home opportunities in Toronto will give the

bylaw his hearty support.

Second Appeal. Somewhat over a year ago, as president of the Canadian Patriotic Fund, I made an appeal to the people of the Dominion for funds to assist the families of the gallant men who were going to the front. Tho anticipating a generous response, I was hardly prepared for the magnificent manner in which the call was met. Moneys have poured into the treasury of the fund until the total contributions have reached and exceeded six

Large, however, as this sum appears, it has not greatly exceeded curmillion dollars. rent demands and, if peace were declared in the immediate future, the entire surplus on hand would be required before all the men of the ex-

peditionary force could again return home. Today there are 25,000 families, comprising, it is estimated, 80,000 individuals dependent upon the patriotic fund.

With further recruiting the demands upon the fund will, with each succeeding month, continue to grow, so that it is estimated that, should succeeding month, continue to grow, so that it is estimated that, should the war continue during 1916, a sum amounting to some \$8,000,000 and probably more will be required. This would, however, only mean \$1 probably more will be required. This would, however, only mean \$1 per head of the population for the people of Canada, and it is little in per head of the population for the people of Canada, and it is little in per head of the population for the people of Canada. eed to ask of those who remain at home in comparison with the sac in life and limb of those who are fighting in defence of the nation. In spite of all the various calls that have been made for funds to aid our soldiers and sailors and the magnificent response that has been made in each and every case, I still feel assured that the warm hearts of all Canadians will respond to this further appeal to enable the patriotic fund to continue its splendid work during 1916 and take care of the families of those who are fighting for their sovereign, the empire and the Dominion, on the battlefields of Europe and on the high seas.

as anything, is indicated in the pres ent fight of the council of the board of trade and the C. P. R. and other big interests to corral the whole radial policy of the province, and keep Ontario in slavery to Montreal. There is only one way of deliverance

from this menace. Vote for the Ontario policy of hydro radials and popular control of the electrical resources and the electrical development of the province. Toronto must lead the way, and Sir Adam Beck has pointed it out.

All the Good Men Support the Bylaw.

When Premier Hearst announce

that the hydro radial bylaw is satisfactory to him and that he is going to vote for it, and in support of the hydro radial policy which the government has inaugurated, there is little room for the president of the board of trade and other gentlemen to air their fears of what will happen to Toronto should the radial bylaw be carried by the people. Premier Hearst's statement of his intention to vote for the bylaw carries a tacit confirmation of all that Sir Adam Beck has said about the terms of the agreement, and the undertaking that, if Nearly Every Chapter in Canada there should be anything in it such as Mr. Woods says there is, which of course Sir Adam does not admit, altho Mr. Woods talks about it as tho he did, the interests of the city

would be properly looked after. Another bogey of the board of trade council was the fear that the city would be giving itself entirely away by passing the bylaw. Mr. Mc-Naught points out that as long as the city has its debentures to issue it can make whatever terms it thinks necessary with the Hydro Commission, and he has not the slightest compunction about voting for the bylaw. It is strange that if Mr. Woods be

acting in good faith for the city, he never as a shrewd business man perceived this check which the city certainly has upon Sir Adam Beck and the government, if any such check

were needed. We do not believe that such a check is necessary, but if it be the check exists. The fear of the board of trade is that the people in agreeing with themselves might place power in their own hands which would be dangerous to them. As long as the people remain sensible enough to look after their own interests this fear is a very shallow one

indeed. Mr. Winberg, who is a candidate for the mayoralty, has stated that he says that he is an out-and-out public cwnership man, and if elected and the bylaw be carried, which he believes it will, he will see that it is given effect. Mr. Winberg may b moved to reconsider his intention to vote against the bylaw by the state ment of the premier of Ontario. What is good enough for the premier should

In the late nineties Mr Coombe was press agent for the noted English come-dienne, Bessie Bonehill, in the "Little Count of Monte Cristo." He afterwards returned to daily newspaper work, and when the Royal Alexandra Theatre open-ed its doors he became its press agent. This position he held until failing health last May obliged him to take a rest. He was also press representative for Han-ian's Point for some years. On leaving the Royal Alexandra, Mr. Coombe went to Kincardine, where his only brother. Frank E. Coombe, resides. His health improving somewhat he re-turned to the city, and has been with friends at the address at which he died ever since.
