(Campbellton Graphic)

For the first year in the last ten there have been very few deer killed illegally. The slaughter in recent years among the deer which could not escape in the deep woods has been prevented by the good work being done by Warden Chas. B. Gray, and the forest rangers.

Warden C. B. Gray had a poacher up before the magistrate at Kegwicks accused of killing a deer out of season. He was fined \$20.00 and costs. A number of other cases are to come up shortly with good prospects for convictions. Warden Gray has a quantity of fur, the buyer having no license to buy the same. A forest ranger on the northwest side of the mountain from a logging party recently. He was threatened that he would be shot if he touched the meat, but he was not easily frightened. Things looked so serious, however, that the boss got his rifle from the cabin and threatened to shoot the first man who raised his gun. This whole party will be brought to trial.

ORDERS CAPTURED OF ARCHANGEL THIS MONTH

Bolshevik Minister of War Determined to Rush Things—Allies Confident, However

(Associated Press)

Archangel, March 21.—(By the Associated Press)—The ambitions of the Bolshevik war office for the offensive during the present month, as revealed by prisoners taken by the Allied forces, indicate that Trotsky, the Bolshevik minister of war and marine, has ordered that all efforts be made to capture Archangel in March. Such a feat, however, seemingly is impossible, and there is no lack of confidence in Allied military circles in Archangel that the American and other troops will be able to check any offensive.

An example of the fighting qualities of the Allied forces was revealed today when it was learned that this week the Bolsheviks made a second attempt to capture the DeWina-Vaga column, attacking again at Gorokha like the first attempt which was made on March 14, the enemy was repulsed by the Russians with losses approximating two hundred, of which fifty were killed.

It is understood that it has also been definitely decided to hold a meeting during the week of this fall—probably at Fredericton—to organize a permanent racing circuit and horsemen's association which will prevent cheating and bring the harness racing sport to the basis which it must reach if it is to succeed.—J. D. B.

Appointed British Observer

Major Arthur E. Partridge has been selected by the Royal Aero Club of Great Britain as official observer at St. John's, Newfoundland, for the coming trans-Atlantic flight. During the war Mr. Partridge gave up an important position on the Rochester, N. Y., Press to enter the royal navy. He took part in some important activities of that service under Commander Porter and steadily won promotion. His selection by the Royal Aero Club of Great Britain is an indication of the confidence reposed in him by those who during the war had opportunity to judge of his fitness for the very important task to which he is now assigned. He is a son of the late Very Rev. Dean Partridge, for some years dean of Christ church cathedral in Fredericton. He was for some time on the staff of the St. John Globe before going to Rochester, N. Y.

THE MARITIME CIRCUIT PLANS

(Fredericton Gleaser, Friday.) While no definite arrangement was reached regarding a harness racing circuit in the maritime provinces for the 1919 season at the conference of horsemen held here yesterday, it is expected that within a short time a definite announcement respecting a circuit to provide twelve weeks' racing on provincial tracks will be made.

Although only two tracks had representatives here, Moncton and St. Stephen, proxies were held for a number of other tracks by those present, and letters were presented to the meeting from a number of track managers, setting forth what they proposed and were willing to do this year. Secretary Hugh O'Neill of the Fredericton Park Association, announced after the meeting that negotiations would be carried on looking to the arrangement of a circuit, and he expected this would soon be completed.

Most of the difficulty seems to hinge on the fact that both the Fredericton and Moncton tracks have announced Dominion Day meetings. The Fredericton Park Association announced last December that they would give races on June 30 and July 1, while some few weeks ago P. A. Belliveau, who controls the Moncton track, announced racing on his track on July 1. After a long conference yesterday, during which the Fredericton representatives vainly offered to toss a cent to decide the question as to which track would have the Dominion Day date, it was finally decided that Fredericton would go on with its meeting on June 30 and July 1, while Moncton will have its Dominion Day meeting.

Opera House Bill Again Makes Hit

That the Opera House retains its popularity was evidenced last evening at the change of programme when throngs of patrons poured into the building to see the new vaudeville acts. The week-end bill is one of the best presented for some time and bids fair to attract record crowds. It is a diversified programme, including an abundance of comedy, a wealth of musical numbers, singing and some acrobatic feats of an unusual type in addition to this is the first episode of the serial, "The Terror of the Range," which promises to be one of the best ever thrown on a local screen. The first chapter is an exciting incident, although by no means far-fetched, and the scenes are good. The leading roles are taken by Betty Compton and George Larkin and both will undoubtedly become popular idols before the termination of the serial.

The first act was that of a tramp portrayed by Billy Roberts. This did not make much of a hit with the audience as his line of patter was not of the type which goes big in this city. However, he made a number of friends and they evidently appreciated his jokes and witticisms.

The second act was that of Cushing and Irene, who gave a pleasing comedy sketch. The male member sang a pleasing voice and sang a couple of numbers most acceptably, while his partner played accompaniments on the piano. The scene depicted the young lady being put out on the street by the landlord and the offer of inadequate and also asked the director.

The third act was a feature to those who appreciate good music. Geo. Bus, a clever xylophone and piano player, gave a recital which was in itself worth the price of admission and which made a decided hit with the large and appreciative audience. He gave a couple of classic selections and intermingled popular and ragtime pieces throughout his programme.

Partley and Dana followed with what the former was amusing and well done and his jokes were clean and amusing. The concluding number was that of the Ferraros, two clever acrobats, who held the interest of the audience from their appearance before the footlight until the curtain was rung down. The work of the female member is not only a surprise, but exceptionally good. She was largely instrumental in making the act such a popular success. The male
