ST. JOHN GIRL'S SUCCESS IN THE MUSIC WORLD

Miss LuLu Colwell Wins High Compliment in Worcester—Engaged as Quartette Soloist

St. John people, and especially those who have attended services in the Brussels street church, will read with pleasure of the success of a young singer who delighted all who have heard her sing in this city. The young lady is Miss LuLu Colwell, daughter of Ward P. Colwell of Union street. She is now living with her aunt in Worcester, Mass., and a Worcester paper pays her this very high compliment—

The music committee of the Pleasant street Baptist church has engaged Miss LuLu Colwell as contralto soloist of the quartette for the coming year. She is a niece of Mrs. Everett J. Harrington, and has recently come here from St. John, N. B., to study music under J. C. Bartlett, of Boston. She is but sixteen years of age, and is at present supplying the position at the Lincoln square Baptist church. Her range and volume of tone production are considered marvellous for one so young, by her teacher, and a real surprise in store for her friends within a few years. Miss Colwell succeeds Miss Janet Briggs, who goes to the quartette of Trinity church.

Laws was arrested by Detective Killen about two months ago and was serving a six months sentence for theft.

In our Glenwood line of ranges, we have added a gas combination that keeps our range up-to-date in every way. Our gas combination is in itself, a stove having a broiling department, besides an oven and three burners for cooking on. This Gas arrangement fits on our stoves the same as an end shelf and though part of the Glenwood Range it can be worked independent of the coal range or they can both be run together without the least fear. We are the only firm in the maritime provinces that are making a gas combination, and we always endeavor to keep pace with the rest of Canada in our line of business and in our modern foundry, we are able to add anything that we know to be of any advantage to a range. These gas combinations, like our Glenwood Ranges, have been tried, and proved satisfactory before offering them on the market.
