

## KEEPING MEN FROM FOLLOWING A LIFE HABITUAL IN CRIME

Dominion Parole Officer, W. P. Archibald, Gives Valuable Address

Tells of Working of Parole System in Canada and Caring for a Prisoner Immediately on Discharge and Seeking to Help Him Regain Social Status.

W. P. Archibald, Dominion parole officer, gave an excellent address on prison reform before an interested audience in St. Andrew's church Thursday evening.

The lecturer was given under the aus-

W. P. Archibald, Dominion Parole Officer

pieces of the local Council of Women. Hon. J. G. Forbes was in the chair. Mr. Archibald said the economic ideal of a prison is that it shall be self-supporting, the administrative ideal is that it shall be secure and orderly; the primitive ideal that it shall crush its helplessness.

## TIREDDNESS MEANS DANGER

Indicates Faulty Blood and Worn-Out Nerves—Build Up, or Total Collapse Will Surely Follow.

When you're tired all day, bothered by trifles, exhausted with nervousness, be sure there is some thing wrong. You need bracing up, need more nourishment in the body, need a powerful medicine to vitalize the nerves and distribute force and staying power to all over-worked organs.

The most marvelous success is Ferrone, a nourishing tonic so scientific as to be the admiration of every physician. Ferrone performs wonders for people in poor health; it acts directly on the blood, enriching it with strength and new vitality, once detached to all parts of the body. Ferrone feeds the nervous system, supplies force, determines, restores, and builds up. There is no lassitude and no weakness, no nervousness, no depression, no headache, no indigestion, no sleeplessness, no loss of appetite, no loss of energy, no loss of vitality, no loss of strength, no loss of power, no loss of endurance, no loss of courage, no loss of confidence, no loss of hope, no loss of faith, no loss of love, no loss of peace, no loss of joy, no loss of life.

Stores open every evening Christmas week till 10 o'clock.

# Great Alteration Sale of Clothing TO BEGIN TODAY AT J. N. HARVEY'S STORES.

On account of the changes we propose making in our business, the new lines we intend adding, and the extensive alterations it will be necessary to make in both stores in order to carry out the proposed changes, we will begin a **BIG CLEARANCE SALE TODAY**, in order that our stock may be cut down to the lowest possible point while the alterations are being made. Any one who has had experience in alterations on store premises knows that it is almost impossible to make alterations of any extent without damaging the stock on hand. We make this sale now so that the stock will not be here to be damaged when we begin the work the first of the new year, and so that the public can have the advantage during the holiday season, when they are spending money more freely—this year they can spend it to great advantage at our stores buying **Useful, Sensible Christmas Gifts**—Gifts that will bring lasting comfort and pleasure. Remember, sale begins **TODAY**.

## CHASED BY WOLVES; TRAVELER'S WILD RIDE IN CHARLOTTE

Alexander Little Tells of Being Surrounded by Pack as He Drove Through Woods

Chased Between Basswood Ridge and Oak Hill, Fighting the Animals with Sledge Stake—Attack Given Up Only When Settlement was Reached.

(St. Croix Courier.) Our Baile correspondent writes:

In reading the numerous blood-curdling stories in regard to the prevalence of wolves in Charlotte county of late, your correspondent, along with many others of his kin, was prone to disbelieve them from beginning to end. But circumstances which have transpired within a few days in this locality have led us to a very different conclusion. After hearing the very thrilling story as narrated by Alexander Little, of Harvey, a traveling salesman for ranges or cook stoves, the individual who could doubt would indeed earn truly the title of a "doubting Thomas."

Mr. Little's business compels him to travel extensively over a great scope of territory and in these many travels he must needs traverse great stretches of lonely forests. It was only on Saturday last that the incident which we are about to relate, as told by Mr. Little himself, really took place, and the narrator is happy indeed in the thought that he is now spared to tell it to your correspondent.

## Mr. Little's Story.

"Having been busily engaged for some days in the western portion of the parish of St. James in disposing of cook stoves, when Saturday I decided to make my way for the home of John Gilmore in Baile, there to remain over the Sabbath.

"I had got as far as Basswood Ridge and was proceeding on an exciting journey, but in less than fifteen minutes I had entered the dense forest which lies between Basswood Ridge and Oak Hill I could hear a shrill cry in the distance.

"At first I thought but little of it, but as it dawned upon me that stories of wolves being prevalent on an exciting journey, but in less than fifteen minutes I had entered the dense forest which lies between Basswood Ridge and Oak Hill I could hear a shrill cry in the distance.

"By and by I imagined I could hear a dozen or more animals howling and to this I had become thoroughly aroused to the sense of my immediate danger should the sounds which fell upon my ears prove to be made by the much dreaded wolves. I urged my team along at a tremendous rate of speed, hoping thereby to reach a point of safety before the animals could overtake me, but the attempted feat seemed impossible.

## Surrounded by Wolves.

"I had scarcely reached the foot of the great hill which leads up to the so-called Clark's place on Oak Hill when the ferocious animals came upon me in great numbers.

"There really seemed to be a small army of them, but, of course, one's imagination is very much enlarged on an exciting occasion of this kind. Anyhow, there were enough of them in that pack to cause every hair on my head to stand straight. They tore and scratched at the canvas which covered the stove I had on board, and by their continued efforts they managed to carry away a portion of the covering.

"They made repeated attempts to climb upon my load, no doubt intending to make short work of me, but I fought them tooth and nail with a sledge stake until I had reached the brow of the hill overlooking the settlement.

"Finally, as I neared the farm houses and the dogs commenced to bark, the savage brutes skulked away across the field into the dense forest to the great delight of myself and equines, for indeed

## GOOD WORK ON CENTRAL

Gillmore Brown Tells What is Being Done—His Firm Will Tender for Fredericton Sewer System Work.

Gillmore Brown, C. E., arrived from Fredericton yesterday on his way to Norton. Mr. Brown in conversation with a Telegraph reporter said that when he left Norton on Saturday last the work on the Central Railway was progressing well and one span had already been completed in the Norton bridge, and the second one will be completed by Christmas. While they had been working on that bridge they had in no way interfered with traffic.

Mr. Brown said that besides working on the Norton bridge they had been working on Ward's trestle and Salmon Creek trestle. They had, he said, about twenty-five men employed and that they would keep them at work for the remainder of the season and during the winter they will erect the draw in the Washademoak bridge. This span being 145 feet long and can be erected only during the winter season on account of navigation. He said that they would also erect the Cole Creek bridge, which is a span of sixty-seven feet and can be put up much more cheaper in the winter than at any other time.

Mr. Brown added that all grading, ditching, digging and steam shovel work would be suspended during the winter season. Mr. Brown also said that in Fredericton he had been looking over the plans and specifications for the sewerage system in that city in his official capacity as city engineer, and that his firm, Brown, Brown, would tender for the construction of this work.

Mr. Brown said that his firm had been giving for the last three months, steady employment to about 400 men and that he has never had one particle of trouble with one of them in that time. The reason of this, he said, is that all of their workmen are natives of either New Brunswick or Nova Scotia and that they have not a single foreigner in their employ.

Mr. Brown also said they proposed giving the men a week's holiday at Christmas. Mr. Brown left for Norton last evening. Senator G. G. King and Mrs. King are the Royal Canadian Mounted Police of the Central Railway, said that last week more than 1,000 tons of coal had been hauled. He also said that general freight was exceptionally good and that the passenger traffic is beginning to increase even more.

## Chatham News.

Chatham, Dec. 13.—At a meeting of the Miramichi Natural History Society Association last evening Dr. Baxter gave an interesting account of his trip to the ruins recently discovered near the Baribogue river. He believes them to be of a farm house, probably destroyed in the fire of 1825 and that the owner and family perished at the same time. The stone walls evidently enclosed an orchard or garden.

At the close of the lecture the subject was discussed by Dr. Cox, Rev. J. B. McLean and E. W. Jarvis.

The following donations were received for the museum: A copy of the oldest medical prescription known, neatly framed, Dr. Baxter; polenta growing in a cat's skull, A. Perley; pistol about fifty years old found in an old camp, Miss Ida Jessamine; stones found at depth of six feet in blue clay in Queen street, Dr. Baxter, and mammoth potato, Mrs. McDonald, Point Aux Car.

At a meeting of the Chatham school board Miss Ida Jessamine's resignation was read and accepted and Miss Constance Anderson was appointed to fill the vacancy.

The managers have promised the hockey players the sking rink every Wednesday and they are now negotiating for an hour every band night, after the music stops. No doubt the request will be granted.

A short time ago persons travelled through Kent and Northumberland counties buying up fowl. They purchased three car loads of birds, which they shipped alive. Consequently fowl of all kinds were never so scarce and dear as this year.

## Popularity Based on True Merit

The constantly increasing sales of the New Century Ball Bearing Washing Machines indicate the appreciation of the many housewives who have tested and know its merit.

Sold by dealers everywhere at 85c.

Booklet will be mailed giving full description and application.

THE DOWNEY & HAWKINS CO. LTD., HAMILTON, CANADA.

## PRINCE EDWARD ISLAND FARM STATISTICS

Dairy Product Slightly Better Than Last Year—Hogs Much Less, But Price Better

Sheep Show Big Decline, While Poultry Raising Shows Marked Increase—Farmers' Institute Wants More Agriculture Taught in Schools—Presentation to U. S. Consul.

Charlottetown, P. E. I., Dec. 13.—(Special)—Interest in the Provincial Farmers' Institute convention is being well maintained. Today an excursion was held to the Macdonald consolidated school. The visiting Ottawa experts pronounced the site the best of all the Macdonald schools in Canada.

At a meeting tonight Hon. S. E. Reid, commissioner of agriculture, read an exhaustive paper on the state of agriculture in Prince Edward Island, covering every department thoroughly and submitting valuable statistics. The dairy output this year will be \$300,000, slightly better than last year, but scarcely more than half of the product of 1904. The number of hogs sold to date is only 75 per cent of the same period last year but the price is more than 50 per cent better. Sheep raising has declined 20 per cent since 1881 and requires to be stimulated. Poultry raising shows a marked increase.

After a lively discussion the meeting decided in favor of institute ownership of breeding stock. A strong plea was made for more agricultural education in the schools.

Today a number of leading citizens, including the lieutenant-governor, premier and mayor of Charlottetown, waited upon the United States consul and presented him with a gold chain and locket and address in which he was complimented on the manner in which he discharged the duties of the office for nine years and on the valuable aid he had rendered the tourist association in making the advantages of the island, as a summer resort, known to the people of the United States.

The hope was expressed that he would reconsider his intention of retiring from the consular service.

Mr. Veil replied in suitable terms. During his absence on leave he would consider the question of remaining in the position here but he would be largely governed by the department at Washington.

## SICK HEADACHE

Many varieties of headache exist, those most prevalent being sick or bilious headache, nervous headache, headache from constipation, etc.

Headache is an effect of disease, the cry of the suffering body for relief from some depressing disorder.

Undoubtedly the cause must be removed in order to cure the headache permanently. Wrong action of the stomach, liver or bowels is responsible for nine out of ten cases of headache.

In sick headache (a very common form) there is sometimes nausea and vomiting and usually constipation.

In nearly all forms of headache Burdock Blood Bitters has proved itself a specific medicine that has cured where all others failed.

Keep the stomach, liver and bowels in perfect working order by the use of nature's regulator and tonic, Burdock Blood Bitters, which cures all forms of headache by removing the cause.

"I desire to let you know how much good Burdock Blood Bitters has done for me. I was troubled with headaches all the time, and could get no relief, until a friend told me of your Burdock Blood Bitters. After taking two bottles of it, I can say that I feel completely cured."

Burdock Blood Bitters is for sale at all druggists and general stores. Do not accept something "just as good."

## TWO BAD ACCIDENTS TO AMHERST MEN

William McKenzie Knocked Down by Team and Has Leg Broken—Herbert Harris Lost Fingers of One Hand

Amherst, N. S., Dec. 13.—(Special)—Two serious accidents occurred here this afternoon. William McKenzie, of River John (N. S.), employed in the Amherst Poultry Company's pabst department, while crossing the street near the L. C. R. station, was run into and knocked down by the Dominion Express Company's team. His leg was broken and the ankle joint separated. He was removed to his hotel and medical aid at once summoned.

The injured man, who is about 65 years old and afflicted with deafness, did not hear the team, which was carelessly driven by a young lad.

Herbert Harris, a married man, formerly of Dorchester (N. B.), had his hand caught in a buzz planter in Rhodes, Curry Co.'s Woodworking factory this afternoon. The fingers were completely severed from the hand.

## Harout Items.

Harcourt, Dec. 14.—Norman MacLeod returned from Campbellton on the 12th. Road Commissioner Robert McCrae, of Emerson, was in the village yesterday.

John W. Miller, of Newcastle, visited Harcourt today.

Miss M. Ruth Thurber went to Newcastle to visit relatives there.

The Wine of Dr. Hony and Will Limited, is free from any element that causes unpleasant effects, common to many Cough Remedies, and is a perfect preparation for children and adults. For all Coughs, Irritation of the Throat, Asthma, and Bronchitis, Coughs, Throat and Lung Trouble, Croup, Whooping Cough, Sore Throat, and all other ailments of the respiratory system, it is a perfect remedy. At all dealers. Price 35c. for a bottle containing six ounces.

Letters of administration in the estate of James Vincent Hogan were granted yesterday. Miss Letitia Hogan, the estate is valued at \$302; Dr. Silas Alward, executor.

St. John, N. B., December 16th, 1905.
