Cured by Cuticura. Our oldest child, now six years of age, when an infant six mouths old was attacked with a virulent, malignant skin disease. All ordinary renedies failing, we called our family physician, who strempted to cure it; but it apreal with aincar incredible rapidity, until the lower portion of the little tellow's person, from the middle of his back down to his knees, was one soild rash, ugly, painful, blo ched and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the Cuticina kersules. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my cpinion, your valuable remedies aware his life, and to whe is a 'strong, healthy child, perfectly well, no repetition of the disease having ever occurred.
