"Relying upon the confidence you have been good enough to show me at all times, I have stated or rather repeated all this to you very candidly and in a most friendly spirit. For I realize, as I believe you do, the grave consequences which the enactment of the measure retaining that particular provision would inevitably bring upon the otherwise happy and mutually advantageous relations between our two countries."

This reference to "grave consequences" set the pot boiling. When the Senate emerged from secret session not a few of its members proceeded to beat the war post. The exclusion bill to which Ambassador Hanihara referred would bar out his face completely. One of its clauses would abrogate the "gentleman's agreement" between the United States and Japan by which, as a matter of fact, Japanese who are eligible yet fail to vote, they seem that the bost is the polish it is not a good exhibition of the male passengers are for the most part men who have worked that day and who are weary. There enters the car, as it turns toward the suburbs, a charming maiden. Perlags some gallant rises, loffs his hat, and proffers his seat. And perhaps not. For these men are tired from the exactions of the day. A grandmother enters the crowded car, or some worried matron with an infant. The one is age personified. The other is wormanhood in need. Observe the wonderful difference in attitude of the male passengers. A dozen seats are offered. This is chivalry without qualification, without hope of reward, other than a suitable sense of having done the decent thing.
