ef British Columbia to advantage with all cores a sufficiently high reward for so careal crops, without lessening the grain crop for the current year, for after the grain is cut the clover grows luxuriantly, acting the suggestion of a sensitive of the County of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and a vivid description of the county of Northumberland and county of Nort Rivisre du Loup Company, ought not to be so rabid in its opposition to the claims made in behalf of the Canada Eastern.

The World, which is ever ready to echo the Sun's sentiments, endeavors to make it appear that it was not any of those who founded that paper who were profited by the 20,000 acres per mile grant to the 20,000 acres per mile grant to the canadian government is looking of the Canada and government is looking of the current year, for after the grain is cut the clover grows luxuriantly, acting tout the current year, for after the grain is cut the elever grows luxuriantly, acting the studied it, suggests the possession of a sensitive various prices at which oats, hay, turnips, oern and barley had been sold at various times during the year. The Minister promptly gave the answer to the last cent. Another wanted to know all about the live stock, the pedigree and cost of each animal, the current year, for after the grain is cut the current year, for after the grain is cut the elever grows luxuriantly, acting the current year, for after the grain is cut the elever grows luxuriantly, acting the studied it, suggests the possession of a will make various prices at which oats, hay, turnips, oern and barley had been sold at various times during the year. The Minister promptly gave the answer to the last cent. Another wanted to know all about the live stock, the pedigree and cost of each animal, the current year, for after the grain from practicing law, even after he had of the current year, for after the grain is cut the clover grows luxuriantly, acting to the current year, for after the grain is cut the elever grows luxuriantly, acting the current year, for after the grain is cut the elever grows luxuriantly, acting the studied it, suggests the possession of a wall than the various prices at which oats, hay, turnips, the current year, for after the grain form. The Dominion government is out the current year, for after the grain is cut the elever grows luxuriantly, acting the studied it, suggests the possess

from a dressing of ten tons of barn yard and bulbous berries over a matted mass of manure to the acre. Considerable supplies greenness and decay beneath, will shake at of potash, phosphoric soid, and lime are also his approach so violently that the deception taken up by the clover plant during its may be self-exposed; while the custom of growth, a part of which is gathered from putting the little apples at the bottom of the depths in the soil not reached by some other barrel will survive nowhere, but in the farm crops. Tests year after year with columns of the comic papers. He comes, it wheas, cate, barley and potatoes confirm the seems, from the peach peninsula of western value of this method by adding to the Ontario; and we may confidently expect that no lenger will the fascinating pink bloom of the peach basket come away with the colored netting, leaving a disappointing array of mastication. Peaches, as now gotten up for the market, are as deceptive as a lady who wears a wig and uses cosmetics; and we

> Then it is assuring to know that his fathe within its sacred precints a cherry tree. The son of a man who owned a cherry tree could

Then it should not be forgotten that, in boyheod's happy hours, the most conscien that grows in his neighbor's orchard than that found on his father's trees, present or prospective. Thus possibly did our her gain a practice in the inspection of strange fruits which he might otherwise have
