PLENTY OF IRON FOR CAR WHEELS

IAGNETIC ORE IS SUITABLE FOR THIS

uge Deposits Are Found--Limonite and Hematite Are Plentiful

(From Wednesday's Daily.) Such plants as could use magnetic Iron ore will find an inexhaustible supthe car building industry could utilize too severe, and vote these, as magnetic iron is largely employed in making car wheels. For rails, an ore which is not so rich in phosphorus is employed, as no matter how the ore is smelted, even if the same themical re-actions are obtained in the product, if the original ore was phos-thorescent in character, the iron is of a more brittle character. Discussing the matter, Mr. Brewer

'During the early nineties, while cor nected with the state geological survey of Alabama, I was brought into contact with the ironmakers of Alahama and Tennessee, and made several ons of the iron ore deposits.

bpinion hardly feasible, because the value of iron ore is so low that the fead work required to block out to be a cations, but several adjoining claims cations, but several adjoining claims have been located. Mr. Mathews says that the indications are excellent, but that it is too early yet to say anything definite with respect to the deposits there the ore occurs in lenses as all does either in limonite or magnetite. The properties are not far from minus of the Grand Trunk Pacific may be the properties are not far from minus of the Grand Trunk Pacific may be the coast will connect with the properties are not far from minus of the Grand Trunk Pacific may be the coast will connect with the grand trunk pacific may be the coast will connect with the coast will connect with the grand trunk pacific may be the coast will connect with the coast will knowledge rather than from actual development work. But where the character of the ore is a red hematite or the oreas are the oreas

"In smelting iron ore, though, mag-etite alone is not considered the most desirable charge for the furnace, but a mixture of limonite, bog or red hema-

'In the Quatsino Sound country there occur what are described as quite ex-tensive deposits of limonite or brown hematite iron ore. Consequently we have in British Columbia, the mixture esirable as well as the grade so far as contents of iron carried by the ore is concerned. To my notion the mair eature to be considered in the estabishment of any iron manufacturing plant or car plant would be a commerial question, whether capitalists can shown that cars can be manufactured on this coast at such a cost as would enable the manufacturer to compete with the car works in other portions of the continent. This is a question that can only be answered satisbe explained on no other hypothesis. factorily by practical car builders, and if I might be allowed to make the suggestion, I would refer the whole mat-ter to several manufacturers of cars already in the business; because, if you can show these men that such a plant

LICENSE REMOVED

Board of Licensing Commissioners Punish Proprietor of the Commercial Hotel.

(From Wednesday's Daily.) As a result of the investigations onducted by the licensing commissioners into the alleged misconduct of the proprietor of the Commercial hotel, which were concluded at a special session yesterday afternoon, the licensee will not only lose his privileges but will be compelled to dispose of his interests within four weeks' time.

The board had met on three previou occasions in connection with these charges, and all the meetings, including that of yesterday, were held in camera.

Evidence was given by a resident of the city that his wife had been de-tained in the hotel for immoral purposes, and the commissioners arrived at a decision only after the matter had been thoroughly gone into. Mayor Morley suggested that the punishment should fit the crime, and favored a removal of the proprietor's license, and in this he was supported by Commisply on this Island according to the statement of W. M. Brewer, ore buyer for the Tyee smelter. Amongst others however, thought that the penalty was too severe, and voted against the reso-

PROJECT TO ESTABLISH CAR BUILDING PLANT

Movement to Grant Interest on Bonds to Extend For Period of Years.

(From Wednesday's Daily.) A meeting was held in the Tourist Association rooms at 4.30 yesterday afternoon for the purpose of discussing means to bring about the estabshment of a car manufacturing plant in this city. Mayor Morley was in the chair, and after stating briefly the reason why the meeting had been called invited those present to freely express any views they held in the matter. Mr. Lugrin was the first one called upon, and he stated that the meeting had been called much sooner than he expected, so that he had not had time to collect all the information he desidered about the feasibility of estab-lishing this plant. He announced that

Mr. Whyte, second vice-president of the C. P. R., had informed him that Vancouver Island is just the place for the manufacture of cars. There is an abundance of wood and iron ore on the

ore for this purpose. When questioned about the hard wood necessary for the interior work of passenger and dining cars, etc., he replied that in all prob-ability a large amount would be im-

ported from Australia.

Mr. Matson stated that the cost of establishing a plant in the city would be approximately \$1,500,000, and he pro-Vessels Now at Quebec May

TROUBLE SPREADS IN MONTENEGRO

ARMED BANDS ARE MARCHING ON CAPITAL

Prince Nicholas Accused of Diverting State Funds to Swell Private Bank Account.

Vienna, May 1.—The revolutionary movement in Montenegro, where is a military government, has been pro-claimed and armed bands are reported marching on the capital, assuming a serious character, according to dispatches received here by the way of Ragusa. Disorder is said to be rapidly spreading throughout the country. The centre of discontent is at Andrevica, the headquarters of the Vassojevics, numerically the strongest clan in the principality of Montenegro.

The rising is attributed largely to the attempts of Prince Nicholas to override the constitution, which he bestowed upon the country in 1905, and also his incessant drain on the public The prince is accused of utilizing the

taxes of the other state funds to swell his private bank account. Even sums received from Emperor Nicholas and Emperor Francis Joseph from time to time for specific purposes of Montene-gro are said to have been diverted to the enlargement of the prince's income or spent in his attempt to ape the customs of the courts of more important countries.

The marriage of his daughter, Helena, to King Victor Emmanuel of Italy, ena, to King Victor Emmanuel of Italy, increased Prince Nicholas' ideas of his own importance with a consequent Lieut.-Col. S. Suzuki, Maj. T. Yoshida, widening of the estrangement between the ruler and the people of Montenegro. The granting of a constitution to

Montenegro turned out to be a barren

M. Takahashi, and soldiers M. Asakagift. As soon as this was realized dissatisfaction became prouounced and emigration increased so rapidly that on his way to England via Vancouver, 25,000 Montenegrins left the country during the first three months of this year. The cabinets appointed by Prince where he will attend the meeting of

independent newspapers (the government being accused of instigating the body. There will be a number of other destruction of offices of two papers at Nikshitzch and Podgeritza) fanned the revolutionary flames. Delegates of the revolutionary flames. Delegates of the revolutionary flames. principal clans, all heavily armed, after a stormy conference, decided to send representatives to Cettinje and demand that Prince Nicholas dismiss the Tomanovic cabinet. The prince replied by declaring martial law, and the Tomanovic cabinet. The prince replied by declaring martial law and calling out the militia to prevent the mountaineers from entering the capital. In the meantime the Tomanovic He will ministry tendered its resignation and it is thought probable that Prince Nicholas will reappoint the cabinet, over which Radulovic presided, as the tives of the Red Cross Society are on

throughout the country.

The movement in Montenegro is betwo secretaries, who will interpret for ing closely watched by the Austrian him, as he speaks English in an impergovernment, which fears it may spread to the province of Novi Pazar, between Montenegro and Servia, where distinguished Japanese left Yokohama Austria is responsible for the preservation of order under the treaty of Berlin, but the people of Montenegro wharf and shouted innumerable banbelieve that Prince Nicholas will suc- zais, which is the Japanese equivalent ceed in suppressing the outbreak.

KUROKI REACHES THESE SHORES

RECEPTION AWAITING GENERAL AT WHARF

Will Debark Amid Strains of Japanese National Anthem--Stay of Brief Duration.

(From Wednesday's Daily.) With many prominent Japanese on board, and chief among these, General Baron Kuroki, the commander of the first army in the late Russo-Japanese war, the steamer Aki Maru arrived in

quarantine at 3 o'clock this afternoon

She will reach the outer wharf short-

ly after 4 where the General will be accorded a military reception. News of the Aki Maru, which had een expected any time since yester by morning, first came to hand this orning, when she was reported off Carmanan at 9:30 o'clock.

Preparations were at once made for eceiving the distinguished visitor on

his arrival.

Through the kindness of Lieut.-Governor Dunsmuir, the steam yacht This-tle was placed at the disposal of the Japanese colony in the city, and a party representing the colony, accompanied by the Japanese consul from Vancou ver, Mr. Morikawa, proceeded to William Head quarantine, to meet the vessel. There, Mr. Morikawa went on board the liner and explained to Gener-

al Kuroki the nature of the reception. which was awaiting him at the outer wharf. and the band of the Fifth Regiment is drawn up. As the liner draws along side, the band will strike up the Japanese National Anthem, the Kimi Ga Yo. When the General steps ashore, he will enter the carriage of the Lieut. Governor, and in company with His Honor, will drive to the parliament buildings where the Mayor and aldermen of the city will be waiting on the steps. Mayor Morley will then present him with an address on behalf of the citizens welcoming him to Victoria, and it is expected that General Kuroki, through the medium of an interpreter, will make an appropriate reply. Subsequent to this, some of the prominent citizens will be presented to the distinguished Japanese visitor and should time permit, he will take a drive through the city accompanied by the

members of the Japanese colony. From early this morning, numbers of people have been awaiting his arrival at the outer wharf, as all Victoria is anxious to get a glimpse of the famous general who conquered Kuropatkin and the Russian legions in the late epoch-

making war. The following is the party who com rise the suite who are accompanying General Kuroki to the Jamestown ex-position, where he is going to represent Capt. Marquis T. Saigo, Capt. M. Hanaka, Paymaster K. Komori, Surgeon T.
