CITY WINS CASE ON EXPROPRIATION

Several Thousand Dollars in Rents in Apartments Will Go to City Treasurer.

CHILD CASE IN COURT

Citizen of London Demands Custody of His Twelve Year Old Daughter.

Mr. Justice Sutherland at Osgoode Hall yesterday morning gave judgment upholding the contention of the city's legal department, as advanced by C. M. Colquhoun, that the only award in an arbitration case before him on which he can direct judgment is the amended award. This means that the city will receive the rents of the apartments, Glen road, from May, 1915, to the time the city went into possession, Sept. 1, 1915. Melville White, the owner, will receive interest on the balance owing on the amount of the award, some \$20,000, for the same period.

The property was expropriated for the floor street viaduct, and the award of \$41,000 was made for the award mentioned in the reasons for the award, and in the formal award they were mentioned. The owner moved for judgment on the award as it stood but the city secured an amendment by Mr. Drayton. The decision means between \$4,000 and \$7,000 to the city.

In the suit of William Link, a London machinist, against his sister-in-law, Miss Margaret Thompson, for the custody of his twelve-year-old daughter, Grace, Mr. Justice Sutherland holds that Miss Thompson must attend for examination and answer certain questions which she has hitherto refused to answer.

Mrs. Kitto is a munition worker, and had just got home when she found her husband apparently asleep in the chair. She shook him, and when he did not respond to her efforts, she became alarmed and called a doctor, who pronounced the man dead. As death was due to heart failure no inquest will be held.

CANADA WILL BE PREMIER NATION

Rapidly Forging Ahead of the States, Judge Coatsworth Tells York Society.

WORK OF PIONEERS

First Residents Were Courageous, Faithful, Religious and Thrifty.

"York Yesterday, Today and Tomorrow" was the subject of the paper read by Judge Coatsworth at the meeting of the York Pioneers yesterday afternoon. The speaker prefaced his remarks upon the subject proper by quoting a statement made some years ago by the late Rev. J. P. Lewis, regarding the destiny of Canada, to the effect that the ultimate dominating race would be north of the chain of lakes which divide the United States from Canada.

The above statement had been substantiated since by others, and particularly by Sir Wilfrid Laurier, when he said on one occasion, "The 19th century belongs to the United States, but the 20th century to Canada." Referring to reciprocity, the speaker said that in 1811 the tables had been turned and the country which had been turned turned it down had come cap in hand begging, and the government which had dared to entertain it for Canada was turned out.

The early pioneers of the County of York were described as possessing the qualities of faith, courage, hardihood, religion, thrift and many others needed for success in the war and commerce, the latter condition arriving when the neighboring country will be an importing rather than an exporting country, and will depend on the extent on Canada for its supply of food. Another item of Canada's increasing power in the old country, world was illustrated by the paper output, Canada at present supplying five-sixths of the paper used in the United States.

The York of today was illustrated by the splendid men who had given and were giving their services to the front, and the York of the future will partake of the future of Canada, which will stand out both in war and commerce, the latter condition arriving when the neighboring country will be an importing rather than an exporting country, and will depend on the extent on Canada for its supply of food. Another item of Canada's increasing power in the old country, world was illustrated by the paper output, Canada at present supplying five-sixths of the paper used in the United States.

SIR SAM WILL TALK ON THE BRUCE REPORT

Will Discuss in Parliament the Latest Phase of Criticisms of Canadian Medical Service.

Sir Sam Hughes will have some strong opinions to express at the coming session of parliament regarding the findings of the board of enquiry which investigated the criticisms of the Bruce report on the Canadian medical service in the old country. This was the only definite information he would give when seen at the King Edward Hotel yesterday. Asked if he had any message for the boys at the front, he said he had written the various commanders, and he had neither forgotten the boys at the front, nor had they forgotten him. During the day he was interviewed by many old friends, including Joseph Oliver and Lt.-Col. Levesque.

RETURN TO "BERLIN" HIGHLY IMPROBABLE

Ministers Hint at Attitude of Government at Such a Suggestion.

Hon. J. B. Lucas, attorney-general, said yesterday that while he did not anticipate any reprieve for Kitto regarding the charge from the name of the city following the election, he did not think that any committee of the house would be willing favorably to consider any such recommendation.

Premier Hearst, while he did not wish to anticipate, said there could be little doubt what action would be taken by the legislature were any such suggestion as a return to the old name made by the newly elected city officials.

An officer from the attorney-general's department has been sent to Kitchener "to make the fullest inquiries into the regrettable incident" there.

CARPENTERS LEAVE CITY.
