CANADIAN SOLDIERS EULOGIZE CANADA'S GLORIOUS RECORD

New York Canadian Club Hears Stirling Addresses from Our Returned Men—France is Grateful

"Canada has made a record in this war that can never be surpassed by any nation on earth. By her valiant defence of the principles of democracy and human liberty, she has earned for herself a place on the brightest page of history. God bless her noble soul!"

As Sergt. Gay Empey, author of "Over the Top," concluded a stirring address with these words, 600 guests of the Canadian Club of New York, assembled at their annual spring banquet at the Biltmore Hotel, arose to their feet and cheered for many minutes.

Empey, who was one of the principal speakers of the evening, had held the close attention of his auditors for more than half an hour, while he told what the British army and navy had done to "make the world safe for democracy."

"That great navy," he said, "has kept the German flag out of London. The British army has kept the German flag out of Paris, and the British navy has kept the German flag out of America."

Sergt. Empey was followed by Martin W. Littleton, the eminent New York lawyer, who said: "I recall what Sergt. Empey has just said about the British navy and the army standing between us and the enemy, and I realize the truth of all he has said, for they have stood for three years between us and the imitation of Attila, the Hun, and he shall not cross."

French Appreciation.
Another speaker was Gaston Liebert, French consul-general, who spoke of the work the Canadians have done in the war, paying particular tribute to the voluntary enlistment of the Canadians.

"But I wish to speak particularly," he said, "of the complete confidence and friendship which exists between the French and British peoples. We can and should be friends, because all through the wars between France and Great Britain we always fought as gentlemen. But the Germans have violated all the rules of civilized warfare. France and England are today as closely knitted as Am-

erica and England have been in the last 100 years."

Ruston Rustonjee, an East Indian editor, was the final speaker, and addressed his remarks to the press of the United States. In part, he said: "I wish to address my remarks to the press, more perhaps than to you here, for I want to make it clear that the situation in India has been greatly misunderstood and mis-stated. A large number of idealists of India have made this a point of honor to the American people to be careful and to our posterity. Great Britain emancipated our morality and educated our character."

"In giving hospitality in the columns of the American press to these propagandists the press is unknowingly committing treason against humanity and against civilization. I am here to appeal to the American people to be careful and assure them now that India will give a whole-hearted response to the call from Great Britain."

Private Soldier's Story.
Private Jack Evans of Oshawa, Ont., was listened to with rapt interest as he told of the battle of Ypres, where he was wounded. Evans was one of fifty-eight who survived out of a battalion of 1,000 men. He said he was taken prisoner June 30, 1916, and worked in coal mines under the Germans for eleven months, finally escaping to Holland.

Yellowstone Park a Refuge for Wild Birds and Animals.
By federal enactment all of the Yellowstone Park proper and some additional territory bordering it have been made a vast national game preserve, something not originally planned. Here, within the park boundaries, deer, elk, antelope, bears, mountain sheep, moose, bison and the smaller game, birds (between 180 and 200 species), and fur-bearing animals have a refuge where no hunter or trapper penetrates and danger rarely intrudes.

There are thousands of these various animals that know they are absolutely immune from harm by man when within the bounds of this park. Most of them have never seen a dog nor heard the sound of a rifle. Under these conditions, their natural timidity is greatly lessened, and many of them, even bears, become surprisingly tame. In Gardiner Canyon, beside the road, the beautiful mule-deer and the white-tailed deer, touchingly innocent and trustful, and the mountain-sheep—the big-horn fellows—stand or lie, eating alfalfa and enjoying the protecting care of a benevolent, animal-loving government. They become almost as domesticated as barnyard animals.

Indeed, at Mammoth Hot Springs the deer actually haunt the kitchen doors and rear themselves on their hind legs against the porch railings, or even climb the steps and peer into the doors and windows, mutely begging for food, which they often take from one's hand. At night they lie on the snow under the large trees, or, in some cases, even sleep in the large cavalry barns, which have been vacant since the soldiers were removed from the park in the fall of 1916.—St. Nicholas.
