Private H. Letts, La Mable, Ont.

FIRST FIELD ARTILLERY BRIGADE.
Wounded.
Lieut. Henry T. C. Whitley, Ottawa.

TURNING OUT THREE
SUBMARINES A MONTH

Geneva May 11.—A Swiss engineer who arrived here today from Hamburg, said the shipyards there were turning out three finished submarines a month. Two of them are of the larger class and one of the smaller type used for coast defence.

BARK LEAKING

Portland Argus: The barge Fortuna, bound from Cheverie, N. S., for Norfolk, and laden with 950 tons of rock plaster, sprung a leak and sunk in deep water off Mt. Desert at three o'clock on Sunday morning, being at the time in tow of the tug Gyssum King. On board the barge was the master, Capt. J. W. Dendleton of Camden, and two men, Hans Hermann of Boston and Alfred Bourquin of Ohio. All hands were on deck at the time and had just finished pumping out the craft, she having been making but little water, when all at once she commenced filling rapidly, having apparently lost a plank. So quickly did she settle that Capt. Dendleton and Bourquin jumped overboard, but Hermann succeeded in launching a boat, and in a couple of minutes rescued the two others who were struggling in the water, all being soon picked up by the tug, which had swung around as soon as she noticed the barge was in distress.

From the time the barge sprung a leak until she went down hardly twenty minutes had elapsed, everything transpiring so quickly that the captain did not succeed in saving his papers, the clothing and effects of the three men going down with the craft. The barge had hardly been submerged ten minutes when to the surprise

of Capt. Dendleton and all on the tug she partially rose to the surface, having evidently split apart and spilling her cargo, but it is not believed she will be much of a menace to navigation as in all probability she will quickly break up.

Dandruffy Heads
Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces in all you will need, no matter how much dandruff you have. This simple remedy never fails.

Much enthusiasm continues to be shown for the Liverpool Dockers' Battalion, and the number of men who have already come forward would fill the battalion three times over. The battalion will consist of picked men. Of late years the decasualization of dock labor has proceeded apace in Liverpool, and the institution of the clearing-house system was a great step forward in this direction. Hence, while many of the Mersey dockers, of whom there are over 30,000, are content with the wages earned in two or three days, the proportion of steady workers is increasing, and it is from these men, ready for and accustomed to continuous work, that the battalion will be formed. The opportunity of obtaining a guaranteed wage of at least 6s. a day appeals to them strongly, apart from the question of patriotism involved.

SCHOONER NOTES

The tern schooner Hartney W., now discharging hard pine at Canary Islands has been chartered to load on at that port for Havana, Cuba.

The tern schooner Kenneth C., now on the passage home from England,

musical talent in the country. None could have thought so many could have been constituted in so short a time."

Jesse Collings recommends compulsory enlistment for footballers. In a letter to the London Times he says: "The general public who are far ahead of the government in this matter, would approve and welcome a decided step in this direction. The question arises as to what form 'compulsion' should take. I am of opinion that, to begin with, it should be put in force only for the purpose of home defence and for service in the colonies. Few persons realize the striking effect which a few months' training has on recruits, both as regards physique and character. Even the 'weedy' ones so improve in health and carriage, so increase in girth and weight, that it is difficult after this training to recognize them as the same men. All recruits are so affected by comradeship, influence of their officers, pride in their uniform, interest in drill, etc., that they acquire a real liking for soldiering, and the bulk of them would, no doubt, be ready to join the regular army without compulsion."

has been chartered to load deals at Hantsport for the United Kingdom at 130 shillings.

The new tern schooner L. C. Tower, now on the stocks at Port Greville, and which will likely be launched next week, is chartered to load deals at that port for the United Kingdom at 130 shillings.

AT PARRSBORO

A Parrsboro despatch says: Three Norwegian barks, the Durban, Walspas and Storeborg are chartered by John E. Moore & Co., of St. John, to load deals at Parrsboro Roads for across. The deals will come from Economy, Little Bass River and South Mainland. One bark is expected to arrive next week.

BARKS AT HALIFAX

The Norwegian bark Perfect reached Halifax on Sunday, forty-four days out from Sandefjord, Norway. This is the sixth of the square-riggers which are coming to load.

The bark Blenheim from Frederikstad arrived Saturday. There are now eleven barks at Halifax to load lumber.

Six More Unidentified
Bodies Recovered.

Queenstown, May 11.—Sixteen bodies were brought into Queenstown this afternoon by a tug chartered by the Cunard line. None have yet been identified. The bodies are those of nine men, five women, a boy and a girl. They were floating with life belts. All the bodies have deteriorated.

The tug's decks were littered with deck chairs and other wreckage.

THE FRAMERS OF THE CONSTITUTION OF THE U.S.A. NO. 3

Alexander Hamilton—"Father of American Credit"

DANIEL WEBSTER says of Hamilton: "He smote the rock of National resources and abundant streams of revenue gushed forth; he touched the dead corpse of public credit and it sprang upon its feet."

No man did more to build the Constitution of the United States than did Hamilton. He took a prominent part in every debate, and worked indefatigably on all the important committees. His genius, individuality and daring foresight are indelibly stamped upon every clause of our National Law—the law under which Americans are guaranteed for all time Religious, Commercial and Personal Liberty. During Hamilton's lifetime he used his great influence to encourage and protect the brewing industry. Among all the Fathers of the Republic none knew better than he that honestly-brewed barley-malt beers make for true temperance. This American Colossus, who was second only to Washington in the service rendered to his country, drank good beer all his days. We know of no one who has yet dared declare that it injured him in any way. Under the tenets of the Constitution, which Hamilton did so much to make a fact, Anheuser-Busch 58 years ago launched their great institution. During these years they have honestly brewed honest beers. To-day 7500 people are daily required to meet the public demand. Their world-famed brand BUDWEISER because of its quality, purity, mildness and exquisite flavor, exceeds the sale of any other beer by millions of bottles.

Visitors to St. Louis are courteously invited to inspect our plant—covered 145 acres.
