TO THE ELECTORS

COUNTY OF RENFREW.

GENTLEMEN,presentation of this County in the room of your late member, the Hon Francis Hincks.

As I stated, in my reply to the Requi-sitionists, I would consult my own per-sonal inclination much better, were I to sonal inclination much better, were I to remain in retirement; but the urgent Township of McNab, to whom a requests of many friends, and the presenliberal salary will be given. Apply to tation of a requisition, signed by so many of the influential residents of the County, compel me to lay aside private feelings, and place my services at your dis-

Having resided amongst you for many years, being well known to most of you, and having my interest identified with yours, it would become my first duty, (if honored with a seat in Parliament as your Representative;) to direct attention o, and unceasingly endeavor to effect the improvement of the Ottawa Country, Ol almost all kinds, Styles and Fabrics, and more especially the prosperous Coun-

The advocation of any plan which would increase the resources of this All who are so fortunate as to make pur- in much neglected part of the Province, chases of them. All those who want would always have my steady and cordial support. The construction of a Ship Would do well to call at this Establish-Canal by way of the Ottawa River, to ment, and without delay, as there is Ocean, is one of the means which I consider of the utmost importance and absotutely necessary to this end, and as I do not doubt its practicability, I would CHRISTMAS & NEW YEAR'S earnestly urge the necessity of a preliminary survey being made as soon as possible, feeling assured that the completion of such a work would materially add to our commercial importance and prosperity and at the same time be a safe defence against hostile invasion or foreign ag-

known, and Emigration to these districts New Year's days. should be encouraged by every legitimate means, and I need scarcely say that any project which might be devised with a view to effect this desirable object would have my hearty co-operation.

Economy in the public expenditure is absolutely necessary in the highest degree and one of the leading principles of a wise administration should be a due and strict attention to the financial affairs of the Province, This I regret to say has not been attended to in every case where it might have been, and with the importance it demands in view, and judging from previous experience, I would strenuously oppose the useless expenditure of the public resources.

Whilst on this subject, I may remark that I consider the present system of perambulating Parliaments, from Quebec POR School Sections No. 6. and 7, to Toronto and vice versa, excessively injurious to the interest of the Province. and one which loudly calls for remedy, both on account of the enormous sum it periodically costs the country, without any corresponding advantages and the great inconvenience and delay to the public business which necessarily occurs by each removal. I have long been convinced of the becoming and advantage of having the Seat of Government permanently established, and without fear of being thought selfish or personally inter-ested, I unhesitatingly say the City of Ottawa should be chosen for this purpose, feeling assured that from the central that city, it is the most convenient as well as the most advantageous. This question will most likely engage the attention of the Legislature at an early date, and if elected I shall esteem it a privilege to advocate the claims of the City of Ottawa to this distinction.

A great amount of political capital has been attempted to be made out by those opposed to me, with regard to my opinions on the question of the location of the County Town, and as such a course might tend to damage my interest with some of the Electors, I think it only pstice to myselfand you, to declare emphatically that I never sought to advance the claims of any particular place for this distinction, nor do I intend, whether in or out of Parliament, to advocate such a step. I consider our County is quite sufficiently (if not too much,) burdened with taxation, and my efforts would be directed to the lessening of expense, instead of increasing it by building a Court House and Jail either in Renfrew or Pembroke.

The making of good and serviceable roads from one end of the County to the other, is a subject of immense importance, both to the Farmer and Lumberman, to the former especially, as it would enable him to take his produce to the best markets with facility, which he | qualified to teach a Common School. is now unable to do; and to the latter much valuable time would be saved, as he could have his supplies delivered at a more convenient distance from the scene of his operations, and in a much shorter time than he can at present. It would be my interest as well as duty, to effect this desirable object, it possible, and I would urge on the Government its ne-

Although thus frankly stating my views to you, Gentlemen, I would desire, if returned to Parliament, to go in as an independent member. Promises made on the eve of an election are seldom cared for, and less often kept; and I have long since formed the opinion, and have frequently found it subsequently. East halves of Lots No.5 & 6 in 9 Con. Ramsay corroborated, that the exaction of cer-tain conditions in such cases, has East & West hivs. " 19 ecarcely ever produced the desired ef-

Pledged to support no particular Min-Pledged to support no particular Ministry, (the present coalition especially) I would take my seat as an Independent Member, and trust I would always be found acting conscientiously and consistently for the benefit of my constituents, and the interests of the County at large, party or set of men merely as such would cordially support every measure having for its object the benefit of the Country and this County in particular, irrespective of the source from which such measure emanated; and of one thing you may be assured, I never would be The HAIR.
