EVERY SMALL BRINGS NEW ENTRIES FOR THE CONTEST

Large Numbers of People All Over the Province are After Some of the \$5,000 Prizes Offered by the Star and Sun—Read and Heed

Only five days old, but this five thousand dollar contest infant is already writhing about right vigorously to take of its swaddling clothes. The intense interest manifested in all quarters of the territory of the Sun and St. John Star, and among all classes of people in this five thousand dollar prize contest is a matter of gratification to the contest managers. A large number of nominations have been received from various quarters, and it is only another evidence of the popularity of the Sun and St. John Star. It shows that the people of this vicinity are fully awake to the great opportunity which is offered them, and that they intend improving it without the slightest delay. These nominations will be published in a short time, and from then until the end of the contest, it is not at all likely that any man or woman of any standing will have an opportunity to forget that it is in progress. Candidates will see to that. The fact that every mail brings new nominations and many names are telephoned to the Contest Department each day, shows that there are many actual candidates already in the field. Those who have no direct interest in the contest will generally look over the published list which will appear in a few days, and then when they renew their subscriptions, they will give their votes for some friend whose name appears there. Get your name in and receive the benefit of this sort of business.

Anything you do not understand, ask the Contest Manager. The pleasure will be all his when it comes to making clear any of those points so puzzling to you.

IT IS A PLEASANT JOB. The prizes are here to be won. Some one is going to get them. Some who do are those who neglect no opportunity. It is not absolutely necessary to start with a large sum of money. Sit down right now, clip out the nomination ballot and coupon. Fill them in with your name or that of some hustling friend you care for, send them to the Contest Department and they get right out to the printer. You will be surprised to find how easy it is after you make this contest your business every day, but don't spend too much time in doing this. You will readily see that this year's subscription will give you more votes than you would secure by clipping coupons for half a day. Contestants are advised that anyone who pays a subscription which is in arrears, is considered an old subscriber, and votes are counted accordingly. If Mr. Jones owes \$4.00 and pays it for the benefit of a candidate, that candidate will be given votes at one-half the scale allowed for new subscribers. Call up the Contest Department and ask all the questions you can think of. Call or send for subscription blanks and make this contest your business for the next six weeks. It's going to pay the hustlers and pay them handsomely.

PLAN TO MAKE ST. JOHN AS DRY AS A BONE

National Sons of Temperance Launch a Campaign in Canadian Cities—Salaried Organizer Coming.

BOSTON, July 16.—The National Sons of Temperance, with a membership all over the United States and Canada, have voted to buy the best to make it impossible to buy a drink of intoxicating liquor in St. John and a number of other large Canadian cities. Their method, as voted, will be to send Mr. Keene McCarthy of Toronto, one of the active members, all over Canada to promulgate the association ideas. Mr. McCarthy was also voted the authority to engage an assistant to be known as the official organizer, who will receive a salary of one thousand dollars yearly and expenses. This organizer's duties will consist of visits to St. John, Halifax, etc., where he will deliver addresses at churches and public places and seek to enlist new members and pledges of abstinence in the work. Rev. George A. Lawson of Nova Scotia, who came here to attend a convention, was one of the most enthusiastic over the new Canadian campaign, and he delivered several addresses to the members concerning temperance work.

NEW YORK, July 15.—Wall street—the opening movement of prices of stocks was sluggish and poorly defined. Interest continued largely to be centered in U. S. Steel, in which the opening sales were 8,000 shares at 71-1/4 and 71-3/4 as against 71-1/4 last night. Delaware and Hudson declined 3/4 and St. Louis and San Francisco 2nd preferred rose 1/2.

CONGRESS GONE BUGHOUSE OVER A BASEBALL GAME

Republican and Democratic Teams Face Each Other Today—One Man Too Big for a Uniform.

WASHINGTON, July 16.—Baseball mad—that's the situation in the House of Representatives today. The rival teams selected with great care from the Republican and Democratic members are primed for this afternoon's contest at American League Park and each is claiming a walk-over. The conference on the tariff, the urgent deficiency bill and in fact all other legislation has been forgotten. The approaching game is regarded by the respective sides as a national event. Ample provision has been made for substitutes in case of accident or shortness of breath in rounding the bases. Not less than ten men on a side will be in reserve. It is currently reported that every player except Representative Ollie James of Kentucky, will be in uniform, and that because of his immense stature he will be compelled to wear a pair of old trousers with suspenders of extra strength. If efforts now being made are successful, Vice-President Sherman will umpire the game, at least a part of the time. The proceeds are to go to the Playgrounds Association.

MEDICAL MEN TO MEET NEXT YEAR IN ST. JOHN

Go to the Island Only Once in Five Years—Reported Discovery of Coal in P.E.I. Creates Interest.

CHARLOTTETOWN, P. E. I., July 16.—The Maritime Medical Association wound up its labors with a garden party at Government House yesterday afternoon, and a smoker at night. At the last business session Dr. Ross of Alberton read a paper on the "Art of Prognosis." Dr. McCallum of Summerside gave a history of a brain case. Dr. Bennett of Lunenburg read a paper on "A Specialty For the General Practitioner." Notice was given of an amendment to the constitution whereby annual meetings hereafter will be held, two years in succession in Nova Scotia and New Brunswick and the fifth year on the island. The next meeting will be in St. John. At a meeting of the executive of the provincial government last night the matter was taken up of guaranteeing the bonds of a company who would establish a cold storage system for the public. Davies and Fraser propose purchasing the plant formerly occupied by the Dominion Packing Co. and installing the system there for themselves and the public. The government made a proposition which will be submitted to the company. There is excitement over the reported discovery of coal in a marsh at Alberton, Kings County. Ben. Davy is exhibiting samples of coal resembling anthracite, which he found five feet below the surface. Chas. Bridges and M. Hanna, aged about 70 each, were sent up to the superior court on serious charges in which girls of twelve years were concerned. The case occupied several days in the lower court. The evidence is unprintable.

MOROCCAN TRIBESMEN ATTACKING THE SPANISH

Large Force Preparing for an Assault, and Great Excitement Prevails.

MADRID, July 15.—Reports received here from Melilla today say that the Kabyle tribesmen, 1,800 strong, are preparing to attack the Spanish position and that great excitement prevails. MELILLA, Morocco, July 16.—Spanish troops that were sent ashore for the protection of Spanish interests were reviewed by General Marina, the governor today, opponents were placed around the city and two batteries took up a position near the locality where the Kabyle tribesmen were encamped. The gunboat Almirante Loza is cruising along the coast.

TRURO MILLMAN BADLY HURT WHEN SAW BURST

TRURO, July 15.—While operating a circular saw in his lumber mill today D. C. Mackenzie was seriously injured. The saw burst, a portion striking him on the breast and shoulder, making bad wounds and causing a dangerous shock.

GREAT MINING STRIKE FEARED IN BRITAIN

A Million Men May Quit Work in a Few Days

In Sympathy With the Scottish Strikers—Would Practically Paralyze British Industry.

LONDON, July 16.—The Miners' Confederation of Great Britain, after a prolonged meeting, has decided in favor of balloting its million members as to whether or not a national strike shall be declared in support of the Scottish Miners, who are resisting a wage reduction of six pence a day. The ballot will not be completed before July 27 and the executive committee of the confederation will meet July 28 to take action on the result. The present feeling seems to be in favor of the confederation of all mines, a condition which would entail practically the complete paralysis of British industry. In view of the consequent expected shortage in the coal supply, many factories already have served notification of the termination of their contracts.

JEFFRIES WILL MEET ANY MAN IN THE WORLD

Says He Will Cover Johnson's Forfeit of \$10,000

Trying to Make a Match Between Hyland and Wolgast—O'Brien and Flynn are Matched.

DENVER, Colo., July 16.—Philadelphia Jack O'Brien and Jim Flynn, of Pueblo, will fight ten rounds in this city July 28. A permit has been issued for the fight. Under the state laws the match can only be an exhibition with no decision. SAN FRANCISCO, July 16.—Jim Jeffries is after Al Wolgast, the Milwaukee lad who fought Battling Nelson in Los Angeles Tuesday night, and wants him to appear at his Colima Club next month. He has offered him a large sum of money. Under Jack Hyland, and he probably will accept. CHICAGO, July 15.—"If there is any doubt of my covering Jack Johnson's forfeit of \$10,000 next Saturday, just tell him to make it any amount he pleases and I will be hand with the coin. I can make any amount he will post look like thirty cents."

So declared James J. Jeffries who reached the city yesterday and departed almost immediately for Kansas City. "We will be back from Kansas City Sunday morning," he said. "We see going there simply to give an exhibition. It won't take me long now to get into trim and then I will meet any man in the world."

CHICAGO, July 16.—Mike Donlin, former captain of the New York National League team, declared his willingness to resume his place on the team if his terms are met. "We had intended to call for Eusebio Salazar," said Donlin, "but the doctors decided that my wife needed the country air more than salt water, so we postponed the trip until July 28. We shall depart for New York tomorrow and then we will go out on a farm in New Jersey for a week."

ORDERED TO SHOOT IF THE STRIKERS THREATEN

State Constabulary May be Up Against a Heap of Trouble at the Pittsburgh Steel Works.

PITTSBURGH, Pa., July 16.—"Shoot to kill if a man reaches for a gun," is the order under which members of the State Constabulary are working this morning at the Schoenerville Plant of the Pressed Steel Car Company owing to the increasing gravity of the strike situation. A crisis and probably a bloody battle is anticipated when the company announces it will resume operations. It claims 300 employees wish to return to work if guaranteed protection. Any attempt to oust strikers families from their homes in Company Row will be fought. Hopes for a peaceful settlement centered on a meeting this morning when a grievance committee was chosen to confer with the company officials.

NEW YORK, July 16.—Cotton futures opened weak July 16, 12.20 Aug. 12.25; Sept. 12.30; Oct. 12.35; Dec. 12.45; Jan. 12.55; March 12.60; April, 12.65 to 12.70; May, 12.80.

FIFTEEN HUNDRED MEN HAVE ALREADY LEFT CAPE BRETON

WEYMOUTH MYSTERY IS AT LEAST PARTLY SOLVED

Owners of the Horse and Carriage Recover Their Property—No Motive for the Act Yet Revealed.

WEYMOUTH, N. S., July 16.—The ownership of the outfit found in the woods near here has been determined. The horse belongs to Thomas Roscoe of East Halls Harbor, Kings County, and was stolen from his barn on the night of July 4. The carriage was taken the same night from the barn of his neighbor, Harry Hynley. All traces of the team were lost immediately, and Mr. Roscoe has been carrying on a wild goose chase ever since, once coming down here as far as Digby, when he gave up the search. The despatches published in the evening papers of Wednesday gave him the first clue, and he has arrived here and taken possession. Thus part of the mystery is solved, but who took the team, why did they hide deep in the woods miles away from the shore, the main road or even the railroad, and why were they so careful in hiding the movable articles are still questions. Was there a woman in the case? The presence of the parcel indicates that there was. And what became of the party or parties who drove the team to this out of the way place? Search is still being kept for a possible motive and something may yet come to light.

LATHAM'S CROSS-CHANNEL ATTEMPT A FAILURE

Aeronaut Decided He Was Too Young at the Business to Make the Flight.

LONDON, July 16.—Special despatches received here from France say that the proposed channel flight of Herbert Latham, the French aviator, has ended in a fiasco and that M. Latham's return to Paris this morning marks the definite abandonment of the enterprise. M. Latham's subject to take advantage of the splendid weather conditions of yesterday indicates, the correspondents say, that it is from his own lack of experience that Latham has fully realized the folly of his enterprise. BARTROUVILL, France, July 16.—The dirigible balloon Ville Denancie piloted by M. Kayferer, left here at 4 o'clock this morning bound for Nancy. The Ville De Nancy was obliged to come down here on account of trouble with her motor.

NEW YORK, July 16.—Glenn H. Curtiss has the aeronaut twice a flight of thirty-one minutes duration in his aeroplane at Hempstead Plains, Long Island, today. He alighted without mishap saying that he could have remained in the air for an indefinite period. His flight is believed to be the longest ever made in this country except by the Wright Bros. It followed an earlier flight of twelve minutes duration.

SUICIDE DIED AS HE REACHED POLICE STATION

OHIO, July 16.—Abraham Dreyfus, a distant relative of Capt. Dreyfus of the French army, fell dead in the police station last night just as he was being surrendered to the police by an unknown companion who fled. It was found that Dreyfus had taken poison. He had been in this city but a few weeks and was understood to be in financial trouble.

TODAY'S BASEBALL

Keen interest is being manifested over the baseball matches between the Marathons and Fredericton Tartars on the Victoria grounds today and Saturday. The revival of the capital team has caused much comment among the fans. There are, of course, a number of new faces in the line-up, but the combination is undoubtedly the strongest that could be gotten together at Fredericton. The Greeks have been playing fast ball and should give a good account of themselves. This afternoon's exhibition will start at 4 o'clock with James McAllister as umpire. The teams will line-up as follows:—

Tartars.	Marathons.
Catcher.	Catcher.
A. Finnamore.	Rootes.
First Base.	First Base.
E. Boone.	Nesbit.
Second Base.	Second Base.
Burden.	Bradbury.
Third Base.	Third Base.
Hughes.	Ramsey.
Fourth Base.	Fourth Base.
Malloy.	Titus.
Short Stop.	Short Stop.
Geo. Finnamore.	Copeland.
Left Field.	Left Field.
Quartermain.	D. Malcolm.
Center Field.	Center Field.
Dolan.	Clawson.
Right Field.	Right Field.
A. Boone.	J. Malcolm.

Business in All Lines Suffers from the Strike—Most of the Mines are Now Running and More Men are Returning to Work Every Day

OLACE BAY, N. S., July 16.—The situation at the collieries is now showing daily improvement and should the gradual drifting back to the collieries by the men continue, the company will soon have a sufficient number of men to work the collieries for this season. The total output from all the collieries working for yesterday was 4,215, which shows a most satisfactory increase over other days. The collieries in operation now are Nos. 1, 2, 3, 4, 5, 8 and 12; Nos. 6 and 7 are closed down, though the pumps and fans are being kept running. There are now over 4,000 men employed at all collieries including the miners underground, surface men, company's police and office men, and the number out on strike with the U. M. W. A. is said to be about 2,200.

This morning the Star correspondent visited several of the larger collieries and found all quiet and a fairly large number of men at work. Colliery managers report that several U. M. W. men were taken on at all the collieries today. It was remarked that at nearly all the collieries the number of men seen hanging around the streets and fences was very small and no attempt was made to stop any one from going to work. The men have been withdrawn as it were by the union officials. Some people appear to think that the U. M. W. officers have some motive in doing this as it is almost too quiet here the past two days and it may be that some new move is in contemplation by the leaders of the mine workers.

President Ross of the Coal Co. is in town this morning and is busy engaged at his office in the general offices here. He appears well satisfied with the results of the strike so far and has no fear of the result. In company with General Manager Dugan, and other officials, he visited Dominion No. 2 and other collieries and made a personal inspection of the plants and work generally.

The strike is having a serious effect on the business of the town generally, and is being felt in all trades. The longer the strike continues the more will it be felt by the business men. It is estimated that already over 1,500 men who had been employed at the collieries had left for the woods and other parts of the Dominion. The officials of the U. M. W. are steadily engaged in their headquarters dealing with the many business matters which continually arise in connection with the strike situation. Stephen B. McNeil, grand master of the P. W. A., speaking with the Star, said that as a result of the strike all Canadian coal miners will probably be formed. He thought it had been already pretty well demonstrated that the U. M. W. would never get a foothold in Canada. The U. M. W. officials claim that they are well satisfied with the result of the strike so far and are confident of winning out in the end.

THINK THAT GOLD HAS BEEN FOUND NEAR MONCTON

Farm Hand Struck Something—Allan Belliveau Hurt at St. Paul—Horse Races Planned.

MONCTON, July 15.—While working at St. Paul, Kent Co., yesterday morning Allan Belliveau was struck in the stomach by a flying piece of wood and was painfully injured. He was brought to the local hospital.

That gold has been discovered on Salisbury road a few miles from Moncton is the belief of some residents of that locality. A hired man on the Bray farm while making an excavation in a cellar a few days ago struck what he believes to be gold bearing quartz, and the owner of the farm last night had a number of men at work in an effort to locate more of the article, which will be sent away to be analyzed. There will be two days circuit horse race in Moncton probably some dates next month, when purses of three hundred dollars for each class will be offered. There will be a 215, 224, 227 and free-for-all.

On July 5, twenty-two bays of the Cathedral choir, Fredericton, under the guidance of Rev. J. Edward Hand, of this city and Rev. Canon Smithers, went into camp on the Miramichi. They report having an excellent time and a most enjoyable holiday. Rev. Mr. Hand and Rev. Canon Smithers returned to the city on Wednesday to attend the meetings of the synod committee and the camp broke up yesterday.

Mr. A. Gordon Leavitt captured a brown tail moth near the head of Garden street on Wednesday evening. The moth is a male, as were all those caught in this vicinity last year.
