PARI-MUTUEL BETTING FOR NEW YORK STATE

vstem Recommended by Racing Commission to the Legislature.

Athany. Jan. 24.—The pari-mutuel system of race track betting is recommended for this state by the state racing commission in a report submitted to the legislature today. Chairman James W. Wadsworth and Commissioners John Sanford ando H. K. Knapp say they recognize the need for thorobred horses thruout this country, and that "it can be advantageously employed only by that selection which comes from the elimination resulting from the competition of the race-name."

Lendon, Jan. 24.—There is every possibility that the three great classic horse races, the Derby, the Oaks and the St. Lager, will be restored to the coming season's calendar of English flat racing, which commences next month. Strong appeals have been made by owners, trainers and breeders to the Jockey Club, for it is felt, especially, that the entries which have already been made for these races should be allowed to stand, as well as the conditions, and that the Ascot Gold Cup should also be revived under its original title. Of course, all four events will have to be trun off at Newmarket, as their original venues are not available; but, after all, it is the names of the races, and not the places at which they are decided, that are of most significance and value to the all-important breeding industry. The principle of "substitutes" for the classic races, which was adopted shortly after the war broke out, was not only unnecessary, but unwise.

Mick King Will Soon Be Ready for Battle

New York, Jan. 23.—When Mick King, Les Darcy's fellow-countryman, who arrived here "sub rosa" about a week ago, gets ready for action, he will find plenty of it awaiting him. This is indicated by the flood of offers matchmakers of clubs in the eastern boxing belt of this country have made him. Since his arrival in this port, after a sixty-two-day voyage from Sydney, King has been spending his time sightseeing. He is ready now to resume practice of his chosen profession, and today began training at Billy Grupp's symnasium.

King has selected Joe Brannigan to map out and direct his Antican paign. The pair visited the Globe A. C. last evening. Joe had the pronoun "we" leaping all over the place.

"It will be about two weeks before we will be ready for battle," said Joseph, "then let em all come. Mick, here, is in the let em all come. Mick, here, is in the let em all come. Mick, here, is in the let em all come. Mick, here, is in the let em all come. "then let 'em all come. Mick, here, is in pretty good shape physically, altho he is a we pounds overweight. It won't take him long to get in condition. He needs to sharpen up his boxing chiefly. He has at boxed in several months, so his judgment of distance naturally is a bit off. As he practically worked his way here, he has not fattened up much. He can make 153 pounds, ringside, easily."

when he observed a woman being dragged along by a slowly-moving car from which she was attempting to alight. When the railway officials attempted to secure the name of the woman and her companion, Quint told them that they need not furnish them. Subsequently he was arraigned in the police court on information laid by Alfred Packer, a representative of the Toronto street, railway and after numbers. As already stated there are one hundred and fifty odd cars and trucks merous adjournments the case was on exhibit at the show, representing twenty-six manufacturers.
